Carlot Beceipts. Wheat. Corn. Oats. CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Pestures of the Trading and Closing
Prices on Board of Trade.

CHICAGO, July 14.—Fear of forced liquidation through the calling of loans by the banks had considerable effect today in causing wheat prices to smash. Recordmaking deliveries of new wheat from the farms put trade facilities under a heavy strain. At one time the market showed a fall of more than 3c for the July option. Taking the list as a whole, latest figures, however, were at a net decline of but 1968 1966. On the other hand, corn finished with a gain of 4c to 5c and cats up 4c to 5c. The outcome for hog products was a loss of 196c to 15c.

of 3½c to 15c.

Wholesale unloading, hedging and short selling made the pressure on the wheat market the greatest since the end of the big deal hare in May. The impression spread that the principal longs were letting go of holdings not only in Chicago.

but also at St Louis. Meanwhile arrivals

spread that the principal longs were letting go of holdings act only in Chicago, but also at St. Louis. Meanwhile arrivals of wheat at primary points totaled three times as much as a vear ago and six times as much as two years back. The final straw, though, came from reluctance of buyers, who were restrained by an idea that the banks might withdraw support from operations which might appear to be of an unduly speculative character. Between the opening and the closing September, the most active month, ranged from 87% to 55%c, closing weak, at 57%c, a net decline of 1%6%c.

The corn market was extremely nervous and irregular, but constantly higher than last night's level, despite the weakness of wheat. September fluctuated between 65%c and 67% 67%c and closed firm %6%c up, at 67% 67%c and closed firm %6%c up, at 67% 67%c and closed firm \$60% 100 corn. High and low points reached by September were 67%c and 46%c, with last sales at \$60% c net higher, at 67%c.

The provision pit had a deserted look because of the overshadowing interest in grains. At the last gong pork was dragging 10m16c net lower, lard off 2%60c and ribs down 7%600c.

NEW YORK STOCKS AND BONDS

Lowest Level of Three Years on Stock Exchange.

MOST LEADING ISSUES HOLD FIRM During One Hone of Morning Not Share of United States Steel Is Bought or Sold, Which

NEW YORK, July 14.—The lowest level of three years was reached today on the Stock exchange. Transactions for the entire session were \$7,300 shares, the smallest day's business since July 3, 1908. The leading railroad and industrial stocks held firm. Operators regarded the state of duliness into which the market has fallen as natural at a time when more definite indications of crop prospects are being awaited as a guide to future movements not only in the stock market, but in business.

Among the specialties the fertilizer stocks were most conspicuous. All of the stocks in this group recovered a part of their recent losses on what appeared to be short covering.

values on the short fed and grassy grades that are becoming very numerous every day. A fair demand has existed throughout the week for desirable killing stock and there seems to be a good healthy undertone to the trade.

The market for cows and helfers was very moderately supplied today, and for the most part prices were in about the same notches as on yesterday. In fact, there has been very little change all week. The demand has been broad for good killing stock, both cornfed and grassers, and increased competition from feeder buyers for the different grades has been responsible for a strong, active market for anything of this kind. Veal calves are 250790c lower than a week so but bulls store. for the different grades has been responsible for a strong, active market for anything of this kind. Veal calves are 25050e lower than a week ago, but bulls, stags, etc., are selling just a trifle better than they were at that time.

Owing to the very limited fresh receipts there was very little trade in stockers and feeders, but that little was at somewhat stronger figures. Since the recent rains throughout the corn belt the demand has increased very materially prices are 50050c higher than they were at the low time last week. All grades find a ready sale and the tone to the trade is better than it has been for two or three weeks back.

Quotations on cattle:

Good to choice beef steers, 36.3506.65; fair to good beef steers, 36.906.30; common to fair beef steers, \$6.906.30; common to fair beef steers, \$6.906.50; good to choice helfers, \$6.906.50; fair to good cows and helfers, \$2.2502.75; good to choice cows, \$4.7505.50; fair to good cows and helfers, \$2.2502.75; good to choice stockers and feeders, \$4.566.20; fair to good stockers and feeders, \$3.504.60; stock haifers, \$2.766.75; veal calves, \$3.5096.60; bulls, stags, etc., \$2.7066.06.

HOGS—Hog trade dropped to levels a nickel lower, but the decline was attended by a greater uniformity of prices than was evident yesterday. The same scale of values in force at the opening was retained until the extreme close of the session. Demand failed to show very much life, a characteristic of a failing market, and despite a light run, it was well along toward il o'clock before clearance had been made.

