The movement to have Commissions Roe ousted from office on the theory that the police department did not do the right thing at the time of the strike has not made any headway. While on the surface it would seem that the police did nothing to prevent rioting, yet a great many persons, not sympathizers with strikes, are ferent course bloodshed would certainly have been precipitated. President Pancoast opened the meeting with a few words of greeting to the candidates and an announcement that the time of speaking would be limited to three minutes for each candidate. Some of the speakers forgot the time limit and the president indulged them a bit over the time limit.

School Board's Deficit. W. H. Nicholls has finished auditing the books of the school board and the police judge and has turned in his report to James P. Sulitvan, secretary of the board. The figures of Mr. Nicholls show a total deficit of \$24,751.19 to July 15 of the current year, with probably \$1,500 outstanding accounts that have been brought to the notice of the board within the last few days. The total indebtedness of the school board will therefore reach somewhere in the neighborhood of \$25,000 and unless some provision be made especially for defraying the debt the present school year will be one of financial stringency to a degree that will react upon the efficient conduct of the schools.

As the matter stands the school board will at once be forced to draw warrants against the school levy, which will not provide available money until the first of the
