Review of Operations as Stock Ex-change During the Day. NEW YORK, June 31.-Some slight re-cession was shown by the stock market at the opening today. Declines were general, although in no instance were they more than fractional. Union Pacific and Atchi-son declined ½ a point and United States Steel ½. The heaviness at the outset wore off and there was a gradual hardening all around. Yesterday's heavy liquidation in American Telephone ceased and it rose to a point over yesterday's closing Lehigh Valley and American Beet Sugar also scored a similar advance. Toledo, St. Louis & Western preferred gave way ½ and Great Northern Ore certificates ½. Trading in stocks during the morning was extremely light and entirely devoid of significance. The market seemed to be af-fected by the duliness in London, where thanded in the regular semi-annual divi-dent on Lehigh Valley common imparted increased firmness to the list at noon. Bonds were tregular. The usual midday duliness was intensi-tied today by the conflicting character of crop news. Becuintive operations were virtually supended after prices had been estab-lished at a level slightly above yesterday's close. The market closed heavy. Prices shaded

PUBLIC FESTIVAL IS FROGRAM

Committees Named to Carry Out Details at Meeting in Mayor's Office-Organisation of School

is Being Planned.

Board Causes Comment.

South Omaha will have an old time fourth of July this year with a program of celebration ranging from a pig sticking contest to the most eloquent flights of Demosthenic oratory. This was decided Tuesday by the arrangements committee that met in the mayor's office. Committees on finance, publicity, attractions, parade, music and decorations were appointed and the work of organizing the big demonstration was gotten under way immediately. Mayor Trainor in calling the meeting to order recalled the fact that it would be the first formal celebration of the Fourth held in this city for fourteen years. He spoke of the matter from a patriotic standpoint as well as from a commercial view. The mayor thought it would be much better to have a safe and same celebration at home where all the people of the city could take part and enjoy it than to per-

The fact is the market now, the same as every year at this time, is between corn and grass and is so poorly supplied with stock that on most days there is hardly enough on sale to really make a market. This morning there were ten or a dozen cars reported in, but most of them were single decks and as was the case yesterday, made up largely of ewes and lambs and trash of various kinds. Included in the receipts, however, were three double decks of Oregon wethers, the first of the senson to arrive at this point. As was the case yesterday morning, the buyers all seemed to want a few good killers, but good killers were in very mod-erate supply, as noted above. The result was that the trade was slow and uninter-esting and still anything desirable changed hands quite readily, with prices in about the same notches as yesterday. A few proity decent spring lambs sold up to \$7.00, with common light stuff at \$6.00. A pretty decent kind of clipped lambs brought \$6.05, with others ranging on down to \$5.15. There were a few head of ewes good enough to bring \$4.00. A few Oregon yearlings held over from yesterday brought \$4.30, with ewes at \$3.40. Commercial Club to Be Reorganized

Auxiliary Organizations Are to Be Made Part of the Club Directed by It.

> A complete reorganization of the administrative offices of the Commercial

club was discussed at a meeting of the executive committee of the club Tuesday. If the tentative plans which were laid out go through, all subsidiary branches, such as the Manufacturers' association, the traffic and publicity bureaus and similar organizations will have their administration directed from the office of the club. An assistant to the club commissioner will be appointed within a few days to fill an office which was created by the executive committee. This assistant will help Commissioner Guild in the executive work of the club, the Manufacturers' as-

sociation, and other subsidiary organiza-tions. A committee from the Manufacturers' association appeared before the ommittee, asking that the assistant be appointed no that he could help in the work which confronts the association, which is now without a secretary, as the result of resignation of Henry Gering. The committee was composed of P. E. Sanborn, T. V. Coleman and Al Scott.

Diversify and Improve the Quality of **Your Investments**

Buy United States Government Panama Canal 3 Per Cent Bonds in Denominations of \$100 to 500.

This is the only issue of the United States Government that can be obtained in considerable quantities and also in smaller denominations than \$1,000 bonds, and at prevailing prices they yield a larger return than any of the others,

The stability of the security is unsurpassed. The exemption of the bonds from taxation of any kind is another element of great value. All the interest you receive from them is free and clear from any deduction.

No matter how choice your investments may be ,a portion of them should consist of United States Government bonds, which are always available for emergency loans at more nearly their market price than any other security, and they can be converted into cash in any hour of the busioess day.

If you wish to exchange some of the sesurities you own for some of these bonds we would be pleased to advise you regarding the matter and are prepared to make the transaction for you at the best prices obtainable for those you may elect to sell.

Our circular No. 96, giving full data on new Panama Issue, also full particulars of our method of exchanging other securi ties for them, sent upon request.
