Do you know why some buy, and why others don't buy? Why some prefer a rival manufacture?

Do you know why some sections pay better than others? Why you lose trade when you lose it?

Do you know what damage substitution is doing-how and where and why? Do you know all your opposition?

Do you know, above all, how your arguments appeal? Have you tried them face-to-face?

If not, we have something to tell you. We, too-in the past-have groped

our way in the dark. And we know that it doesn't pay.

We now canvass consumers, from house to house. We now go to dealers, from town to town, before we start selling in print.

We know what they want, and why. We know what forces we have get to face.

When we frame a campaign we know the actual conditions. We deal with no theory, no guesswork, no chance.

The effect has been to avoid mistakes, to create defenses, and to multiply results.

The facts will give you new respect for this Agency. We want to explain them to you.

And we want to discuss a new science with you-the Science of Strategy.

It is the science of doing, by clever maneuvers, what used to be done by time, cest and attack.

It does a year's work in a week, sometimes. It secures, by one move, nationwide distribution. It has placed many an article, from the very jump, on a profit-paying basis.

It removes the uncertainties, minimizes risk, multiplies selling power. Many millions of dellars, which were otherwise lost, have been posteeted by men whosemployed it.

All this is told, for the first time, in a book. It reveals, as we never revealed before, the secrets of our success.

The ideas have been gathered fromra thousand sources. We oses them to countless able men.

To pay the debt, we offer them to others. Also to give you a new idea of what advertising efficiency means.

Any man with a selling problem is welcome to this book. In justice to himself he should get it.

Cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

A Reminder

to write Lord & Thomas, Trude Building, Chicago, for their latest book, "Real Salesmanship-in-Print."
