When the Big Show Comes to Town

SANDWINE, THE WORLD'S STRONGEST WOMAN.

We recall the old stability dressed sailor coming into the ring, mounting a raring steed, and throwing off his ragged garments, appearing in his splendid glory. Then the wire top walker, as fancy a fairy as ever flourished out of fairyland, the trapeze performer diving from perch to perch like a bird in the woods; the man who could do a double somersault over the backs of sixteen horses and three elephants. While imagination waits on memory there is no end to the reminiscences.

No institution in the world gives so much wholesome pleasure and instructive amusement to the little folks as the circus. The modern creator of circus programs arranges his performances to include many special features which will appeal to the children, recognizing at the same time the fact that what amuses and educates the children has an equal attraction for their elders. The proprietors of the Barnum & Bailey Greatest Show on Earth are really eminent philanthropists. Immense happiness will permeate the entire atmosphere next Tuesday, which will be circus day for Omaha.

The circus is irresistible. You cannot escape the fever. You laugh and chatter with the little folks, to whom a circus is the greatest event of their lives. More anxiously anticipated than the day of Christmas or the celebration of Independence day.

Amusements. Dale Marshall and Irene Moore, chess players and players, are heading the bill at the Bone Summer Garden this week. This pair have been on the Oregon trail recently and are one of the best attractions of the season. One of the most original and unique features of the street parade, home for the buried dinner, then the show grounds, all the marvelous wonders of the menagerie last, nothing but jumbo treatment clear up to the last act of the enormous three-act circus.

The closing of the Ingraham company's engagement last evening leaves the Gayety troupe free to again offer, starting at 7 o'clock this afternoon, the policy of summer entertainment that for the last three summers has been accepted as the ideal hot weather diversion—vaudeville. The program will be given continuously every day from 7 to 11 and from 7 to 11 p. m., with complete change of bill every Thursday and Sunday afternoon. For the feature of the introductory program to start today the entire troupe, Dr. A. L. Fetterling, has been engaged for the entire week, to deliver his graphic lecture, "Blood From Stars" in two distinct parts, the first part of the lecture, "The Secret of Cosmic Life," being his subject for the four days starting today, and "The Varied Life of the Cosmos" being his subject for the last half of the week, starting Thursday afternoon. Both lectures will be illustrated by cinematograph views, made especially either by or for him in some of the most noted penal institutions in the country. Diversity will give the entertainment by the appearance of the first half of the week of Calver and LeBar in a singing, talking and dancing act of much diversion. The man-

agement has engaged Babe Laird, a singing soloist with a bundle of songs so numerous that she will be retained for the last half of the week. Miss Laird was one of the principals with "Honeycomb Trail" company all last season. The entertainment will be interrupted by a generous showing of the Gayety's own distinctive vaudeville program, which for the last three summers, have always been accepted as the largest, best and newest west of Chicago. One may go at any time and stay as long as desired.
