

Nebraska ANTI-WILEY MEN INVADING

Representative of Forces Against Chemist in Lincoln. WOULD PREVENT ENDORSEMENT

Featuring Favorable Action by Debut Convention, the Anti-Wiley to Elect Nebraska Commissioner Against Dr. Wiley.

From a Staff Correspondent. LINCOLN, Aug. 20.—(Special.)—That a representative of the anti-Wiley group visited the capital city only a few days ago in behalf of persons interested in having the federal chemist repudiated by the annual meeting of the state pure food commission to be held at Omaha next week.

While in this city Cannon was not given a chance to confer with any of the head officials of the Pure Food department, as Commissioner Jackson, in consulting at his home after the department there, little chance that the Wiley matter will be taken up at the gathering of the food commissioners. It is the belief here, shared by pure food commissions of other states, that the endorsement of the Wiley matter would only precipitate a row and that that is one thing which they desire to avoid at this gathering.

Cannon is to have called upon Governor Aldrich while in the city, but he did not to have disclosed the real purpose of his mission here to the state executive. To several he gave the information that he merely stopped off to pay his respects to the Pure Food department.

Good Roads Meeting Held in North Platte

Organization Named Platte Valley Transcontinental Good Roads Association is Formed.

NORTH PLATTE, Neb., Aug. 18.—(Special.)—A good roads convention called to order at North Platte, Neb., today, by adopting the name of Platte Valley Transcontinental Good Roads Association. Some 300 delegates of different organizations from Grand Island to Julesburg, Colo., were present.

WYOMING FARMER PLANNED FOR REFUSING TO TURN OUT FOR AUTO APPEALS TO DISTRICT COURT.

SEATTLE, Wash., Aug. 18.—(Special.)—Frank Gerick, who is constructing the public highway by John Traubrecht of Wyoming, was fined \$5 and costs at that place yesterday by Judge Crawford. He appealed the case to the district court. Last week the complainant was driving his automobile along the road near Blue Heron when he met a party named Gerick, who was riding in his wagon. He signaled Gerick to turn out and give him part of the road, but Gerick paid no attention to him. Traubrecht's car crashed in to Gerick's wagon and was badly damaged. He then had Gerick arrested for obstructing the highway. Under the new law a person who fails to give part of the road when signaled to do so is subject to a fine.

Mrs. Cynthia Michael, a pioneer resident of Sage county, died Thursday night at her home south of Liberty, aged 85 years. Mr. and Mrs. E. H. Oden celebrated their thirty-sixth wedding anniversary last evening in the presence of the members of their family and a few friends.

Ernest Ratz, a native of Switzerland, arrived in the city yesterday for his brother, Walter Ratz, who has been in the country all here for the last few months. Last May the young man called upon Sheriff Schick and stated that he believed his mind was affected. He asked the sheriff to care for him, and this the officer did. Mr. Schick writes to Ernest, and yesterday he arrived in the city to take his brother back to his home in Switzerland.

Some of the heirs of the late Peter Nien, the machine farmer, who was killed in a moving machine accident near Hills a few weeks ago, are making an attempt to have the will of the deceased set aside on the grounds that he was of unsound mind when he made the will because of the excessive use of liquor, and because it was not properly drawn up. The objectors are Guy M. Thompson, a son-in-law, Harry Wick, Mary Van Stuckler, James Sheering and Alice Thomas. The estate, which is valued at \$20,000, was left to the widow of the deceased.

FARMER MAY LOSE EYE. CALLAWAY, Neb., Aug. 18.—(Special.)—William S. Pannel, a farmer who resides five miles south of this city, yesterday met with an accident which may cost him the sight of his left eye. He was cutting down some trees, had fallen, and was in the act of climbing the limbs from the trunk of the tree when a limb fell back striking him in the eye and a twig penetrated the side of the eyeball.

New Industry for York. YORK, Neb., Aug. 18.—(Special.)—York has a new factory opened September 1 by L. E. Porter. He has all the necessary machinery now in place and expects to employ three or four expert brass makers in about two weeks.

Nebraska State Board Ready to Make Plans for New Farm School

Will Meet with Regents About First of September to Carry Out Eastman Bill.

