ung Coats, at \$5  
and \$6.98 and \$10

**Taft May Come to Omaha**  
Has Practically Assured Postmasters  
He Will Attend Convention.

**SHERIFFS ALSO TO COME HERE**  
Sheet Metal Workers Will Hold Their  
National Convention Here for  
Four Days in August--  
Other Conventions.

Every indication is that President Taft  
will visit Omaha in September during the  
national convention of first-class postmas-  
ters, which will be in session from Sep-  
tember 12 to 15, according to a statement  
made by P. C. Withoff, president of the  
First Class Postmasters' association, in a  
letter written to Postmaster Thomas.  
Mr. Withoff said he had been practically  
assured that the president will include  
Omaha in the itinerary of his western  
trip, which he will make next fall, and  
arrangements are being made for the visit  
now.

The convention will be one of the largest  
in the history of the organization. The  
Commercial club will give a banquet for  
the visitors on one evening, on another  
there will be an elaborate formal spread,  
at which the president will speak. Post-  
master General Hitchcock also will be  
present. The postmasters will be initiated  
into the mysteries of the Ak-Sar-Ben at  
the Den on the evening of September 12.

More than 600 heads of first-class offices  
are expected to attend. The Commercial  
club plans to exert every effort to make  
the entertainment of the visitors the most  
memorable in the history of the club.  
The club has sent President Taft an in-  
vitation to visit Omaha at that time.  
The president often has expressed a desire  
to attend one of the first-class postmas-  
ters' convention. Postmaster Thomas said  
he had no doubt but that the president  
would visit Omaha.

The dates for another national conven-  
tion in Omaha have been decided upon.  
The National Sheet Metal Workers' as-  
sociation will convene at the Home Hotel  
on August 16 for a four-day session.

Two conventions will be in progress at  
simultaneous times at the Paxton hotel  
on August 1, 2 and 3. The National As-  
sociation of Sheriffs, numbering 50 persons,  
will be in session, and word has been re-  
ceived by Will A. Campbell of the pub-  
licity bureau of the Commercial club, that  
the Nebraska Association of County Sher-  
iffs will meet at the same time.

Persistent Advertising is the Road to Big  
Returns.

**Manufacturers to  
Have Superintendent  
for Their Parade**

Work on the Floats is to Start Early  
in August, to Have Them  
Ready in Time.

Plans for the manufacturers' parade, to  
be one of the features of the next Ak-Sar-  
Ben festival, were discussed at a meeting  
of the Manufacturers' association in the  
Commercial club Friday. A superintendent  
of the floats will be appointed. This offi-  
cial will have general charge of the spec-  
tacle, and will help in the arrangement  
of the individual displays. Work upon the  
floats will be started early in August.

State Labor Commissioner Guye, who  
was to have appeared before the associa-  
tion to explain his rules and regulations  
for the protection of employees of factories,  
did not appear, because of the postpone-  
ment of this feature.

**NORTHWEST DISTRICTS  
WILL HAVE FINE CROPS**

D. Clem Deaver Returns from Sho-  
shone and Reports Fine Prospects  
for Vegetables.

D. Clem Deaver, the Omaha man who  
turned the water into the Ralston unit of  
the Shoshone irrigation project last Fri-  
day, has returned to Omaha. Mr. Deaver  
declared that the opening of the ditches  
was entirely successful, the big wheel lever  
which he turned allowing the water to run  
into the dam at a rate of 80 feet per  
second. More volume is possible with this  
spring, not what would be called plentiful  
here, but what is more than sufficient  
with irrigation. I saw alfalfa there that  
I am positive will make at least two tons  
to the acre on the first cutting and nearly  
that on the second cutting," he said.

"The rain of this week has placed the  
fields of corn and grain in Nebraska in a  
much better condition than the dry weather  
spell would indicate. Wheat is being  
harvested and the loss will not be so great  
as was at first thought on the winter  
crop."

