Attorney General Withdraws Case After Arresting Clerks.

OPPONENTS FIND PATH IS HARD

Agents of Large Milling Company in United States Planning to Order Four Million Bushels of Hard Wheat.

WINNIPEG, Man., Aug. 12.—Attorney General Campbell, after placing two registration clerks under arrest for raising to accept long lists of absentees handed in by hotel men, withdrew the case this afternoon, and in court admitted the right of the Dominion government to go ahead and make the lists.

Following this, the Dominion officials threw out of the registration booths all provincial police who had been sent there by order of Attorney General Campbell and federal attorney now remains unquestioned. Twenty-five thousand voters have already been registered.

Reports are coming in daily that anti-reciprocity candidates in Manitoba are finding difficulty in lining up their old supporters and many are having the fight of their political lives. Hundreds of conservative farmers are deserting their party on the reciprocity question.

Agents of a large milling company with mills in California and Texas, after a tour of Canada, realize that reciprocity will probably carry and the president of the company says he is planning to order this fall, 4,000,000 bushels of No. 1 hard wheat from Canada to mix with the soft wheat of the southern states.

Reciprocity Advocates Active. Reciprocity clubs are being organized in many centers in southern Alberta, where the government forces have strong hope of defeating two former members, McGrath and Heron.

J. W. Buchanan, editor of the Herald, Lethbridge, has taken up the fight against McGrath, having been made chairman today at a large gathering of delegates favorable to reciprocity.

At Broadway, Sask., this afternoon, Levi Thompson, a barrister, was selected to oppose R. B. Lake in the Qu-Appelle constituency. Lake was the only conservative to be elected from Saskatchewan in the 1908 election.

A. M. Campbell of Melita, Man., was nominated by the liberals to contest Souris with Dr. Schaffner, late member.

At Brandon, former sear of Clifford Sifton, grain growers controlled the liberal convention and nominated A. E. Hill of Greenwood, an influential farmer.

At Carman, Man., the home of Premier Hobbie, grain growers again controlled the liberal convention and elected C. W. Wood to oppose W. H. Staples, late member. Wood is a strong conservative, but is for the government on reciprocity.

House Confirms Choice of Barry

Resolution Naming Nebraskan on Board of Control of Soldiers' Homes Goes Through.

(From a Staff Correspondent.) WASHINGTON, Aug. 12.—(Special Telegram.)—Without a dissenting vote the resolution naming General P. H. Barry of Greeley to succeed the late Captain H. E. Palmer of Omaha as a member of the board of managers of national volunteer soldiers' homes passed the house today. It now goes to the senate, where prompt and favorable action will be taken.

The bill granting leave of absence to certain settlers from their homesteads until April 15, 1912, passed the house today. A similar bill passed the senate July 2. The bill that passed the house today provides that all persons who have heretofore made homestead entry in Lemmon, Timber Lake, Rapid City, Chamberlain, Belle Fourche, Gregory and Pierre land districts, South Dakota, in Valentine, O'Neill, Erwin, Bow and Alliance districts, Nebraska, and in Cheyenne, Evanston, Sundance, Buffalo and Douglas districts, Wyoming, are relieved of the necessity of residence and cultivation of their lands until April 15, 1912.

The house also passed the Burke bill extending the time of payment to certain homesteaders in the Rosebud and other Indian reservations in South Dakota and North Dakota.

The secretary of the interior today signed an order granting an extension of one year in which to make payments on town lots at Timber Lake and Dupree, S. D. This order is made conditional upon the payment of 5 per cent in advance on the amount due the government.

John M. Boucher of Pierre, S. D., nominated by Representative Burke to a cadetship at Annapolis, has been found to be disqualified owing to heart trouble and Representative Burke is now casting about for a successor.

L. E. Wetting of Lincoln was in Washington today on business before the Interstate Commerce commission and left tonight for New York.

Congressman Latta to Undergo Operation

Doctors at Rochester, Minn., Diagnose Disease as Tumor with Numerous Adhesions.

ROCHESTER, Minn., Aug. 12.—(Special Telegram.)—Congressman J. P. Latta of Nebraska will undergo his most serious operation in his life this afternoon. The operation, according to a decision reached after a thorough examination and consultation with the Mayo surgeons' staff here.

