

GRAIN AND PRODUCE MARKET

All Opinions and Dope on Wheat Upset at the Opening.

CABLES COME SHARPLY HIGHER

Corn Market Not So Sensitive as Wheat and Opening Values, While Higher, Considerably Less Radical.

OMAHA, July 26, 1911. All opinions are being expressed at the opening of today's market. Sentiment last night was strongly in favor of the bear being quickly reversed this morning when Liverpool cables came sharply higher and heavy exports were reported. The early advance at the start was checked by free selling by long for profits and values eased off from opening.

The corn market was not so sensitive as wheat and wheat cables were less radical. The market reacted moderately narrow, slightly lower than early day levels.

The excitement at the opening in wheat calmed quickly and the market steadied down, ruling slightly higher than yesterday's close. Cash wheat was unchanged. Corn was firm and stronger throughout the day. Receipts were kept light but being developed on all weak spots. Cash corn was 1/2 cent higher.

Primary wheat receipts were 1,472,000 bushels and shipments were 532,900 bushels, against receipts last week of 1,270,000 bushels and shipments of 521,000 bushels. Primary corn receipts were 211,000 bushels and shipments were 270,000 bushels, against receipts last week of 230,000 bushels and shipments of 330,000 bushels.

Receipts of corn, 7,000 bu. of oats and wheat and flour equal to 15,000 bu.

Chicago closed 1/2 cent higher on wheat and unchanged on flour. The following cash sales were reported: Wheat, No. 2, 1.10; No. 3, 1.05; No. 4, 1.00; No. 5, 95c; No. 6, 90c; No. 7, 85c; No. 8, 80c; No. 9, 75c; No. 10, 70c; No. 11, 65c; No. 12, 60c.

OMAHA GRAIN AND PROVISIONS—Prospect of War Over Morocco Sends Grain and Flour Market to a Nerve.

CHICAGO, Morocco pushed the fear of the earth off the map today to the east as wheat traders were nervous about the possibility of a reaction ending the close was firm at 1/2 cent net advance. Latest figures showed corn was the same, but wheat was 1/4 cent up, oats varying from 1/4 cent to 1/2 cent gain and hog products dearer by 1/2 cent.

The worst of the flurry as to Morocco took place right at the opening of business. The stem crop was not so much affected as was thought, and the market was unusually free buying, shorts, in particular, showing a rush to purchase had been in a measure settled. The market fell back in a measure to the opening of the day. Speculators for the most part were convinced that a heavy export trade would be maintained. The wheat from the seaboard and in hard winter from Chicago. NEW YORK'S STOCKS AND BONDS

Attempt is Made to Start Bear Movement on the Exchange.

MOROCCO AND CANADA FACTORS

Harvester Stocks Become Weak on Intimations that the Government May Start Proceedings Against the Company.

NEW YORK, July 26.—The most forceful bear movement of several weeks was undertaken on the stock exchange today and prices gave way before the onslaught. The gravity of the Morocco situation and the prospect of a long delay before the Canadian railroad project is completed by the Dominion were the chief factors made use of by the bear party.

Harvester stocks were conspicuously throughout the day. They were the coal shapers and the issues of the railroad affected directly by the Canadian reciprocity. The latter stocks which have been advanced on the strength of the benefits expected from reciprocity broke sharply. Canadian Pacific and its affiliated roads and the Hill and Harriman stocks fell from 1 to 1 1/2 to 2 1/2.

Passenger Coal, common and preferred, were the chief beneficiaries of the continuation of yesterday's buying movement in the coal stocks.

The industrial group, United States Steel was relatively firm at no time declining more than a fraction. The street was inclined to place favorable construction on yesterday's quarterly report, despite the gain shading of prices on certain products.

International Harvester was one of the weakest of the industrials, receding 3/4 point on intimation that the government might proceed against the company. The stock displayed marked strength toward the close, leading the valley and with a loss of less than 1 point.

London selling was a contributing factor in the market. Reading, Lehigh Valley and the Moroccan dispute was reflected not only in London, where consols touched new low records, but in all the European financial centers.

Colorado and Southern was one of the first roads to recede, falling 1/2 point on first reports of a falling off of nearly 300,000 in gross receipts. This was almost offset, however, by a report in operating expenses.

The bond market was steady. Total sales, par value, \$13,500,000. United States bonds on sale were as follows:
