 Beef steers were in active demand and everything desirable changed hands very feadily at good strong prices. As high as \$6.40 was pail for the best cattle here. \$12,007.50; bulk of sales. \$26565.67; bulk was really the most satisfactory Friday's market from a seller's standpoint experi-enced in a long time. For the week the rood kinds of cattle are safely 126252; bisher than last week's close.

Wheat traders here would not be sur-prised if the talk of black rust in Canad inhould prove accurate despite the deniais. The bulls were also encouraged by a re-turn of hot weather in South Dakota and by the strength of prices for corn. More-over, the seabcard sent word that twenty-five boalloads, mainly durum, had been sold for export. On the other hand there was steady hedging in July wheat by country dealers who were forwardling bills of lading for shipments of newly harvested grain. The closing tone was weak. High and low points reached by the September option were 20562593-8c, with hast sales 6-8c up at 89526897-8c. With the west persisting in alarm about corn, that cereal climbed. An official re-port gave the condition of the crop in Oklahoma as low as 50.9 per cent against \$2 a month ago. During the day September anged from 20% geto 61% c but closed easy at 61-826040; a net gain of 11-8c. Cash grades were firm. No, 2 yellow finished at 59% g69%.

NEW YORK, June 30.-Movements of stocks today betrayed the uneasiness feit on account of the government's action against wire manufacturers, made known yesterday after the close of the market.  Intimations that this step represented only one branch of the investigation which is being carried on by the government, involving the activities of the United States Steel corporation, disturbed speculative sentiment further. The bears, however, failed to inaugurate a movement of sufficient size to give the market a decided impetus downward.
 United States Steel lost less ground than did other stocks not directly concerned in the events of the day. The attack of the bears against this stock has been so persistent that the short interest is thought to have reached large proportions, placing it in a strong technical position.
 The Harriman insues, Southern Railway preferred, Chesapeake & Ohio and Kanasa City Southern were the weakest of the railroad group, while in the industrial list Amalgamated Copper and American Beet Sugar experienced setbacks.
