Feared that Rains in Northwest Will Tend to Spread Rust.

CORN IS BEING SOLD FREELY

Crop News and Sentiment Continues Bullish on Northwest Situation -Wheat Advances, Making New High Level.

Cables this morning were not responsive to the domestic advance yesterday.

Rains again in the northwest may delay the ripening of the spring wheat and give the black rust more of a chance to spread. Conditions are daily growing more serious, as several points in Omaha are now reporting damage by the dreaded rust plague. Further advances now will depend upon the new buying power, stimulated by the bad final crop returns.

Cash demand in com is much improved even at the advance in prices, heavy sales being reported, while receipts are running very light, county holders selling very little. Light stocks and the pessimistic crop reports are the chief factors in encouraging aggressive buying.

Wheat advanced sharply after a slightly weaker opening and made new high levels. Crop news and sentiment continues buillish on the northwest situation. Cash wheat was **Molice higher. OMAHA, August 4, 1911.

on the northwest situation. Cash wheat was %2014c higher.

Rain and favorable temperature gave corn a slightly easier tone. Profit taking sales were most in evidence, although news is still bullish. Cash corn was ½c higher.

Primary wheat receipts were 996,000 bu. and shipments were \$33,000 bu. against receipts last year of 1,378,000 bu. and shipments of 791,000 bu.

Primary corn receipts were 271,000 bu. and shipments were 496,000 bu., against receipts last year of 472,000 bu. and shipments were 496,000 bu., against receipts last year of 472,000 bu. and shipments of 293,000 bu.

Clearances were 93,000 bu. of corn. 7,000

Clearances were 93,000 bu. of corn, 7,000 bu. of cats and wheat and flour equal to 508,000 bu. bu. of oats and wheat and flour equal to 508,000 bu.
Liverpool closed %d to %d higher on wheat and %d higher on corn.
The following cash sales were reported:

CHICAGO GRAIN AND PROVISIONS Wheat Market Declines Slightly, and Corn is Higher.

Chicago, Aug. 4.—New investment buying made a broad market today in wheat.
Purchasing was based on a belief that
reports of serious damage to crops in Russia had been confirmed and that there was
truth also under the stories of black rust
in the Canadian northwest. Closing figures
were steady, %% to 1% % % higher than
last night. Latest trading left corn % to
%% c down, oats up % to 12% c and provisions at an advance of 5c to 22% 25c.
Harvester sources received most of the
credit for what passed from hand to hand as
sufficiently verifying the supposed disaster
to the wheat crop of Russia. One private
cable from Odessa declared explicitly that
the total yield in the country would be
three-fourths smaller than last year. This
dispatch was interpreted to mean an output
not exceeding 483,000,000 bushels, a falling not exceeding 483,000,000 bushels, a falling off so huge as to radically affect prices the world over, if a certainty. At no time did any violent setback interfere with the bulge in the market. It was noticeable, however, that the new buying was almost wholly in deferred deliveries. During the session September varied from 90c to 91½c and closed ½c net higher at 10%c.

Profit taking obstructed any tendency to advance the price of corn. Heavy rains in Missouri and Iowa were also in favor of the bears. September fluctuated between 65%c and 66c, closing firm but %c off at

65%c and 66c, closing firm but %c off at

65%c and 68c, closing firm but %c off at 85%c.
Oats sympathized with wheat. Illinois reports had a restraining effect, showing less damage than had been looked for. Price changes for the September option ran from 42%c to 43%c, with the close 42%c, a gain of 46%c over last night.
Packers actively took the buying side of provisions and made the market strong all day. At the close pork was 10c higher, lard up 15c to 22%625c and ribs advanced 5617%c. The leading futures ranged as follows:

Number of New Low Records for Recent Movements Established.

GENERAL DECLINES ARE EVIDENT

In Early Hours of Session List Manifeats Some Disposition Toward Recovery-Four Months Fund Advances.

NEW YORK, Aug. 4.—The stock market today centinued its retrograde tendency by establishing a number of new low records for present movements. All classes of stocks participated in the decline, which for the first time bore the marks of precipitate liquidation from various sources, together with a very liberal admixture of short selling. The hear party was more or less aggressive throughout.

In the early hours of the session the list manifested some disposition toward recovery, being aided in this direction by the better demand for our shares in London, where international stocks made general gains, but the absence of anything like hearty support gave renewed encour-

general gains, but the absence of anything like hearty support gave renewed encouragement to the short accounts, which maintained its advantage to the close. Standard Oil's continued weakness in the outside market, its net loss today being 16 points, was again a factor, and a sensational upward move in cotton options, to which stocks are always more or less susceptible, was viewed with some concern. Offerings of United States Steel were on a larger scale today than for some time, aggregating over 200,000 shares. That stock was the weakest of the active group, making a net decline of 2% points. Other issues that showed pronounced heaviness and made severe losses include the electrical stocks. American Smelting, the coppers, the Harriman and Hill shares, Reading, Lehigh Valley, Texas company, Inter-Metropolitan preferred. Brooklyn Union Gas and Laclede Gas, declines ranging from 2 to 4½ points.

and Laclede Gas, declines ranging from 2 to 4½ points.

Final prices were at the day's low level, the whole list reflecting a state of demoralization. Following the close of the market it was reported that much of the selling resulted from the closing of accounts because of impaired margins.

In the general excitement of the day little attention was paid to the money market, the feature of which was an advance in four months funds to 3½ per cent, the highest rate for that period quoted this year. Spokane Toledo Hartford year.

Bonds were weak in sympathy with the decline in stocks. Total sales, par value, \$2,290,000. United States government bonds Sirmingham ... were unchanged on call.