**Bruning Candidate  
for Office of Sheriff**

Seeks the Place at the Hands of the  
Democrats--Turned Down  
by Republicans.

Fred Bruning as candidate for the demo-  
cratic nomination for sheriff is a rumor  
which is now giving the Dahlman club  
some worry.

Bruning, after trading off the party that  
elected him in order to be made president  
of the county board, tried in vain to secure  
a renomination at the hands of the republi-  
cans. Then the democrats on the county  
board, whose chestnuts he had pulled from  
the fire, gave him the position of chief  
janitor. This job he now holds, but he has  
got the notion in his head that the demo-  
crats need a Moser who can poll republi-  
can votes, and cherishes the belief that  
he measures up to the specifications.

"Someone is stringing him," was the com-  
ment of a Dahlman club leader, when  
speaking of Bruning running. "He has a  
job now that is just about his size, and  
if he thinks the working democrats are  
going to pick up a republican castoff for  
this important office he must be as weak  
mentally as he is politically."

Senator John M. Tanner, who is under-  
stood to be the preferred democratic can-  
didate for sheriff, admitted hearing of  
Bruning's intention to run for the nomina-  
tion, but he refused to make comment.

"Tom" Flynn laughed when the matter  
was mentioned to him. "I can't talk," he  
said. "It's too warm," but he did not say  
whether he meant the weather or Bruning's  
democracy.

**Jewelry and Money  
Sacked by Burglar**

Afternoon Visitor Makes Profitable  
Haul at August Peterson's  
Residence.

During the absence of the family of Au-  
gust Peterson from the residence at 262  
Chicago street Thursday afternoon thieves  
broke through a back door and made a  
rich haul in watches, jewelry, cash and ne-  
gotiable checks. Two gold watches, chains,  
a ring set with rubies and pearls, two plain  
gold rings, \$30 in cash and two checks  
made out to Mrs. John Peterson by J. J.  
Stubbs were among the plunder carried off.

**JULY IS TO BREAK RECORDS**

Building Inspector Withnell Looks  
for Some Big Permits.

**WOODMEN TO SPEND A MILLION**  
Two Large School Houses May Help  
to Swell the Total of Permits  
in Omaha for the Com-  
ing Month.

A record breaker in the amount of im-  
provements to be started in the city next  
month is anticipated by Charles Withnell,  
building inspector. The month will get  
away flying with permits aggregating more  
than \$1,000,000.

The permit for the Woodmen of the  
World building will be issued next week,  
which in itself will amount to \$1,000,000.  
Then two public school buildings, each to  
cost about \$70,000, will be started. The  
contracts for these buildings will be  
awarded by the Board of Education Mon-  
day night.

Records for the month of June fell short  
by a considerable amount of the permits  
issued one year ago. Permits amounting  
to \$401,000 were issued by Withnell in  
June, while a year ago they aggregated  
\$771,000.

For the first six months of the year  
permits totaling \$2,457,328 have been issued.  
For the corresponding period last year the  
total reached \$2,152,243.

**NOTED LIBRARIAN VISITS  
OLD FRIENDS IN OMAHA**

Dr. Bernard Steiner is Much Im-  
pressed with the Completeness  
of the Omaha Library.

Dr. Bernard C. Steiner, librarian of the  
Enoch Pratt free library at Baltimore,  
spent a few hours in Omaha between trains  
on his way from the coast, putting in much  
of his time at the Omaha public library.  
Dr. Steiner expressed himself as pleasantly  
surprised at the fine library building and  
its contents, which were much better than  
he had expected to see. The Byron Reed  
collection and the beginnings of the  
museum appealed to him almost as much  
as the books. He was shown about by  
Miss Tobitt, the librarian, whom he had  
met frequently at American Library as-  
sociation gatherings. Dr. Steiner also called  
to renew acquaintance with Victor Rose-  
water of The Bee, who had studied at  
Johns Hopkins with him.

**Retailers at Den  
Will Be Special  
Guests of Samson**

No Other Initiates Will Be Allowed  
to Share the Honors with  
Them Monday.

