Features of the Trading and Closin Prices of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 24—Rains that mean millions of bushels added to the corn crop made the market for the cereal today amost without bottom. As a result other trains, too, were plunged lower, and the end of the session left net loses all around-corn down 1%c to 1%c, wheat, 46%c to %c and cats %c to 1%c. Provisions had a ragged finish, varying from 20c off to 56 7%c up.

ragged finish, varying from 20c off to 5g
2½c up.
Not only were there heavy rains throughout the cornbelt, notably in Kansas and
Nebraska, but the official long range forecast told of weather that was wet for
much of the coming week. Selling orders
flooded in from every side, whirling prices
in some cases down more than 2c a bushel.
Then it seemed a fair raily might ensue
but values sagged till at the last they were
straggling from the lowest point of the
session to ½c above. All day long country
dealers were eagerly unloading corn here
Between the opening and the close, Sep Between the opening and the close, Se ember ranged from 62c to 63% c with t inal tone nervous at 63% c, a fall of 15

net. Cash grades were weak; No. 2 yellow finished at 63%@64c. Wheat held up pretty well at first, bu support was purely local and soon gay support was purely local and soon gave out.

Gradually the corn weakness took on strength and then came a big decrease in the visible supply of 5,122,000 bushels, not including probably 1,500,000 bushels on side-track in Chicago.

September fluctuated from 88%c to 89%c. closing weak, %c lower at 88%c.

Oats followed the same course as corn, though not to such a radical extent. High and low levels touched by the September option were 41%c and 40%c, with last sales %20%c off at 40%c.

Pork appeared to be adversely affected by selling for speculators, who bought expecting a bulge on account of reciprocity. Pork closed 20c lower to 2%c up. Lard and ribs had become 2%c to 7%c higher.

The leading futures ranged as follows:

of that kind of cattle on sale than at any time so far this year.

Good beef steers were in demand and cornfeds generally sold fully steady with last week. Common and inferior grades were possibly a little weak. Good western beef was also in good request, but there has not been enough here so far to make comparisons, but the feeling was steady.

Good killing cows and heiters sold in about the same notches as last week with some of the more inferior grades possibly a little weak. The trade, however, was not very active.

There were more stockers and feeders in the yards than for some time back and the trade was slow. Buyers seemed to feel that prices have been altogether too high and were disposed to take advantage of the liberal receipts to pound the market. There were so few cattle of that description here at the close of last week that it is hard to make comparisons, but going a little further back it is safe to say that prices today were a good 25c lower than on last Monday.

Quotations on cattle: Good to choice beef steers, \$5.906.40; common to fair beef steers, \$5.906.40; common to fair beef steers, \$4.2565.55; good to choice heifers, \$5.006.50; good to choice cows, \$4.0065.75; fair to good cows and heifers, \$2.2563.75; good to choice stockers and feeders, \$4.606

LABOR WANTS USE OF PARKS Request Will Be Made of City Fathers to Have Park Bonds Made Available-George Denhoff Still

> is Fugitive. After an interval of two weeks the city council will meet tonight to dispose of the accumulated business incident to the closing of the fiscal year.

Several matters of financial import must be attended to by the city fathers. The most urgent duty seems to be the voting of such money as will be needed to defray the interest on outstanding obligations mauring August 1.

Another thing will be the receipt of a communication from labor organizations and the park board asking that \$15,000 park bonds be sold and the money made available at once. This question has been agitated for some time and the bonds have been issued. For some reason, however, the council seems to hold back. A number of times the park board has requested the ise of the money, but the council, under ne pretext or another, has never granted the request. The last time a deputation, from the park board appeared before the council, the members of the board were equested to put their demand in writing. Whether or not the awarding of the paving contracts will be made at the next meeting cannot be definitely stated. The contractors, it is understood, will charge a higher rate in the new bids.

Today the council, together with the mayor, city treasurer, city clerk and tax commissioner, will organize the board of equalization which will sit for several
