Two Killed in Family Fight at Jackson, Ky.

William Simms and His Wife Are Killed by Their Son-in-Law, Normal Allen.

LEXINGTON, Ky., July 24.—Specials from Jackson, Ky., today give particulars of a family fight at South Quicksands, near Jackson, Sunday in which two persons were killed and another seriously wounded.

The victims were William Simms and his wife, Mrs. Eliza Simms, who were killed, and Alonso Allen, who was seriously wounded.

The Allen, it is said, attacked the old couple because of some grievances of the son-in-law.

That Mrs. Simms was foremost in the shooting was the statement of Alonso Allen, who was brought to Lexington today.

Allen said that he and his brother went to the Simms home on an invitation and that as they entered Simms and his wife began firing at them.

FREMONT, Neb., July 24.—(Special Telegram.)—Unless some Handy Andy of the Bryan household misunderstands his orders, there will be no fight worthy the name in the democrat state convention tomorrow.

That something good in that line was generally expected is indicated by the crowd of press men on the ground this evening.

Some Iowa papers have representatives here and they are busy seeking for sensations.

Shallenberger, Harrington, State Chairman Byrnes and some other leaders convened to Columbus held a conference there Sunday evening.

It is understood and the consensus of agreement was "let the sleeping dogs die."

Close followers of Dahlgren have been given the tip that he is satisfied to rest on his Omaha resolutions and when he arrived this evening with Tom Flynn, Colonel Fanning and George Rogers he let that impression prevail.

Harmion Pictures Everywhere. It only needs a wretched tongue, though, to start a row.

One possibility of a break away from the peace agreement appears today in the plastering of Fremont fronts with large pictures of Governor Harmon of Ohio accompanied by fast-moving comment printed underneath.

The Fremont Herald window and those of the Platte Valley Zeitung blaze with Harmon lithographs and this is true of a great majority of the stores.

Over against this was the declaration of Judge Sutherland and Dean, as soon as they arrived that sentiment is strong among their people.

Denial is made that any organization is responsible for the Harmon lithographs and those seeking to excuse them insist that Mark Perkins, editor of the democratic Fremont Herald, sent to Columbus, O., for the lithographs, printed and placed them at his own expense.

But they will stay up to greet "Charlie" Bryan when he arrives Tuesday morning. He has reserved rooms as a gathering place for the Bryan men.

Shallenberger Heads Resolutions. While no announcement is yet made Governor Shallenberger will be chairman of the resolutions committee.

The Bryan men will be allowed to name the members of the committee from the first district and the Dahlgren men to pick the members from the second district.

Other districts will be permitted to name their members of this body.

The resolutions are likely to be short and formal. As the convention does not meet until 2 o'clock and half of the delegates will be absent, it is expected that little else will be done.

Democratic Senators Will Caucus on Wool

Indications that They Will Decide to Support the House Bill Instead of the La Follette Bill.

WASHINGTON, July 24.—The democratic senators have decided to hold a caucus tomorrow or Wednesday to decide on wool tariff revision.

Democratic leaders are contending themselves to vote on the house wool bill and to refrain from passing the La Follette wool bill, though senatorial advocates of the La Follette bill are in the majority.

Many conferences have been held among democrats and insurgents today and the question is monopolizing the attention of senators.

Debate on the Underwood revision bill from the house, beginning after routine business today, will run until the vote next Thursday.

The senate is going ahead with the program agreed on for clearing up all important business.

When the wool vote has been taken up Thursday debate on the free list bill will begin and that measure will be voted on August 1.

Then will come the house reapportionment bill, with a vote on August 3 to be followed by the statehood measure, to be voted on August 7.

The house will meet again Wednesday to take up cotton revision.

HINES BRINGS IN BOUTELL

Unsigned Note from Former Congressman Causes a Sensation.

WASHINGTON, July 24.—Edward Hines of Chicago caused a sensation today by testifying before the senate committee that Representative Henry S. Boutell of Illinois, now American minister to Switzerland, told him that President Taft regarded Lorimer as an acceptable senatorial candidate and anxious to have him elected and would be very glad to assist in his election.

Today's session of the committee began with Attorney Hines, counsel for Senator Lorimer, questioning Hines further about his trips to New York last winter, when the Lorimer election issue was pending before the senate.

Hines testified that on one of these New York trips he called on E. H. Gary of the United States Steel corporation to see about the price of stock in a Colorado iron concern.

Suddenly at the instance of his counsel, Mr. Hines produced a sheet of paper with letter and without signature or date, but which Mr. Hines swore was in Mr. Boutell's handwriting.

The sheet contained these words: "I should like to have the senator know who was the only man in Washington who was sure of the president in his behalf and bring off (sic) the goods."