In the neighborhood of 100 loads were yarded bulk consisting of bacon and light butcher grades. Packers bought the big end of this estimate, only a few loads moving on outside orders. Purchasers for shipment usually had more or less weight. There was little or no demand of a purely speculative nature.

Long strings ranged from 36.20md.30, and best bacon animals settled to 36.35. This top shows a 15c loss from yesterday's high price, but the discrepancy is partly explained by the fact that yesterday's top was made at the high time of the market. Representative sales:

No. As Sh Pr No. As Sh Pr. St. 151. 152. 153.

SHEEP—Contrary to expectation, the sheep and lamb markets ruled steady to possibly a little stronger in spots. For a Friday supply was large enough to prompt cheaper cost in buying circles and a weaker trade was also encouraged by bearish advices from other points. The demand had fair volume and healthy tone, however, and anything fat had little in clearing at good, firm prices.

About fifteen loads were received in all, and offerings consisted almost entirely of grassers from Idaho. Sheep outnumbered iambs by three to one, but a six-load shipment of yearings was included in the run that carried a rather large feeder end.

Idaho wethers of toppy quality moved at \$4.56, and yearings from the same state landed at \$4.75. Three loads of Idaho lambs, almost identical with the \$6.55 article yesterday, were able to repeat, ruling firm. It would take something extra choice in this line to reach \$7.00, a limit that is relatively high as compared with those quoted at other leading markets.

Matched with values a week ago, current prices give uneven comparison. Losses are largely confined to lambs, however, as the south has been furnishing a raft of light market breeders. Local declines in lambs range from \$0 to \$50, but the severity of the break is partly traccable to natural adjustment of a trade that was abnormally high a week ago. Desirable fat sheep are closing about steady. Feeders have acted poorly and a light supply has occasioned no regrets on the part of sellers.

Quotations, grass stock: Spring lambs, fair to good, \$5.0006.5; yearlings, feeders, \$2.507.00; spring lambs, fair to good, \$6.0006.5; yearlings, feeders, \$6.507.00; spring lambs, \$6.507.00; yearlings, fair to choice, \$5.5594.0; weekers, feeders, \$6.507.00; spring lambs, \$6.507.00; yearlings, fair to choice, \$5.5594.0; weekers, feeders, \$6.507.00; spring lambs, \$6.507.00; yearlings, fair to choice, \$5.5094.0; yearlings, fair to choice, \$5.5094.0;

Thirty Wounded in

SARAGOSSA, Spain, July 14.—Thirty persons were wounded last night during encounters between the strikers and givil guards in the streets of the city. The strikers, armed with revolvers, attacked the police from different quarters and the city was thrown in a state of terror. The shops this morning are closed and no newspapers appeared on the streets. A state of siege probably will be proclaimed.

BOY SHOT IN A SHAM BATTLE Indian Lad is Killed in a Mock Fight on the Rosebud Reservation in South Dakota.

SIOUX FALLS, S. D. July 14.—(Special.) An Indian boy, aged about 14, whose name was not ascertained. was accidentally shot and killed during a sham battle between Sioux warriors on the Rosebud reservation. The boy was mounted on a pony and was participating in a battle. While the battle was the hottest the boy was seen to topple from his saddle to the ground. Those near him who went to his assistance supposed he had been thrown from his horse. He was carried to a tepec and a physician summoned, who found the boy's arm was broken. While the physician was setting the arm the boy suddenly died. Puzzled as to what could have caused his death, an examination was made, when it was discovered that he had been shot through the back. No blame was attached to any one, as the shooting was purely accidental.

DUN'S REVIEW OF TRADE

Prevalence of High Temperatures

Affects Business Adversely.

DEMAND REOPENS STEEL MILLS

Movement of Footwear Gradually Increases, with Buyers Mere Numerous in New England Market.

NEW YORK, July 14 -- Dun's Weekly Review of Trade tomorrow will say:

Prevalence of high temperatures throughout the country has adversaly affected business, notably in retail lines.

In response to the broader demand for finished materials, the steel mills are rapidly resuming operations, having taken less time than usual for repairs and inventories. A more favorable showing taken had been expected was disclosed in the unfilled tennage report of the steel corporation, orders on hand during June increasing 246.51 tons, whereas in the two months immediately preceding these was a combined falling off of fully 334,000 tons.

