Amusements

Miss O'lide Morgan has been secured by the management of the Home Summer Garden for a headliner this coming week. She is of foreign birth and was one of the first to wear the harem skirt in this country. She will be seen in this garb at the Rome Summer Garden this week. The two Lynce Sisters will put on a very clever and original bill of juvenile songs and dances.

A. C. McCormack, Chicago tenor, will be heard in many of the latest popular songs. The baritone, Alex Barthold, has been re-engaged and will introduce some classical vocal selections as well as new illustrated songs. The Rome orchestra is the only one in the city either inside or outdoors. Any desired numbers will be gladly played any time upon request. Four new photo-plays distinct and large are included in the entertainment each evening. The subjects of these photo-plays are changed on Sundays, Mondays, Wednesdays and Friday and the vaudeville is changed every Friday evening. Since last Sunday evening over 20 additional bleacher seats have been installed and there is now plenty of room for all. The programs are given continuously from 7 to 11 p. m. daily.

The "Coastless Vaudeville" headliner at the Gayety this week will be the Gibson musical sextet on mandolins and guitars. The company was one of the great hits of the Panama Vaudeville circuit. The artists depend largely in winning their way into the good graces of their audience on the popularity of the numbers presented. For the first half of this week "Jack and his Sis," who are advertising themselves as "those Cassins," put on a singing and comedy act. The spectacular number is Betty and Zema Randale in songs, dances and a striking pianologue. An entire change of films will be shown today and the new reels of moving pictures will be interesting and well assorted to suit each and every taste of life. The ever popular pipe organ will be played at each performance. New fans have been added for the August weather and one will always find the Gayety fifteen degrees cooler than the front porches. An entire change of program will be given on Thursday. Daily 1 to 5 and 7 to 11. Come any time, stay as long as you like.

It will be a pleasant announcement to Omaha's music loving public of the forthcoming engagement at Courtland Beach of the American band of Providence, R. I., which created such a favorable impression here last year. The Omaha engagement of this justly celebrated band will begin next Friday evening, August 11, and continue until the following Friday, August 18, with special afternoon concerts Saturday, Sunday and Wednesday. Warren R. Fales is the general director and Bowen R. Church's cornet solos will again be a feature. The programs for the eight days have been arranged to suit the masses and will range from the masterpieces to the popular rag. Howard Fawcett, under whose personal direction the American band is again touring, is in the city completing details for this musical festival.

Pope's Jubilee Singers give their last concert at Manawa this afternoon and evening. They are a big card at the park. The new ball room at Manawa sustains its popularity as a high-class and strictly managed place.

Would WE make so MUCH fuss over Bennett's Player Piano Club No. 7 if we were not confident of its high merit?

Would WE devote the newspaper space, the time, the effort, to our "Club" plan, if the "Club" plan were not open and above board, full of advantages, and perfectly reasonable in its possibilities?

Would WE displace most of all our "Ordinary Piano" advertising with "Player Piano" advertising, as we have been doing, if we didn't think "The Player is The Thing," and that the public is coming TO THE Player as rapidly as it getting AWAY from the ordinary "hand played" piano?

Would WE so far forget the importance of business veracity as to come out and claim a SIX times larger Player Piano Stock than any other concern hereabouts, if we didn't really HAVE the six times larger stock upon our floors? Would we claim to have sold six times as many player pianos as any other concern, if we had not sold them?

Would WE claim to be the most aggressive, the "Cleverest All Around Player People in the West," if we didn't have the people, the pianos and the "ground floor" buying facilities to BACK up the claim?

Would YOU be foolish enough to purchase a "hand played" piano for YOUR home, if NO ONE about YOUR home PLAYS a piano? Would you buy merely to wait for the "Twice Yearly" visits of those who CAN play? Would YOU wait for YOUR music until baby Johnny or Mary grows up to be large enough to start taking music lessons (And Goodness! only knows how long it takes some people to learn HOW to play the piano even after they DO start to learn.)

Would YOU maintain a dull, cheerless, uninviting musicless home that no one cares to visit, when you are able to buy an exquisite 88 note Player Piano on Bennett's Club Plan, on terms as easy as \$2 a week?

Would YOU be denied the pleasures of a Player Piano, simply because you are possessed of an idle "hand played" piano? Wouldn't you come here and find out how much we will ALLOW you for it on a TRADE for a Player Piano?

Would YOU, in this age of invention, dare dispute that a Player Piano may be made to perform truer, finer, with more feeling, with less effort, than an ordinary piano played by a more than ordinary good "hand player?"
