CHICAGO GRAIN AND PROVISIONS averages

Wheat Market Declines Slightly, and Corn is Higher.

Chicago, Aug. 3.—Predictions that the export surplus in Russia this season would be only 80,000,000 bushels, against a resent average of more than 200,000,000 bushels, took the wheat market aloft today. There were persistent assertions, too, of the presence of black rust in Canadian fields. Closing prices were firm at a net advance of the presence of black rust in Canadian fields. Closing prices were firm at a net advance of the process were firm at a net advance of the process of

90%c to 22%c and closed 11%G1%c net higher, at E2c.

The corn crop had its own share of bad crop news. For example, according to a leading authority Nebraska promised less than half an average output, even with ideal weather from now on. September price changes ran from 64%c to 66c, with the close from 1%c up at 6%c. Cash grades were in better demand. No. 2 yallow finished at 65@65%c.

Oats advanced because of an improvement in call from shippers and on account of support from corn bulls. The close, 42% 642%c, showed a net gain of %6%c.

Provisions averaged higher. At the end pork had rises 24@6c to 22%c, lard was 2%c off to 2%c up and ribs were strung out from 2%c decline to a greater cost of 20c.

Cash wheat sold lived to continue the continue to c NEW YORK, Aug. 3.—The stock market today made several attempts to recover from its heaviness of the preceding session and some ground was regained, but the weight of the selling movement in the final hour drove prices to the lowest level of the present movement. There was a marked weakness in the coppers, Southern Rallway shares and a number of industrials of minor importance.

The decline was arrested for a time in the early session when buying of the standard stocks and speculative leaders impelled extensive short covering and prices soon were well above yesterday's final quotations. On the rise the market became very dull.

Among incidents operating to restrain builtsh activity was the further weakness of Standard Oil on the "curb," the stock making a decline of 21½ points on unusually heavy offerings. News from Washington that the attorney general is soon to submit to the Treasury department his report dealing with an inquiry into the formation of a "securities company," recently organized as an adjunct to one of the largest national banks in the country, also furnished food for reflection, as did dispatches from New England, telling of the indefinite shutting down of perhaps the largest cotton mill in the Fall River district.

Engineers Are Awaiting Pinish of Paving on Bonlevard-Dispute in Cricek's Barroom Ends in Shooting.

With the completion of the paving cork between the boulevard in Omaha and the north line of the city limits. South Omaha citizens will have opened to their use onecontinuous paved drive extending from the south line of South Omaha to the north line of Omaha. City Engineer George Roberts has long

since put the finishing touches to the local. end of the new street and is now waiting impatiently for the Omaha engineers to complete their work.

On the Omaha side Twenty-third street has been built along a curve extending between the north line of South Omaha: and boulevard. The city engineer, it is understood, has been for some time engaged in straightening the course of the drive between the two points above mentioned. City Engineer Roberts and indeed the whole city are jubilant over the fact that the remodelled street will open a through driveway between the two cities and one especially adapted to the use of

School District Finances. In the absence of the city treasurer, who is away on a two weeks' vacation, Deputy Treasurer E. P. Roggen has prepared a monthly statement covering the receipts and expenditures of the school district for the month of July

The expenditures for the month amounted to \$8,542.81. The receipts together with the balance brought over from the preceding month amount to \$16,982.49, which, with \$3,062.07 from the interest fund and \$100.51 from sites and buildings, make up the full total. The actual balance is represented by \$11.705.39.