Mr. Hines declared that the senator referred to was Senator Lorimer and that his election to the senate was the subject of the note.

The witness explained that he was sure of his explanation, because the American Federation of Labor, today entered oral plea of "not guilty" before Justice Wright of the district supreme court.

They also entered a plea of immunity under the statute of limitations and attacked the court for not having instituted the proceedings within the statutory time limit.

Further hearing was postponed for ten days.

Declaring that the attack made upon him before a congressional committee by President Samuel Gompers of the American Federation of Labor left him no alternative but to proceed with the trial to the end, Justice Wright of the district supreme court today reiterated his refusal to certify the contempt cases of the three labor leaders, Samuel Gompers, John Mitchell and Frank Morrison, to some other member of the court.

Counsel for the defendants again noted an exception. Justice Wright overruled the motions for bills of particulars, holding that the charges as framed by the prosecuting committee would sufficiently specify.

Fish Which Forms Large Part of Catch in Lake Erie Threatened with Extinction.

BUFFALO, N. Y., July 24.—Blue pike, which form a large part of the catch in Lake Erie, are threatened with extinction.

A mysterious plague, which baffles experts on fish, is killing thousands of them, and dead fish are being washed ashore in great numbers.

H. C. Crossley, special lake warden for Lake Erie, is making an investigation. He finds that the small fish are dying from a fungus growth on the gills.

The larger fish are not affected. The unusually low temperature of the water is believed to be one of the causes.

ROADS TO ADJUST THE TARIFFS

Commission Fixes Limits and Leaves Details to Be Worked Out by the Companies Affected by the New Order.

WASHINGTON, July 24.—Decisions of far reaching importance were announced late today by the Interstate Commerce commission. They affect directly all freight rates between the Atlantic ocean and the Pacific coast.

Particularly, they affect the rates in the territory lying between Denver and Pacific coast points.

The rates to this intermountain territory heretofore have been made without any definite relation to the water-competitive rates to the Pacific coast, the extent of the discrimination being entirely optional with the carriers.

By the opinions handed down today the commission has attempted to arrive at a definite relation of the rates to the noncompetitive points as compared with those to the coast, and has laid down the extent to which the rates to interior points may exceed coast rates.

In all the cases decided, the carriers are given until October 15 to file tariffs with the commission constructed in accordance with the views set forth in the opinions.

The net result of the decisions will be to give lower rates on all west-bound transcontinental traffic to cities in the intermountain territory. To all intents and purposes the back-haul rates from Pacific coast terminals to cities in the Rocky mountain territory are wiped out and the amount rendered by the carriers will be paid by shippers.

The commission holds in the so-called Reno case that traffic originating at Chicago and in Chicago territory moving under commodity rates shall have a rate 7 per cent higher to intermediate points in the intermountain territory than the rate to Chicago and Chicago territory destined to the Pacific coast terminals.

From Buffalo, Pittsburg territory the rates may rise above those demanded from the same points to Pacific coast terminals to the extent of 10 per cent, while from New York and trunk line territory the rates charged shall not exceed 25 per cent over Pacific coast terminals.

These are the first decisions announced by the commission in which a definite principle in respect of the long-and-short-haul provision is laid down.

While the opinions fully recognize the influence of water competition, to a marked extent they draw a line upon indiscriminate "market" competition.

The effect of the decisions will be to notify the carriers that they will be allowed to meet water competition to a reasonable extent, but that the location of markets hereafter will be left more to the play of commercial causes than to the will of the traffic managers of railroads.

Cases Involved. The cases involved are those of the City of Spokane against the Northern Pacific Railway company, known popularly as the "Spokane Rate Case"; the Commercial club of Salt Lake City, against the Atchafalaya, Topeka & Santa Fe Railway company and others; the Railroad Commission of Nevada and others; the Mariposa County Commercial club against the Santa Fe, Prescott & Phoenix Railway company and other carriers.

Inasmuch as the cases generally devolved into one another the commission announces its decisions in two opinions. In brief the commission takes the view which it took in its opinions of the same cases announced a year ago last June.

At that time the commission said it would make no order respecting the rates which it suggested might be put into effect until it had had opportunity to determine from reports made to it by the carriers of the probable effect of the suggested rates.

Meantime the carriers submitted to the commission their earnings under the old rates and what would have been their earnings under the rates proposed by the commission.

These tabulated statements have convinced the commission that the rates determined upon by the commission in its decisions of June 7, 1910, are generally fair and reasonable.

The commission says that there is no reason why those rates should not now be established.

"Since the promulgation of that opinion," says the commission, "the rates have remained unchanged."
