State Superintendent Has Not Yet Resigned Nebraska Place.
GOVERNOR WILL TALK IN EAST
Executive on Program at Governors' Meeting in New Jersey in September to Talk on Railroad Rates.

(From a Staff Correspondent.)

Whether he has gone to confer with members of the state board of regents relative to the acceptance of the presidency of the state normal school at that place.
Advice coming from Milwaukee yesterday indicated that Superintendent Crabtree had decided to accept the place and by several of his close friends in this city such it is thought will be the case. His resignation has not yet been placed in the hands of Governor Aldrich, but the state executive says that he has talked with Superintendent Crabtree in regard to the matter.

Secretary Fisher in North Platte Valley
In Address to Mass Meeting at Mitchell Says Settlers Already on Ground Have First Care.

SCOTT'S BLUFF, Neb., Aug. 7.—(Special.)—The visit of the secretary of the interior to the North Platte valley to look over the project and acquaint himself at first hand with the problems connected with government irrigation occurred Friday. A meeting was held in the opera house at Mitchell, where the several problems were discussed and with most satisfactory comments from the secretary.
Questions of seepage and sandy lands under the north side of the canal, petition from land owners for the south side project, favoring its construction and the associated canal of the valley for co-ownership of the Pathfinder reservoir were among the many important subjects taken up.
The secretary stated his position as friendly to the people who were actually upon the ground. "I wish to say," he said, "that the policy of the department is, and its sympathy shall be, rather to the settlers who are already here, than to those who are not yet here. This was brought out by the discussion as to whether the government's policy should be for first protecting the irrigators already at work under the several canals and building up river supply or to build new canals to the extent of the government appropriations, withholding from the older canals any right to reserve supply in the Pathfinder. His attitude is approved by all.
The Tyrolean yodlers, or Alpine singers, gave two very enjoyable entertainments in the opera house Tuesday and Wednesday evenings.

Nebraska Enjoys More Good Rains in Many Parts of State

Rainfall is Quite General Sunday, According to Reports of the Railroads.
Railroad weather reports show that Nebraska had another day of "showers and dollar rains" on Sunday. According to the reports it was pretty general all over the state.
On the Union Pacific lines, heavy rain was reported from Omaha to Fremont and from Lincoln to Beatrice. Points between Lincoln and Beatrice also came in for a good wetting.

Out at Broken Bow and Seneca on the Alliance division there were good rains according to the Burlington, Alliance, Bel-mont and Crawford came in for heavy rains Saturday night.
That the recent rains have caused some considerable damage to the railroads in south central Nebraska is attested to by F. N. Merwin, editor and proprietor of the Beaver City Times-Tribune, who was in Omaha on Monday. Mr. Merwin, in an attempt to reach Omaha, was forced to drive to Oxford and from there went to Holdrege, catching the main line of the Burlington at that point.
According to the reports received at the weather bureau the rain of Sunday night was generally over most of Nebraska and western Iowa. The precipitation was ranging from a trace to 1.25 inches, the heaviest being at Hastings, Neb.