Only a moderate accumulation of pig iron has been reported and it is believed the output of merchant furnaces is now below consumptive requirements. Two additional stacks have been blown in in the south. Activity in the structural division is temporarily more pronounced in the west than at the east, but about 20,000 tons have been taken here within the last fortnight. riew of Trade tomorrow will may:

Numerous orders for railroad equipment are in sight, but delay is noted in making awards. footwear gradually Movement of footwear gradually in-creases. Buyers are more numerous in the New England market, but caution con-tinues to be displayed in all transactions. Retail tride, however, continues to show improvement. Pronounced strength still rules throughout the leather market, with special firmness in sole leather. Trade is not active, and business is reduced by the slowing down of shoe factories and by ex-cessive heat. Except for a slight weak-ness in England, all European markets are strong.

BRADSTREET'S REVIEW OF TRADE

Events of Last Week Are Favorable in the Main. NEW YORK, July 14-Bradstreet's tomorrow will say.

morrow will say.

The events of the week have been mainly favorable, due to the passing, in the main at least, of the heat wave, the worst for a decade; the occlurrence of rains in drouth-stricken sections staying the further deterioration of the corn crop; the maintenance of flattering conditions as to the cotton crop outlook and the widening of activity in the iron and steel trade.

Though midsummer quiet still prevails, trade conditions display a slightly better undertone. Withal, buyers are conservative about placing orders for future business and comparatively few salesmen are on the road. In fact most interests seem to realize that trade will not improve much until near the fall season, when prospects as to crop yields will be more freely developed.

Wheat, including flour, exports from the United States and Canada for the week ending July 13 aggregate 1,80,083 bu., against 1,34,275 last week and 1,196,248 this week last year.

For the two weeks ending July 13 exports are 3,148,358 bu., against 2,754,023 in the corresponding period last year.

Corn exports for the week are \$88,391 bu., against \$56,017 last week and 440,757 in 1910. For the two weeks ending July 13 corn exports are 1,874,408 bu., against 771,829 last year.

Business failures in the United States for The events of the week have been mainly

Year.

Business failures in the United States for the week ending July 12 were 194, against 189 last week, 202 in the like week in 1910, 206 in 1909, 258 in 1908 and 177 in 1907.

Kansas City Live Stock Exchange is Restrained

Court Orders it to Abrogate Rule Prohibiting Members from Dealing with Independents.

KANSAS CITY, July 14.-An order re-Stock exchange at the Kansas City stock yards from boycotting independent operators or doing anything that would be in restraint of trade was made by Judge Thomas in the circuit court here today. The order followed charges that "flagrant acts in restraint of trade" by members of the exchange had tended to "destroy the open market."

The members of the exchange are by the order given until September 9 to abrogate rule 10, which provides that any member of the exchange who sells or buys cattle from an independent operator shall be subject to expulsion.

Plans for Better Relations with Japan

for Lectures by Eminent Men of Each Nation.

NEW YORK, July 14.-The custodians of the \$10,000,000 Carnegië peace foundation announced today a campaign of popular education to establish friendlier relations be-tween the United States and Japan. The division of intercourse and education has arranged an exchange "to give to each people better knowledge of the other and to help build up a public opinion in both countries that will resist all attempts to arouse antagonism.**

Under this plan Dr. Inaso Nitobi, president of the First Higher college of Tokio and one of Japan's foremost educators, will be brought here early in October. He will spend about six weeks in some of America's colleges, lecturing on Japanese history and current problems. The following year a "distinguished American" will be sent to Japan for a similar service.

French National Fete

PARIS, July 14.-Threats of the revolu-Riot in Saragossa tionary element to mar the national fete with violence had failed up to noon. The only incidents were minor disorders by a band of young royalists.

Republican guards occupied the principal centers and prevented the socialists and the striking building workers from marching to Sante prison and making a demoustration on behalf of the freedom of their colleagues who were imprisoned for viotence and anti-militarism.

The annual review of the troops at Long Champs was a magnificent spectacle. Five hundred thousand persons saw Prosident Pallieres, with the diplomatic corps and the picturesque surroundings and the Abyssinian mission at his side, present the

colors to the regiments. Dirigible balloons performed evolutions above the military field, but the army aeroplanes were not permitted to take part in the maneuvers because of the danger to the soldiers on the grounds.

As President Fallieres was returning to the Elysee palkoe a crowd of royalists shouted. "Long live the king," but other spectators turned upon the disturbers and drove them from the streets. Some blows were exchanged and the police made many arrests.

American Telephone & Telegraph Co

A dividend of Two Dollars per share will be paid on Saturday, July 15, 1972, to stockholders of record at the close of business on Friday, June 30, 1911. WM. R. DRIVER, Treasurer.