(From a Staff Correspondent.) LINCOLN, Aug. 18.—(Special.)—The State Board of Public Lands and Buildings is laying plans preparatory to meeting with the regents of the state university about September 1 for the consideration of matters connected with carrying out the provisions of the Eastman agricultural school bill, passed at the late session of the legislature. At that time it is the purpose of the State Board of Public Lands and Buildings to confer with the regents especially upon the matter of signing bills introduced by the first named board in purchasing ground for the building of the agricultural school at Curtis.

In connection with the discussion of the bill there is much talk that the validity of the new law will be attacked by influence on its harmony with the act from the time it was introduced in the lower house, strengthened, it is said, by representatives from several of the towns which were defined in the board's report of location came up for decision May 31.

The original enactment provided that while the board should make the selection of the site for the new state institution and should provide for the building of the school, all expenses relative to its establishment, the board's report would have to verify the vouchers before the money would be paid out of the state treasury. After the institution is in running order the Eastman act provides that the school shall be under the control and establishment of the Board of Regents.

News from Seward. SEWARD, Neb., Aug. 18.—(Special.)—Mrs. Arnold Rogge was seriously injured in a runaway accident yesterday. Her horse became frightened at a road grader and turned over her carriage, breaking many of her bones.

Chancellor Avery of the University of Nebraska and Prof. G. W. Meier, president of the German Lutheran college of this place, will be the speakers for the German-American picnic August 24. The Lincoln Creek band and Seward band will play.

Grandma Thibsen, aged 84 years, died at the home of her daughter yesterday from cancer.

LOOKS LIKE WHOLE CHEESE

Weights 12,000 Pounds and Will Require 150,000 Gallons of Milk.

An American cheese weighing over 12,000 pounds, three times as large as the biggest cheese ever made in the world, is being made at Appleton, Wis., this summer by N. J. Starnes, the American cheese expert, for the National Dairy Show association.

Last year Mr. Simon built a cheese which weighed a little over 4,000 pounds, the largest in the history of the dairy industry and it scored 5 per cent at the National Dairy show in Chicago.

It will require all the milk from 650 cows for one day, all pure bred animals, probably worth fully \$50,000. Fully 1,500 men will be required to do the milking. This milk will be furnished by 600 sanitary dairies, valued at over \$2,000,000.

But securing the milk is only a small part of the construction of such a mammoth cheese. It will require the combined efforts of nearly 500 experienced men to make the cheese. Eighteen expert cheesemakers and twenty-five to thirty experienced helpers will work together under the supervision of Mr. Simon.

The cheese, being of such an enormous size, will be built on a specially constructed flat car, and then a special and exceptionally large refrigerator will have to be constructed on the car to carry the cheese until time for the exhibition, October 26 to November 4.

The world's greatest cheese is not to be made merely for exhibition purposes. But it is to be entered into competition with the American cheese made in Illinois, New York and other dairy states—Chicago Journal.

A Bloody Affair. A lung hemorrhage. Stop it and cure weak lungs, coughs and colds with Dr. King's New Discovery. 50c and \$1.00. For sale by Boston Drug Co.

Vote on Supreme Judge

Following is the vote on supreme Judge in the several counties where returns are practically complete at the hour of going to press:

RETURNS ON STATE PRIMARY

Vote Cast Last Tuesday in Nebraska is Coming in at Last.

PLACES ON TICKET ARE SETTLED

Rees, Hamer and Letton to Head the Republican and Dem. Oldham and Stark on the Democratic.

With the official count practically completed for the primary vote of last Tuesday, the position of the several candidates is all but settled. On the republican ticket it is certain that Judges Rees, Hamer and Letton are nominated for the supreme bench; their lead over the other candidates being decisive. On the democratic ticket Judge Oldham and Judge Dean are approximately equal, but the race for the third place is very close between Stark and Albert, with the probabilities in favor of Stark, who has a lead of 38 in thirty-three counties reported and lauded at the hour of going to press. In these counties the total vote cast is a little over 45,000, 40,000 for the republicans and 5,000 for the democrats. The totals for the candidates for supreme judge are:

Table with columns for REPUBLICAN and DEMOCRAT candidates and their vote counts across various counties.

RAILWAY COMMISSIONERS—REPUBLICANS

Table listing Republican candidates for Railway Commissioners: Box Butte, Brown, Burr, etc.

