## SCHOOL AND COLLEGE WORK

### Midsummer Activities in Various Educational Circles.

### TEACHING VIRTUE IN SCHOOL

**Record of Man Named for National Commissioner of Education—Guiding Rules for Pharmacists.**

The summer session of 1911 is the most successful in the history of the Kearney Normal school. The attendance reached between 700 and 800, the building being crowded to its capacity. Practically the entire registration is on hand. A comparatively few have withdrawn. Practically all of the students are working for advanced credit.

Work is progressing rapidly on the south wing. Within a few days the workmen will be ready for the structure line. If materials are furnished promptly the building will be enclosed before fall. Contractor Cressley is pushing the work with all possible speed. The students and faculty are anxiously watching the progress and anticipating the convenience the building will be to the school.

Miss Anna Caldwell, director of the kindergarten, has arrived in England. She reports a pleasant sea voyage. She will spend the first semester in travel and study, returning in time to take up the work in February. She is in company with Prof. and Mrs. Caldwell of the university. Miss Marion Smith, who has been studying art at Woodstock, N. Y., has transferred to the Cape Cod school and will spend the rest of the summer studying in Massachusetts. Prof. Snodgrass of the department of mathematics is in San Diego, Cal., recuperating his health after a slight attack of paralysis in the spring. He is expected to be at his post again in September. Prof. C. N. Anderson, who was injured in a fire at Brush, Colo., some weeks ago, is rapidly recovering.

Miss Sara L. Garrett spent Saturday and Sunday, July 15 and 16, with friends and relatives at Fremont, returning Monday morning in time for her school duties.

Miss Serena O'Brien gave several readings at chapel Thursday morning, responding to hearty cheers.

Superintendent A. L. Caviness of Fairbury paid a short visit to the school on Tuesday. Mr. Caviness is chairman of the state board of examiners for life certificates. He was getting data concerning the issuance of fifty certificates.

Superintendent Ellis U. Graff of Omaha, Mr. Curtis of the American Playgrounds association of New York, Dr. A. E. Winship of the New England Journal of Education and Superintendent James W. Crabtree of Lincoln are expected to be present at the last days of the summer school. Several local speakers will assist in the closing program.

Barney W. Gill of Diller, a graduate of the class of 1911, is visiting a few days at the school.

About fifty former graduates of the normal are carrying work on their degree courses during the summer school. A large number of principals and superintendents are registrars.

Miss Alice Stanley, secretary to President Thomas, left on Wednesday, July 12, for a short visit in Arizona, where her sister is connected with the government service.

The normal school gave a lawn fete Friday evening on the normal campus. Prof. Porter with his band furnished the music for the occasion. Mr. and Mrs. C. L. Cole sang. Miss O'Brien gave several readings and the Young Women's Christian association served ice cream. The attendance was large and everyone had a good time.

### RECORD COLLEGE.

**Summer Visitors and Social Diversions of the Week.**

Miss Grace D. Stilwell is in the city visiting Mrs. Belle M. Bell. She has been teaching in South Omaha schools for the last three years, but has recently been elected to the Omaha schools. She is making an enviable reputation as a teacher and her election to the Omaha schools was a surprise. She is one of the warm friends of the Fremont college and has graduated from three of its departments. She will take a rest at Battle Creek, Mich., for a month and on her return will attend commencement exercises at the college.

W. H. Munton read a paper on the college on Tuesday. He was a scientific of 1907 and is making good. He has been interested in school work the greater part of the time since leaving the college, but for the last year has been in the business of manufacturing tobacco in Hastings. He is planning to go to Ann Arbor and take law as soon as he is able to leave his business.

F. S. Sheifein, graduate of 1908, was a pleasant caller at the college during the week. He has finished the second year in the law at the Nebraska university and will take the remainder of his work at Columbia college.

Mrs. Mueller, the German teacher, again entertained her classes at her home on Wednesday night. She is a genial hostess and her pupils always look forward to these little feasts with much pleasure. The members of the four classes were all out. Games were played on the lawn, followed by house games, music and refreshments.

Mr. Gurfey, who is doing orchestral work in Sioux City, was at the college during the last week and played in chapel. His wife accompanied him. The music was most appreciated.

Miss Florence Warren, a former member of the shorthand school, was a visitor today. Her home is in Missouri and she is here on a vacation trip.

George Fuller of San Francisco, Cal., is visiting Prof. and Mrs. Swihart.

C. W. McQuaid, a former student at the college and a resident of Fremont, gave a very interesting talk last night in the Union Society hall last Friday evening. He has developed this art in a most phenomenal way, having had only a few instructions. He is young and in time will, no doubt, be heard from among those of greater merit.

Rev. Frank Reed spoke in chapel Thursday morning. His subject was "The Value of Character Building." Miss Naama Forbes read several selections. Prof. C. W. Weeks rendered several solos and a most interesting morning was enjoyed by all attending chapel.

### OMAHA DOCTORS ARE

**Ready to Get Back of Old Doc Wiley**

Telegram of Protest Sent to Senator Brown Urging Him to Get Busy in Matter.