Number of sales and leading quotations on stocks were as follows: Jacksonville, Fla. Oklahoma City...

cattle have been very large this week and packers apparently had about all they needed on hand to supply the week's orders. As a result they did not try very hard to buy, in fact, did not seem to care wheather they got any additional supplies or not unless they could buy something way lower. As a result the market was in very unsatisfactory condition, bids in many cases being fully 25c lower than yesterday. It is safe to say that the market on both cows and heifers is 156:25c lower than last week's close, the medium to pretty good kinds of stock suffering the most decline.

There were very few feeders on sale this 43d Idaho lambs NEW YORK, Aug. 4.—MONEY—On call, steady, at 252½ per cent; ruling rate, 2½ per cent; closing bid, 2¼ per cent; offered at 2½ per cent. Time loans, firm; sixty days, 2%63 per cent; ninety days, 352½ per cent; six months, 3%64 per cent.

PRIME MERCANTILE PAPER—464½ per cent.
STERLING EXCHANGE—Weak, with actual business in bankers' bills at \$4.86 for sixty-day bills and at \$4.8610 for demand; commercial bills. \$4.83\(\frac{1}{2}\).
SILVER—Bar, \$2\(\frac{1}{2}\). (2) Mexican dollars, \$5c. BONDS—Government, steady; railroad,

It is safe to say that the market on both cows and helfers is 15625c lower than last week's close, the medium to pretty good kinds of stock suffering the most decline.

There were very few feeders on sale this morning and not many wanted. What few stockers there were were slow and weak. While the best feeders have sold fully steady this week the general run of stock cattle is around 15625c lower.

purchase amounts to over \$5 per cent of receipts and serves to emphasize the urgency of demand from independent con-

cerns.

If any distinction was shown between the trade in bacon and lard grades, it was the latter kind of offerings that usually got the long end of advances. Packing stuff sold as high as \$6.56 in two or three instances, despite the fact that bulk of business was done within a \$6.5647.00 spread. Choice bacon hogs reached \$7.30, the highest price paid since February, when a \$7.57\% limit was touched.

Representative sales: Representative sales:

of the trade complete, packers needed little urging to look over the run, and the result was a market easily firm on sheep and all of a quarter higher on good lambs. Much of the discredit attached to weight vanished and big wethers, the kind toat have been room to be a constant. been poor actors on recent days, moved with a fair degree of freedom. One brand that moved at \$3.35 yesterday sold at \$3.50 today, but the sort was a little heavier. There were no ewes or yearlings of consequence on sale.

Improvement in lamb trade applied only

Improvement in lamb trade applied only to a prime three-load offering, a sale that left the market barren. They landed at \$6.85, a price that is plainly a bid for larger supplies of young stock. It indicates almost complete recovery of price losses this week, of course, but some allowance must be made for the fact that declines were in force on several thousand head, while today's reaction developed on a three-load trade.

There was nothing doing in feeders, as sorts were too small to afford anything

REVIEW

Moderate Betterment in Trade Conditions Appears During Week.

STEEL BUSINESS IS IMPROVING Railroads Show More Disposition to

Provide for Needed Equipment-Moderate Improvement in Dry Goods.

NEW YORK, Aug. 4.-R. G. Dun & Company's Reekly Wevlew of Trade tomorrow will say:

Company's Reekly Weview of Trade tomorrow will say:

oMderate betterment in trade conditions appears this week. The extraordinary government cotton report, showing with one exception the highest July condition estimate for thirteen years, caused some hesitation among buyers of dry goods, although the tone in this line was a triffe better both at wholesale and retail.

Consumers of Iron and steel constantly place moderate orders for early delivery. Mill operations reflect further expansion and there is promise of increased activity in the fall. The railroads show more disposition to provide for needed equipment. Orders for rails have reached quite a satisfactory tonnage in the west and plate interests have received a considerable volume of business from the transporting companies. In the later division prices are unsetitled: irregularity also appears in steel bars, were products and galvanized sheets. Current statistics indicate a further entargement of production, the leading interest having about 75 per cent of its ingot capacitity active, while the rate at which specifications are being received suggests that a few more blast furnaces will be put operation. There is more animation in foundry iron.

Moderate improvement appears in dry goods both at wholesale and retail, although the government report on the cotton crop, showing further marked gain, creates considerable hesitation with buyers who limit their commitments until they are assured of the market's stability. Curtailment by the mills becomes still more drastic with the approachingend of the cotton vear and decreasing supplies for immediate consumption. Exporters are withholding orders, but shipments to date are materially ahead of a year ago. And it is admitted that while purchases rule small requests for prompt shipment are frequent.

New business continues conservative, changing style being a paramount factor in restricting trade. Eastern manufacturers and factories are fairly busy with the current demand. Loather trde is unistitled by the decline i

BRADSTREET'S REVIEW OF TRADE Basic Conditions and Advance of Year Make for Improvement. NEW YORK, Aug. 4-Bradstreet's will

say tomorrow:

There is still considerable irregularity in trade conditions, due to cautiousness and fears of crop damage, but basic conditions and the advance of the year tend to work for a little further improvement. While merchants continue to feel their way, sentiment as to fall trade is improving slightly, and at some of the larger centers jobbers and wholesale dealers have done a rather better business with outside merchants, who are beginning to come to market. This refers, of course, to buying for future delivery, for as a matter of fact current trade still reflects the influence of midsummer conditions.

Business failures in the United States for the week ending August 3 were 38, against 238 last week and 166 in the like week of 1910. say tomorrow:

Wheat, including flour, exports from the United States and Canada for the week ending August 3 aggregate 3,521,308 bu., against 2,514,204 last week.

Corn exports for the week are 322,781 bu., against 350,098 last week and 419,154 in 1910.