STUDENTS SELF SUPPORTING

Figures Compiled by Bureau Show Activity at Lincoln.

ALL TRADES ARE REPRESENTED

Half of Total Number of University of Nebraska Students Are Wage-Earners and Contribute to Their Own Education.

(From a Staff Correspondent.) LINCOLN, Neb., Aug. 18.—(Special.)—For every man at the city campus of the State university who depended entirely upon his education last year, there was another student who, in part, at least, was self-supporting.

Of the 1,542 men registered at the university last year, 750 were self-supporting. The figures just tabulated by the State University student employment bureau, and the records make an interesting study of student life.

These students earned only \$200 less than \$500 during the school year. The exact amount reported by the 69 was \$48,812. This means that the average for each man was \$707. This average, however, is not indicative of much more, for the average number of hours running from 20 to 81.5. The maximum was reported by a private operator who carried over twelve credits in school.

Students in the college of arts and sciences showed the greatest aggregate earning capacity, but they also showed the largest number of students in the college of agriculture, in the college of education, or in the college of law. Only 100 of these made reports of earnings, but these earned \$2,618.95.

Law students showed the greatest average earning capacity. Fifty-one workers earned \$20,225, an average of \$399.14 each. Medical students came second in this regard, thirty-six of them averaged \$282.84 each.

According to figures of the sophomore class, the largest number of students reported, but they earn the least of any class. Freshmen, with the next largest number, earn the most, but seniors, with the smallest list of workers, earn the largest average.

Newspaper Work Pays Well. Employment classed as "technical" in the employment bureau report yielded the largest amount of students. From these sources they drew \$247,112.

Engineering students secured \$278 from this source and law students \$261.80. Second on the list is teaching, coloring and assisting, which aggregates \$243, of which \$178 is secured by medical students. Clerical work yields \$48,313, the biggest share of this going to students in the arts of this college, who earn \$152.

Waiting on table, janitor, janitor and assisting, which aggregates \$243, of which \$178 is secured by medical students. Clerical work yields \$48,313, the biggest share of this going to students in the arts of this college, who earn \$152.

OVERLAND BY BEAR POWER

Utah Promoter Making a Unique Trip From the Rockies to the Atlantic.

Somewhere out in the tall timber that trims the slopes of the Rockies are two bears, now moving toward the office of Mayor Gardner in the New York city hall, they carry letters of introduction, and also carry a considerable quantity of "boom-and-boom" literature about the Wasatch mountains, where they were cubbed and captured.

The bears, known to farmers, and hitched for their long overland journey to a litter-attached cart. A trapper named J. E. Ellis, who trapped them when they were younger than they are now, is their driver, and the cart to which he has hitched them is an especially contrived for the journey.

Both's party in the New York city hall, they carry letters of introduction, and also carry a considerable quantity of "boom-and-boom" literature about the Wasatch mountains, where they were cubbed and captured.

BRIEF CITY NEWS

Have Best Fish in Electric Fish—Surgers-Grounds. Attorney Wins Improves—City Attorney John A. Rine, who is confined in the hospital with an attack of typhoid fever, is progressing favorably. The form of the disease which has attacked him is not the most virulent and he may not have a long illness.

White Among Old Friends—A. S. White, formerly of Omaha, a graduate of the University of Nebraska, now a director of the Night and Day bank of St. Louis, was in the city Saturday visiting old friends.

Green Gables Sanatorium. This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet centrally located and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of noncontagious and venereal diseases, no others being admitted. The other Rest Cottage, being designed for and devoted to the exclusive treatment of select mental cases, requiring for a time watchful care and special nursing.

Mystery of the Tom-Tom and the Fiftal Pipe Lured Visitor to Taogator. The night had tempted me, and I sat bedside of time on a terrace surrounded by the beauty of the Kasabian in the full moon. The city was alive, some one played softly upon the Moorish pipes. The tinkling of a guitar blended with weird strains of Arab song, and steadily run-tum-a-run-tum, run-tum-a-run-tum, beat the mad cadence of a rhythmic dance. That tom-tom fascinated me, and I arose to track the sound. Every sense was so delicately aware for hurry, I watched the pattern of tree shadows on the path, which drops by little flights of steps through the garden. I stopped to drink in the cool air, full of the perfume of a night flower, and listened to the distant beat of the drum through the veil of beating leaves.