According to the diagnosis, the congressman has a tumor on the large bowel and a number of adhesions. The examination was most thorough and the gravity of the case was realized. Dr. Lukens, the family physician, said he considered the operation most serious, but entertained high hopes that the result would be most satisfactory for the patient.

Congressman Latta, when interviewed, said he had been compelled to give up his work at Washington July 1, owing to the condition of his health, and while he had a strong desire to be at the sessions of congress at this particular time his physical condition absolutely forbade it.

The congressman's son, and physician, left tonight for their home, where Mr. Latta will arrange his business affairs before submitting to the surgeon's knife. He is in high spirits and believes he will be able to stand the ordeal.

Elopers' Fears of Interference Are Unfounded

SPRINGFIELD, Mass., Aug. 12.—Apparently unconcerned as to what the public press might think of their elopement and blissfully happy in each other's company, Mrs. Julia French Geraghty, the Newport heiress, and her chauffeur husband, John Edward Paul Geraghty, passed today at the home of Mrs. Joseph Harris, Geraghty's cousin, in this city. Their only diversion was an automobile ride this evening, by means of which they succeeded in eluding newspaper men for a time.

Declarations of their intention to stick to each other in spite of all that the bride's parents or others might do to part them, and the elopement, which happened, made up the major portion of statements given out from the Harris home today. Geraghty admitted that he had retained a Springfield attorney to look after their interest, but "only as a matter of precaution."

"We are absolutely hand," Mrs. Geraghty said, "and I won't let them take me away from Jack."

NEWPORT, R. I., Aug. 12.—"We have plenty of funds and soon we are going to take a trip to Nova Scotia," wrote John Edward Paul Geraghty in a long letter to his father, John S. Geraghty, received today from his son, who eloped Wednesday with Miss Julia French, the young daughter of Mr. and Mrs. Amos Tuck French of Newport and New York.

The parents of the bride, Mr. and Mrs. Amos Tuck French, left today for their home in Tuxedo. It was learned from friends that they had decided to make no attempt at interfering with the bride and groom. The young Mrs. Geraghty was 18 last spring, and therefore of legal age to marry without her parents' consent.

Storehouse at Quarries East of Wyoming Entered and Quantity of Explosives Taken.

BEATRICE, Neb., Aug. 12.—(Special Telegram.)—Robbers entered Atwood's storehouse at the quarries, east of Wyoming, and stole about forty sticks of dynamite. It is supposed to be the work of some members of the bank robbers gang which has infested this section for some time.

About a year ago the place was entered and a quantity of dynamite taken. A number of banks were raided some time after the robbery. Bloodhounds were placed on the trail of the robbers today, but failed to locate them.

MAN ACCUSED AT SIDNEY OF TAMPERING WITH TRACK

Found to Have Unjointed Rails and to Have Made Signals Defective.

SIDNEY, Neb., Aug. 12.—(Special Telegram.)—William Mohline, who says he hails from Chicago, was arrested on the Union Pacific track west of Potter in this county yesterday afternoon by the signal maintainer working west from Potter. Mohline had taken the bolts out of the rails on a side track west of Potter thereby unjointing them so that a train pulling in on the side track would be derailed or under proper conditions a loss of life might result from it.

A little farther west the man had put the signal system out of working order by tampering with the wires and because of the failure of the signals to work the maintainer discovered the work of Mohline. The man was brought to Sidney and held to the district court in the sum of \$1,000. The penalty provided by statute for such work from one to ten years in the penitentiary.

MAJORS AT SOUTH OMAHA

Mayor May Decide to Veto Plan to Transfer Funds.

SEES LEGAL BAR IN THE WAY

Ferry Bigelow, Driver for Union Stock Yards Company, Injured in Collision with Street Car.

It was given out at the city hall yesterday that Mayor Trainor may decide to veto the transfer of money from the dog fund and the street cleaning funds, as ordered by the last meeting of the city council.

The council, at the time, put over an aggregate residue from the different funds amounting to about \$7,000, which was placed in the interest and sinking fund.