Samson will have the retailers of the city  
as his special guests at the den next Mon-  
day night. No other organization will  
share with them the privilege of the king's  
hospitality, and Samson has ordered that  
the retailers show their appreciation of this  
evidence of royal condensation by being pre-  
sent to a man.

As there are about 600 retailers in the city,  
a large number of whom are not knights,  
a record-breaking crowd is being prepared  
for.

In his edict Samson appends the following  
advice:

"It will do you good to come out and  
meet your fellow tradesmen. We shall  
count on all of you being there, for Omaha  
retailers are known for their hustling, wide  
awake qualities and no live wire of a  
business man is going to miss this  
chance of making a big night and a big  
showing for his particular line of business."

Monday night, July 17, which was set  
aside as automobile night, will be turned  
into a "good roads" night, to which the  
automobile men of the city will be an im-  
portant adjunct. The good roads committee  
will be invited.

**THREE NEBRASKA TOWNS  
GET ONLY A SLIGHT RAIN**

Hot Winds Generally Prevail Over  
the Remainder of the  
State.

North Platte, Valley and Brady Neb.,  
were the only towns in the state which  
had even a sprinkle of rain Thursday night  
and Friday morning. Over all the state  
the same hot wind which blew through  
Omaha was felt. However, no damage to  
crops is expected because of it.

R. A. Smith, head of the Union Pacific  
advertising department, and incidentally  
one of the students of crops of Nebraska,  
returned from a trip through the state  
Friday morning. He declared that the  
crops along the Union Pacific line in  
Nebraska were in the finest of condition,  
the corn never looking better. Oats har-  
vested well, averaging anywhere up to  
sixty bushels an acre, and winter wheat  
from ten to thirty bushels.

**Mother of Twelve  
Seeks Janitress Job**

Mrs. L. Loubauf Puts In Application  
to Succeed Miss Josie  
Vaneck.

Because she has twelve children, Mrs.  
L. Loubauf, who lives in Gibson, thinks  
she is entitled to a job as janitress of one  
of the public school buildings. She has put  
in an application to the Board of Education  
for the position at the Gibson school made  
vacant by the death of Josie Vaneck, who  
committed suicide this week.

**Farmers' Elevator Pays.**  
ABERDEEN, S. D., June 30.--At the an-  
nual meeting of the Farmers' Elevator com-  
pany at Columbia, a dividend of 30 per cent  
was declared. Last year a 25 per cent  
dividend was declared, and the year prior,  
a 20 per cent dividend, making dividends of  
75 per cent for stockholders in the last three  
years.

The Key to the Situation--See Want Ads.

**Garbage Collectors  
Are to Be Given Fines**

Not to Be Permitted to Collect for  
Hauling Away the Gar-  
bage.

An ordinance making it unlawful for any  
driver of a garbage wagon to solicit or  
accept pay for his services or to accept  
"tips" from householders of the city is be-  
ing drawn by City Attorney John A. Rine.  
A fine of from \$10 to \$15 is the penalty  
named for violation of the ordinance.

Complaints that drivers of wagons op-  
erating under the new plan of municipal  
sanitation have been preying on housewives  
who are not familiar with the free collec-  
tion plan have been filed with the health  
department. Various schemes have been  
resorted to, among them one where the  
driver says he is not required to collect  
refuse and charges for this service.

At present no provisions exist in the city  
ordinance to meet this condition, and to  
stop it the ordinance has been drafted.

**THE Laundry Bag**  
says:

"Turn me head down  
and empty 'em out if  
you will, but Corliss-  
Coon Collars come back  
to me still. That's be-  
cause they're made to  
stand the racket at the  
laundry. It's wonder-  
ful the number of  
laundry trips they make  
before age overtakes  
them. Try them and  
see for yourself."

**Corliss-Coon**  
Hand Made Collars  
2 for 25c  
Corliss, Coon & Co. Makers