How Horses Have Gone Up. An Important and Profitable Factor in the Distribution of Wealth. In the ten years before the census taken a year ago last spring the value of domestic animals in South Dakota increased more than \$60,000,000 in value, which was almost 10 per cent. Yet in that decade the cattle in the state actually fell off about \$26,000, or over 4 per cent.

Mr. White is the son of Dr. White, who was for several years chief of the bureau of animal industry for South Omaha.

Bank Increases Capital Stock. FALLS CITY, Neb., Aug. 18.—(Special.)—The directors of the Falls City State bank, at a meeting held this week, decided to increase the bank's capital from \$50,000 to \$75,000. With the surplus, the increase gives the bank a capital of nearly \$100,000.

Tanning Light on Wreckeries. Brooklyn Eagle. All the "commercial" life of the nation are to be investigated. One more thorough upward will restore confidence and business will resume with a rush. We need a newspaper in which multi-millionaire will print day by day their innermost thoughts. Balance sheets and cost sheets can be factored so that they will not furnish full publicity. Until we can get at what Mr. Morgan thinks as we get at what Mr. Roosevelt or Mr. Bryan thinks we shall not be able to discount Mr. Morgan's intentions. Will the searching publicity urged by Partner Perkins give us these subconscious murmurings of his patron saint?

HIS ECZEMA GONE AND BOILS CURED

Eczema Began When Three Weeks Old. Arms, Shoulders and Breast a Solid Scab. Boils Broke Out During Teething. Used Cuticura Soap and Ointment, and He Was the Picture of Health.

"My son was about three weeks old when I noticed a breaking-out on his chest. A short time after, his neck, shoulders and breast broke out, and in a few days became a solid scab. I became alarmed, and called our family physician who at once pronounced the disease eczema. He advised me to use Cuticura Soap and Ointment. I used it for about three months. By the use of Cuticura and the time I dropped the doctor's treatment, I used the Cuticura Soap and Ointment. The scab fell off, and the picture of health. His complexion was soft and rosy, and he had a mass of silver curls. I had been afraid that I would never see my boy again. He is now a healthy, happy child, and I feel that I owe a great deal to the Cuticura Remedies." Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a 50-cent bottle of each, with 25-page booklet on the skin and scalp, will be sent, post-free, on application to Foster Drug & Chem. Corp., Dept. 318, Boston.

In a class by itself

As an office building, there is not another in the city which will compare in the solidity and beauty of construction with THE BEE BUILDING

Everything has been and is being done to make this fine building thoroughly comfortable for tenants who office here. New elevators with the most modern equipment have been installed, greatly facilitating the transit of hundreds of passengers daily. The magnificent court and lobby have been altered and redecorated, as well as the corridors throughout the building. It has been the aim of the management to keep a high class of tenants in the building and to do that it necessarily follows that the accommodations must be the best.

If you are looking for a permanent office, we invite you to pay us a visit and see for yourself the advantages we offer.

We list a few offices vacant at the present time:

ROOM 446—A very attractive space on the sixth floor, facing Seventeenth; having in connection a commodious vault which affords space for stationary, valuable papers, etc. This room runs at per month \$10.00

ROOM 548—Was especially designed as a suite desirable for lawyers. There are three rooms of good size, having solid tile partitions between all the apartments. The suite is in the southeast corner of the building, looking out on Farm and Seventeenth streets; is conveniently located to the elevators and all the court rooms of Douglas county, affording every convenience. Per month \$60.00

ROOM 446—Directly opposite the new Court House facing Farm street. Our front offices are much in demand on account of the prominent location. This room is 13 1/2 x 19 1/2 feet in size, and is subdivided with frame and glass partition, giving two offices in one. Rental price, per month \$30.00

ROOM 320—Is a choice corner office having a north and west exposure making this space attractive at any season of the year on account of good light and ventilation. We will arrange this room, 12 x 18, suitable for tenants, and there being a vault in the room it affords extra protection for valuables. Rental, per month \$40.00

The Bee Building Company. Bee Business Office. 17th and Farm Sts.