Mayor Trainor, in discussing the transfer, gave it as his opinion that the money from the two funds could not be arbitrarily transferred. The street cleaning fund, he said, was made up of money supplied by the council, and the law provided that the boardmaster of the city should gather stray dogs during the interval between May 1 and September 1, which provision, the mayor thought, implied that the money should remain to the credit of the dog fund until after September 1. The mayor, however, took occasion to say that he was well pleased with the action of the council in supplementing the interest and sinking fund from the other sources used by the city fathers. He said it had always been his policy to retire as much of the city's debt as could be conveniently and safely discharged, without crippling any other fund.

Forming Reserve Funds. According to the recent mandate of the city council the deputy city treasurer, acting in the absence of Treasurer John Gilpin, has prepared a statement of nine different improvement funds which are to be placed in one reserve fund and deposited at 4 per cent interest in the work of the districts in question.

The funds are called reserve funds and are retained by the city as a surety and guarantee of the improvement work done by the contractors. The total aggregates \$8,774.42 and is retained from the improvement funds of districts 25, 47, 48, 30, 32, 44, 25, 38 and 69.

Driver Collides with Car. Perry Bigelow, a driver for the Union Stock Yards company had his wagon smashed, his horse was fatally injured, and himself received severe cuts and bruises about the head yesterday evening about 5 o'clock at Thirty-fifth and L streets, as the result of a collision with one of the West L street cars.

Just how the accident occurred could not be exactly determined. Bigelow was at the head of the wagon and was driving on his own. He was on his way to the home of Dr. A. H. Koenig, who dressed his wounds and sent him to his home at Forty-fourth street and the county line.

Street Cleaning Device. With the completion of the paving work, the authorities have decided to introduce a new street cleaning device and one that can do more work than the present hand sweeping method. This was the understanding gathered Friday when a representative of the Sanitary Flushing machine was observed in the vicinity of the city hall.

City Engineer George Roberts recently expressed himself as averse to any high priced flushing machine for the reason that the pavement is of excellent quality and would eventually be destroyed by a large volume of water.

The northern section of the town is almost all completely paved and residents and officials are both anxious to maintain the new section in the best possible condition. The matter was discussed in a short time, according to the opinion of some of the officials.

House Damaged by Fire. Fire broke out late in the forenoon in the cottage owned and occupied by H. Rayfield at Thirtieth and R streets causing a damage to the extent of \$150 on the house and \$50 on the furniture.

The blaze originated through an alleged attempt to refill a gasoline tank while the stove was lighted. The fluid coming in contact with the flame, caused an explosion and the fire spread through the house.

Boy Injured by Auto. Charles Bargay, a 14-year-old carrier of The Bee, while learning to ride a bicycle yesterday at the corner of Twenty-fourth and K streets, became confused and collided with an auto driven by H. M. Rushing. The boy was thrown on his head and sustained slight bruises about the body. Dr. William Berry was summoned and attended to the injured boy after which he was removed in the Rushing auto to his home, 104 North Twenty-fourth street.

Jerry Continues Campaign. Jerry Howard, candidate for the democratic nomination for sheriff, patrolled the streets and the packing house district yesterday afternoon in an equipage drawn by the sturdy, if homely, descendant of Sancho Panza's steed.

Nor was the steed the only reminder of the redoubtable squery of Don Quixote, for the honorable Jerry in advancing reasons for the voters' unqualified support peddled out a stream of homely saws and witticisms that might well have been uttered by the immortal Sancho himself.

Hunting for Anaxi. K. Anaxi, a Japanese cook at Thirty-sixth and N streets, was arrested by the police yesterday morning of having taken French leave with a sum of borrowed money. S. Okasaki, the boarding boss of the Japanese colony, merely asked the missing Jap be located. He refused to prefer a charge against the man.

Indigestion, Bowel Trouble, Dyspepsia and Diarrhoea. Put a nicely browned piece of toast in a small bowl of cold water and let it stand about an hour. To a glass of the strained toast water, add a tablespoonful of Duffy's pure malt whiskey. If desired a little fruit syrup may be added for flavoring. This remedy has been used with excellent results and is very highly recommended by Dr. E. T. Hewson of Detroit, Mich., who says: "It saved me from a threatened collapse when nothing else had any effect."
