smarting under the effects of losing two gumes in a row, the Rourkes yesterday afternoon sailed Into the Griggiv pitchers and copped the game at the start, while Rhodes, who did the hurling, dished out coose eggs to the mountaineers until the end. The final scope showed the Rourkes with 10 and Denver 0.

Dusty Rhodes was the real article on the mound yesterday and it was with apparent case he handed out the fade-aways and all other styles of mysterious benders. The Denver boys walked up to the plate with a grin on their faces and walked back with a puzzled expression where the smile had been. Six of them fell before Dusty's mighty wing. Even when they did connect with the ball it would hardly go out of the infield.

Not only does Rhodes get credit for cleveh ball playing but every man on the team. Not an error was made by a Rourke player and it appeared like a brand new bunch that fought for the last game of the series. Arbogust, the new manager, worked his men like a veteran and his encouragement and head work went to bat with players. He was on the job at all times and stationed himself at the initial sack and it was his coaching that went the players to second at just the right As a result thirteen bases were stolen by the Rourkes. Forr double steals were worked successfully and Schoonover stole home in the seventh inning:

Denver Cannot Steal. But two tries were made by the Grizzlies to pilfer second and after both had been caught by about four feet they abandoned the idea of ever getting to second in that manner. Kenworthy started the

During the summer most persons are analyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these humors and acids in the sensitive membranous flesh which lies just beneath the outer skin. This acrid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin trouble the blood must be freed from all acids and he mois, and for this purpose nothing equals S. S. S. It removes every particle of the impurity, enriches the blood, and in this way permanently cures skin diseases. Book on Skin Diseases and any medical advice free. S. S. S. is for sale at drug stores.