The "higher ups" will not get "Old Doc" Wiley's scalp without meeting some resistance. People who are in favor of pure food, pure drugs and unadulterated stuffs of all sorts in their daily lives are getting busy on the matter. No formal efforts at a protest have been made in Omaha so far, but a number of informal discussions have been held and the net result of each is that Dr. Wiley must not be sacrificed because he has offended some of the big men of business who have fattened upon the sale of impure or adulterated foodstuffs or drugs.

Omaha doctors have discussed the matter informally and have agreed that the matter will be taken up at the next meeting of their association. They also endorse the following telegram which was sent to Senator Norris Brown by Dr. J. P. Lord last night:

OMAHA, July 16.—To Senator Norris Brown, Washington: Your profession and the informed public are shocked at the unscrupulous and covert attacks upon Dr. Wiley. Unethical motives of men subservient to the most selfish and inhuman vampires of the country are at the bottom of this surreptitious and unwholesome movement to undo and overthrow the inestimable good accomplished for all of us who would otherwise be defamed. Please use your influence with the president and in your own sphere. Mr. Crummer, president of the Omaha Medical association, authorizes the use of his name also.

J. P. LORD.

### COMMISSIONER OF EDUCATION.

**Tennessee Man Named for the National Post.**

President Taft has nominated Prof. Philander P. Caxton of the University of Tennessee as commissioner of education, to succeed Dr. Elmer Ellsworth Brown, who recently resigned to accept the chancellorship of New York university. The new commissioner is a graduate of the University of Tennessee and of Johns Hopkins and has studied in Germany and Sweden and has been a teacher, principal and superintendent of public schools in Tennessee and North Carolina. For the last eight years he has been professor of education in the University of Tennessee, and has been the leader in developing the system of high schools in that state. He has taken part in educational campaigns in the middle, western and eastern states, has been a member of the Southern Education board and of the Rockefeller Sanitary commission. He is about 46 years old, has plenty of enthusiasm and possesses the respect and following, especially of teachers, in the southern states.

### TEACHING VIRTUE IN SCHOOL.

**Views of National Educational Association Committee.**

A committee of the National Educational association has made a report on the question of moral instruction—or the lack of it—in the public schools and has outlined a tentative course of ethical studies. The summary of the report is brief, comments the Chicago Record-Herald, but there is enough to show that the committee's ideas are thoroughly sound and practical.

It is certain that the elemental virtues

### ITALIAN FLAGS ARE FLOATED

**Little Italy of San Francisco Rejoices Over Commemoration of San Francisco.**

SAN FRANCISCO, July 16.—(Special Telegram)—Little Italy celebrated yesterday in the spirit of the old country, where people express the emotions they feel.

Angela Napolitano, whom the Italians of San Francisco have worked for months for, was saved from the gallows by a commutation, and there were flags out on North Beach, the principal Italian residence section of the city. The red, white and green tri-color was everywhere. It was as if it were the king's birthday. All because a poor Italian woman, who risked her life to save her honor, had been saved from an ignominious death, and saved in a large measure, through the efforts of San Francisco and other Pacific coast cities.

## MISS SHERMAN TO WED A LORD

### Engagement of Rich American Girl to Camoys is Announced.

### MET AT DECIES-GOULD WEDDING

**Prospective Groom Traces Ancestry Back for Ages—Girl in Case is One of the Immensely Rich.**

NEW YORK, July 16.—(Special Telegram)—Announcement has been made in London of the engagement of Miss Mildred Watts Sherman, one of the richest and most beautiful girls in New York and Newport society, and Lord Camoys, a young peer of England, who came to America for the first time last winter to act as an usher at the wedding of his friend, Lord Decies, and Miss Vivien Gould.

Miss Sherman is the daughter of Mr. and Mrs. William Watts Sherman of this city. She and her elder sister, Irene, who married Lawrence L. Gillespie, were known as the most beautiful heiresses in America, and from time to time there have been rumors of their engagement to members of nobility. Miss Sherman's mother was the daughter of the immensely rich Mrs. John Carter Brown, and is an aunt of Nicholas Brown, the "richest baby in the world."

The full name of the prospective bridegroom is Ralph Francis Julian Stoner, Baron Camoys. He is scion of one of the oldest noble houses in Britain. One of his ancestors was a chief justice under King Edward I, and another, Sir Thomas Camoys, was created a peer by King Richard II. The majority of the families of the British noblesse matrimonially annexed by American heiresses are of recent origin compared to his.

Lord Camoys has been in the diplomatic service of his country and he is not rich. His ancestral home is Stoner Park. He remained in New York about two months after the Decies-Gould wedding, and there

## Gain Twenty Working Days During the Year

### Pope Issues an Order Permitting Members of Catholic Church to Work on the Feast Days.

ROME, July 16.—(Special Cablegram)—With reference to the papal encyclical abolishing the obligation to attend mass on feast days of the patron saints of various cities and on the days of Corpus Domini and St. Joseph and St. John, Cardinal Ferrari says it was issued in response to urgent appeals from numerous federations of Catholic laborers throughout the world. They called attention to the fact that they experienced difficulty in supporting their families, owing to the increased cost of living and also because of the numerous religious feasts which Catholics observed by abstaining from work.

Considering the complaint reasonable, the pope decided to make the duty of attending mass on the days in question non-obligatory. As many cities have from five to six patron saints, it is estimated that laborers will gain about twenty working days in the year.
