Antipodes for Davis Cup.

America Will Avail Itself of Oppor tunity to Send a Full Quota, Thus Insuring a Crack

Team.

NEW YORK, Aug. 5.-Lawn tennts which is practically at its height now, has heen productive in the tournaments h eads. Everyone who is interested in the selection of the team which will so to the Antipodes this fall in quest of the Davis cup, and from what has happened in the early tournaments there has been all manner of guessing as to just whe will be the ultimate selection for the in

ternational matches. For a great many years there have been a few who stood so far above the other that there was no difficulty in pickins the best men in the country. comes to the selection of a leader there is no question of the superiority of Wil ham A. Larned, who has so often carrie off the national championship, but he ba ever found it impossible to go abroad for the purpose of retrieving the blue ribbo trophy of the tennis world for family res

For one reason or another, the commit tee which has charge of the team to rep resent America has been more or less reticent in the mention of the names or any of the men who will make up the team of foreign invaders, but assurance has been given that one of the stronges combinations that has ever played for this country will be found pitting their skil against the best that can be found it other quarters when the time comes for the ties to be played off.

Not long ago Robert D. Wrenn of the Davis cup committee stated that a thoroughly representative team would go forth from these shores to try to recover the cup. This state of affairs is in strong contrast to the situation that existed a year ago, when the best that could be said was hope that a team would be sen abroad.

There were certain obstacles then which prevented any definite statement on the matter, but now things are different, and it is certain that America will be on hand for the big games. It can be stated with authority that the best player in America William A. Larned, will be the man whe will lead the team this year. Whether the rest of the team will be made up of Callfornia cracks, such as McLaughlin, Long and Dundy, depends much on the outcome of the national championships at Newport The rules permit the utilization of four men on a team. Two of these may be used for the singles and two for the

doubles. A fifth man may be kept in reserve in case of accident or illness to any of the regulars. It is very likely that America will avail itself of the opportunityto send the full quota of men and in that way a better team can be chozen than with a smaller number of men. There by practically no doubt that the elder Larned will be the leader and that he will be firstchoice for the singles. Naturally one turns to Beals Wright, whose record in the past in big matches speaks for itself, but this season has not found him doing any great work on the courts. Whether he has got to the point where his best tennis days are over or

watched very closely and unless he shows better at the big tournaments of the Meadow Brook club at Southampton and Newport than he has done so far there is not much chance of his going abroad as a member of the team. There is a possibility that Long will again 'team up" with one of the Californians. Outside of these, though, there are no com-

that he is merely short of work and slow

In getting into form, is a debatable ques-

tion. His tennis from now on will be
