## GRAIN AND PRODUCE MARKET

Conditions Favorable and Wheat Trade More Conservative.

INJURY TO WHEAT IS SLIGHT Weather Dispatches Indicate Continged Dry and Hot Conditions Over Corn Belt-Feeling in

Corn Trade Buillah. OMAHA, June 22, 1911.

The wheat trade was more conservative today as conditions are conceded as being favorable with the exception of parts of South Dakota and showers are predicted for the northwest today. The action of the market suggests that it will take further injury to the spring wheat crop to advance prices. The trade in general is inclined to take profits as these levels. Winter wheat harvesting is reported favorable.

Weather dispatches indicate that it continues dry and hot over the corn helt. The feeling in the corn trade is very builtsh, anticipating crop scares if abundant rains are not had very soon. In the meantime prices are strong and higher every day this weather lasts.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, June 22.—Stout assertions that CHICAGO, June 22.—Stout assertions that increased acreage northwest will more than make up for all crop damage so far discovered put the brakes down hard today on wheat. For the first time this week, the market closed at a net decline for any option. Latest figures varied from '4c lower than last night to '4c advance. The lower than last night to '4c advance. The compared with twenty-four hours before, oats showing '4c gain and hog products irregular, strung out from 15c easier to 12½c additional cost.

A disposition to selze profits almost en-tirely supplanted the long continued clamor for more wheat. The radical change of sentiment developed simultaneously with gossip concerning the part which increased gossip concerning the part which increased acreage would have in offsetting the South Dakota misfortune. Moreover, there was a good deal of suspicion that the leading owner of cash wheat had been letting go unnoticed a considerable portion of the big stock accumulated in the much talked of May deal. Earlier in the session, though, the market made a dashing effort to continue the recent advance. Taking the day as a whole, September ranged from 90%c to 91%c, closing steady at 90%c, a net loss Omaha, Neb..... 18

as a whole, september a series of a shade.

Heavy selling by local speculators took all the snap out of the bull side of the corn market. September fluctuated between \$5% c and \$5% c. Cash grades were unsettled. No. 2 yellow finished at \$7% \$6% c. Oats suffered the worst backset encountered in all of the recent 14c rise. Top and bottom figures reached by the September option during the session were 44% c and \$5% with last sales % c up at 45% \$5% c.

The provisions trade simply reflected the unsettled condition in other pits. Finally pork was 15c lower to 12% up and other products 2% \$7% c off.

products 2467% off.

Latest Phase of Washington Struction Considered as Perhaps Most Disturbing Influence-North-

western Roads Suffer. NEW YORK, June 22—Hopes of a speedy improvement of conditions in the securities market and in the financial situation in general were retarded today by the effect of unfavorable influences which brough about a sharp reaction in stocks. The heaviest selling movements of several weeks were undertaken today and in the first hour of trading more shares were dealt in than during yesterday's entire seasion. Prices have given way and no recovery of consequence was effected.

The latest phase of the Washington situation was considered as perhaps the most disturbing influence. Indications that the tariff question might be taken up by congress in a comprehensive way gave that the tariff question might be taken up by congress in a comprehensive way gave rise to a revival of apprehensions on that score. The chance that further obstructions would appear in the way of the Canadian reciprocity agreement reacted against the stocks of railroads which were expected to benefit by the agreement, and the northwestern roads were among the heaviest losers of the day. Prospects of revision of the woolen schedule were associated with the decline of three points in American Woolen preferred.

Reports of possible prosecution of the United States Steel corporation were used in attacking the stock and it gave way more than usual.

for a Thursday, 12s cars being reported in. The arrivals consisted very largely of cornfed steers and among the number quite a good many very desirable killers. Desirable fat steers were in fair demand this morning and buyers picked up the most desirable of the offerings at prices generally steady with yesterday. On the other hand some of the less desirable kinds were weak and the market closed a little dull. There were a few cattle among the offerings good enough to bring \$6.20.

INSURGENTS FOR FREE WOOL Democratic Measure Starts Fine Row in the Senate. FINANCE COMMITTEE INSTRUCTED

Must Report the Measure Back for Action Before Tenth of July-Democrats Get Support of WASHINGTON, June 22 - The throwing of the democratic wool tariff revision bill

into the senate Wednesday drove insurgent republicans of that body into an open coalition with the democrats, in a demand for a general revision of the tarriff, and brought about the threatened crisis in the finance committee's control of the senate. At the end of a bitter fight, a resolution by Senator Gore requiring the finance committee to report back the wool bill before July 10, was passed by a vote of 39 to 18.

