The Foundation of All Lord & Thomas Successes

Experience, Information and Strategy

We have put into print, for the first time in our history, the chief reasons for our success.

This step has involved the revelation of secrets, long considered too valuable to print.

Our purpose here is to offer that book, and convince you that you should have it.

For forty years, for a thousand concerns, we have acted as selling advisers.

These concerns, in most part, dominate their lines. They are managed by some of the ablest men whom the business world has developed

In all of those thousand selling experiences there is no plan or problem, no mistake or success, with which we are not familiar."

Our business has been, in this vortex of experiment, to learn the right and the wrong. Then to pick from the right the one best way-the quickest, cheapest, most efficient way - to accomplish each selling purpose.

Our new book illustrates, by many examples, how much such a mine of experience means.

A good many advertisers guess at conditions. They act on unfounded assumptions.

We have found that our guessesand we guess pretty well-are as often wrong as right.

So we now make a canvass from house to house, from store to store, from town to town, before we map out a campaign. We learn if people will buy, and why they will buy. We measure up trade conditions.

Our book points out how Information has saved many situations. How many successes, otherwise inconceivable, have been won without risk. How many errors, leading to disaster, have been avoided by it.

Perhaps it will change your whole plan of procedure.

The largest rewards are not won by mere advertising. They are won by maneuvers-cheap, quick and decisive.

The work of years is now done in a month. National distribution is accomplished at once. New products are made to earn profits immediately.

Substitution is fought and competition defeated by Strategy rather than attack. The clever has supplanted the clumsy.

This new science in advertising-the Science of Strategy-is revealed for the first time in this new book.

These are the basis of all our famous successes-Experience, Information and Strategy. We employ them in each undertaking.

How we employ them, and with what results, are told in this book-the most valuable book ever written on advertising. From cover to cover it is filled with ideas adaptable to every business.

It will also give you a new conception of our prowess and our powers. . That's why we send it out.

If you deal with selling problems, cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

A Reminder

to write Lord & Thomas. Trude Building, Chicago, for their latest book, "Real Salesmanship-in-Print."
