SIX HUNDRED AND FIFTY THOUSAND DIE OF PLAGUE

LONDON, July 19.-According to figures received in this city the death from the plague in India have reached the enormous total of 650,690 for the half year ended on June 30. The disease has taken such a hold on that country that its ravages are little heard of except through the occasional official statistics. The British India office in recent reports stated that the epidemic was particularly virulent this year and that the most persistent efforts to stamp it out failed to effect a permanent improvement in the situation.

Promoter Ryan is Ready to Testify in Controller Bay Case

Issues Statement in Which He Emphatically Denies All Knowledge of "Dick to Dick" Letter.

NEW YORK, July 19.-Richard S. Ryan, promoter of the Controller Bay railroad, while preparing to go to Washington today n answer to a subpoena isued by the house onimittee investigating the Alaskan con troversy made a flat denial that he had written the "Dick to Dick" letter. Mr. Ryan said he did not know President Taft's brother nor did he know former Secretary of the Interior Ballinger well enough to address him except by his formal title. Mr. Ityan said that the firm he was dentified with had no connection with the Guggenheim interests, either directly

Asks E. G. Lewis Many Questions

Federal Judge Wants to Know Where Promoter Got the Money and What He Did with It.

ST. LOUIS, July 19.-Judge Smith Mc-Pherson of Red Oak, Ia., sitting with Judge Dyer, in the United States circuit court today, in the hearing of the Lewis receivership cases, made a painstaking effort by a series of questions to find out where E. G. Lewis got the money he used in promoting his numerous enterprises and what he had done with it,

He fired his categorical inquiries at Attorney Eugene Angert, who was in court as representative of the re-organization syndicate opposing a blanket receivership for all the Lewis companies. Angert confessed that the tangles of Lewis' affairs had been too great a problem for him to solve in the few months he had devoted to

the case thus far. Angert said the People's Savings Trust company now was unable to pay in cash a certificate deposit for \$80,000 held by the University Heights Realty and Development company. He insisted, however, that 73 the trust company was solvent.

Fire Loss in United States Amounts to Five Hundred Dollars a Minute -Arson Problem Important Issue.

CHICAGO, July 19.-That there exists ! gigantic, country-wide arson trust, with headquarters in Kansas City and representatives in nearly all the large cities, the members of which have a business of setting fire to buildings to enable the owners to collect large sums of insurance, was the sensational charge made today by State Fire Marshal C. J. Doyle in an address delivered before the Chicago Association of Commerce.

"The country is facing one of the most gigantic, organized arson conspiracies the world has ever known," said State Fire Marshal Doyle. "The state fire marshals of Illinois have united with the state fire marshals of Kentucky. Tennessee and Ohlo to wipe out the band of fifteen man at the bottom of this arson conspiracy. "The head of the fire bug trust is in Kansas city, from which city the operations of the entire gang is operated. The

The others will be behind the bars before long if we are successful in following the ues we are now working on. "The fire-bug problem is one of the most mportant which confronts the country. Even without the cases of arson, the fire

losses of the country are appalling. The fire loss in this country amounts to about \$500 a minute. In Chicago the loss is \$5,000,000 a year, while in Boston the annual loss does not exceed \$200,000. We need to adopt the fire protection plans of European

Discovery of Cholera Carriers Complicates Fight on Disease

NEW YORK, July 19 .- The health officers not only of New York, but of the whole country may be asked to help repel the threatened invasion of Asiatic choiera. The discovery of five "cholera carriers" among the 600 immigrants undergoing bacteriological examination at quarantine emphasized what Health Officer Doty has said about the difficulty of confining the disease to the quarantine hospitals or ports of entry. Dr. Doty is conferring with Surgeon General Wyman, head of the United States marine hospital service to plan how the country may be protected against "carriers" who harbor the germs while themselves free from their ill-effects. A system of general observation is contemplated, so that even after the "carrier" is released from quarantine the health authorities of the place where he settles may watch for

possible transmission of the disease. The case of these cholera carriers presents a puzzle. As yet the health authorities have not decided how soon it will be safe to permit them to be at large. WASHINGTON, July 19.-Criticism of his insurgent republican colleagues in the senate for opposing Canadian reciprocity, and praise of the democratic party for "having the moral courage and patriotism to support and sustain a republican president," characterized a speech today of Senator Brown of Nebraska, in favor of the reprocity measure.

I want to express my grief, my profound grief," Senator Brown declared, "because the bill does not have the support of some of my friends in this body whom I know at heart are in favor of lower duties. I do not complain of them. I do not charge them with insincerity because I know them to be sincere. But I simply cannot understand them.

Tries to Be Conststent. 'It is beyond my comprehension to appreciate how in one session of congress I could vote for lower duties, in the next session favor a revision of the tariff a schedule at a time and at a third session be against this proposition, which, while it is not a revision of a single schedule, is a revision of a few schedules, not with all the countries of the world, but with one ountry; a plan that I believe marks the beginning of the end of extortionate tariff duties in this country."

The speaker declared that it was not President Taft, "but a stubborn and loquactous senate that is responsible for the extra session He defended the president from charges that he was taking too much part in leg-

Senator Brown said that when he found Edward Hines, whom he described as the 'head of the Lumber Trust and the manipulator of legislatures," opposed to the measure, "in the name of and for the sake of the farmers of this country, I began to think that there must be something in this bill which ought to command the respect and support of every

honest man. "This bill," he concluded, "Is the cornerstone of a new tariff system, which will put an end forever, I hope, to unnecessary and excessive duties."

Works is for Measure. Senator Works of California, insurgent republican, urged the passage of the Canadian reciprocity bill in a vigorous speech, He expressed the belief that reciprocity would not injure the farming interests of the nation except to cause some temporary disturbance in border states, which would soon adjust themselves.

Senator Works said he did not believe President Taft had used undue influence to secure the passage of the reciprocity bill through congress and that Mr. Taft was 'too good a lawyer to overstep well recognized bounds." Attempts to amend the bill were obvious

attempts to defeat reciprocity as a whole, sald Mr. Works who defended the bill as 'fair and just and of lasting benefit to the Kenyon Against Bill. Senator Kenyon of Iowa, also classed as

He announced that while he was not convinced the agreement would work injury to the agricultural interests there seemed to be doubt on that question and he deemed it his duty to vote against it. Senator Kenyon paid his respects to the race for riches and vulgar display." "We see some of our representatives at the coronation of a king," he said, "trying to outdo aristocracy, even to wearing knee

breeches, if necessary, to ape royalty." Turning again to the tariff, he urged a reduction of the wool duties as more important than the reciprocity bill. Senator Kenyon also advocated the cutting off of some of the numerous government commissions which he said had pro-

vided "soft berths for public men repudiated by their constituents." Senator Stone of Missourl, during the afternoon gave the senate some information as to "why a democrat should support the Canadian reciprocity bill."