The fate of the Canadian reciprocity bill tonight in doubt. Western republicans who have fought the reciprocity measure, taking up challenges thrown down by the democratic leaders, followed each other in rapid succession with ultimatums to the senate leaders . These ultimatums were invariably to the effect that before the reciprocity bill is permitted to pass, a republican senate will be forced to undertake a revision of other schedules of the tariff including more than the woolen revision bill and the free list bill, which have gone

through the house of representatives. Of the affirmative votes cast for the Gore motion overthrowing the finance committee sixteen were republicans. They

Cummins, Dixon, Gronna, Jones, Kenyon, La Follette. Bourne, Poindexter. Bristow. Townsend, Works. Brown. lapp. This included the full insurgent strength

of thirteen and, in addition, Senators Jones, Nelson and Townsend. Senator Myers was the only democrat voting with the republicans against the motion. Finance Committee Called,

As the result of the senate's action, Senator Penrose, before adjournment, called a meeting of the finance committee, of which he is chairman, for 10:30 o'clock tomorrow morning and he and other regular republicans predicted that when the sepate convenes at noon tomorrow the wool measure, together with the free list bill, will be reported adversely,

Notable speeches on reciprocity were made in both branches of congress today. Senator Root, announcing that he favored the agreement, advocated and explained his amendment to the wood pulp and paper provision of the bill, around which amendment the reciprocity fight has centered and which amendment President Taft opposes on the ground that it might jeopardize the whole agreement. Republican Leader Mann in the house attacked the Root amendment as a violation of the Canadian reciprocity agreement.

The result of the Gore motion was to disrupt so completely the lines that have formed in the senate that it cannot be foretold now when a vote can be reached on the reciprocity bill or whether enough votes can be mustered to pass it without

Senators Nelson, Cummins, Crawford, La Follette, Jones and other republican inencouraging home industry and for several surgents from northwestern states, who have opposed the reciprocity bill because of alleged discrimination against the agricultural interests, declared that before a vote would be permitted on the reciprocity bill they would demand that the other schedules of the tariff be taken up, and would insist upon an attempt to tack many of them upon the reciprocity measure.

Senators Penrose, Smoot, Gallinger and Lodge, all members of the finance committee, declared that such a limitation mittee was "unfair, uncalled for and unreasonable." Senator Penrose characterized the Gore resolution as "rank absurdity and shallow demagogism."

Sixteen Republicans. The insurgent republicans took up the fight by declaring that the finance committee must either report out the free list bill, the wool bill and other measures of tariff revision, or prepare for a long fight to secure a vote on Canadian reciprocity. The republican leaders pointed out that if the wool and the free list bills were reported to the senate now, it

would be impossible to pass the reciprocity Attitude of Democrats.

"If the senate wants to defeat the reci-procity bill," said Senator Martin, the democratic leader, "why should it not be permitted to do so if in its judgment that is the best course to pursue? Senator Bailey declared he intended to

offer the free list as an amendment to the reciprocity measure. Senator Dixon. republican, Montana, said that if the reciprocity bill was to pass, he would fight for a general tariff revision, so that the whole country might feel the effects of the pulling down of the protective tariff "If you are in earnest," declared Senator

Williams of Mississippi, "just come up to the mark, and we'll help you to make your promise good." Senator La Follette said he favored a

coupling of many tariff schedules with the reciprocity bill, so that the president would be compelled to pass upon them as an entirety. "I believe the executive who got his

election on the promise of a downward rerision of the tariff will not dare withhold his approval from a bill that enacts into law this Canadian pact and at the same time enacts reductions in duty in these important tariff schedules," said Senator La

Cummins Joins in Demand.

Senator Cummins declared he was conrinced the senate finance committee did not intend to report any bill affecting the tariff other than the reciprocity bill. For that reason, he said, he would join in the demand that the other bills be reported out within a certain time.

NORRIS ARRAIGNS DEMOCRATS

Nebraskan Says They Have Chance to Redeem Party Pledge. (From a Staff Correspondent.)

WASHINGTON, June 22 .- (Special Telegram.)-During the course of the debate in the house today on the joint resolution pro-viding for the election of United States senators by the direct vote of the people, Representative George W. Norris secured ten minutes in which to express his views. Judge Norris advocated the concurrence by the house in the resolution as passed by Representative Norris said in part:

"I have always felt that there was and ought not to be any partisanship in the question of the election of United States senators by direct vote of the people. I have known that the rank and file of the people as far as I have come in contact with them have been in favor of this propothe leading attractions of the occasion is sition for many years, and they were not confined to any one political party."

Representative Norris referred to the frequent use in national platforms of the democratic party, which since 1909 has conis to neglect a cold or cough. Dr. King's tained a plank favoring the election of New Discovery cures them and prevents the United States senators by direct vota of the people, and he said this plank has been so often repeated that it seemed to
