SAN ANTONIO, Tex., Aug. 8.—"Conditions here are beyond control and I would ask that you return and take charge of the situation," reads a cipher telegram said to have been sent by Provisional President Francisco De La Barrera of Mexico to Jose Yves Limantour, who is in Paris, a copy of which H. D. Bradfield, a mining man from Mexico, who is in this city, claims to have received. There are a number of mining men of Mexico in San Antonio at present, and Mr. Bradfield says they will hold a meeting to take action toward protecting the lives and property of Americans in Mexico.

WASHINGTON, Aug. 8.—Advices here are difficult to come to the information contained in the alleged cipher telegram said to have been received by Mr. Bradfield at San Antonio.

The situation in Mexico is continually improving and the provisional government looks into the future with optimism, according to a reassuring telegram received today by Ambassador Creepo from Senor Carbanja, the acting minister of foreign affairs.

SERIOUSLY ILL ONLY ONE WEEK Retains Membership in Upper Chamber, Though Resigns Office.

END COMES RATHER SUDDENLY As Late as 3:15 in Afternoon Appears

in Comfortable Condition, but Soon Afterward Taken by Sinking Spell.

LEWISTON, Me., Aug. 8.—The state of Maine lost its senior United States senator and an almost lifelong faithful servant when William Pierce Frye died today at the home of his daughter, Mrs. Helen White, here. At his bedside were Mrs. White and her other daughter, Mrs. Alice Briggs, who also resides in Lewiston. Although he had been ill for a long time, death came suddenly.

Forced by the condition of his health to resign his position as president pro tem of the senate at the beginning of the present special session of congress, although he retained his membership in the senate, Senator Frye soon afterwards made his last journey to the city which always has been his home. For several weeks his condition was not considered necessarily dangerous. Up to last week he rested in comparative comfort spending much of his time in reading or having some member of his family read to him.

Last week the senator's illness took a serious turn, but again he rallied and this week his physicians expressed the hope that he might recover. As late as 3:15 this afternoon he appeared to be in a comfortable condition. Shortly afterwards it was seen that he was sinking rapidly and at 3:55 o'clock he died.

A general breakdown, due to age and his extremely arduous career, is ascribed by Senator Frye's physicians as the cause of his death. Funeral arrangements had not been completed tonight.

POPE PIUS X IS BETTER

Physicians of His Holiness Report that His Condition is Satisfactory.

ROME, Aug. 8.—Dr. Petacci, his private physician, and Dr. Marchiaia, physician at the vatican, visited Pope Pius today and made a thorough examination. Later they described the condition of the pontiff as relatively satisfactory.

His holiness has suffered a throat affection, recovery from the weakness of which was retarded to a certain extent by the recent extreme heat. Yesterday he exhibited unexpected weakness, necessitating perfect rest.

Today's examination revealed a heart fairly strong and respiration reasonably good considering the shortness of breath common to persons who are advanced in years and stout. The pulse was rather intermittent and the temperature slightly above normal.

The pontiff was somewhat better this afternoon and the gouty pains were less severe. At noon he took some nourishment, though he remained in bed, and on the advice of his doctors saw no one except his secretaries and his sisters. The latter have not left the bedside since the illness became more marked and insisted on preparing with their own hands whatever food is ordered for the patient.

The pope's valet was permitted to go out for the afternoon, and this was taken as an indication of a general feeling of relief at the Vatican.

COLOGNE, Germany, Aug. 8.—The Koenigliche Volks Zeitung, a leading Catholic paper, says today that it learns from high official Catholic quarters in Rome that the pope's strength is gradually declining owing to previous ailments and insomnia experienced during the hot summer nights. It is feared that the pontiff's heart may be affected, but no such symptoms have yet developed.
