

"Not the best because the largest, but the largest because the best"—Boyles.

LACK OF TRAINING

Always Back of Lack of Success

☐ There's a high wall between the untrained man and the man of special training--between ordinary wages and a splendid salary--between being "one of the employes" and "one of the heads" of a business.

☐ That high wall is lack of SPECIAL TRAINING.

☐ The young person equipped with a good, public school education should not let that wall stop him. There's a way over it.

The Fall Term

of

BOYLES COLLEGE

Opens Monday, Sept. 4

In Both the DAY and NIGHT SCHOOL

☐ All you have to do to scale the wall is to begin then and pursue our sound, practical, absolutely thorough courses in Bookkeeping and Stenography, Salesmanship, Telegraphy, or Civil Service Branches.

A Position for Every Graduate

☐ You don't run a bit of a chance in coming to us with the expectation of being placed in a position as soon as you go forth from BOYLES COLLEGE as a competent Stenographer and Bookkeeper or Telegrapher.

☐ There are no ifs and ands about it. There are no strings tied to this promise. We will do what we say we will do. We are in a position to carry out each and every last promise we make to you.

☐ BOYLES unusually systematic plan of keeping in touch with applications for Stenographers and Bookkeepers, backed by our courteous treatment of business men, invariably gains their respect, and prompts them to call upon us when in need of first class office assistants.

☐ BOYLES COLLEGE is official training school for the Union Pacific Railroad Telegraph Department, and the Illinois Central Railroad for telegraphers.

☐ The Union Pacific guarantees to give every BOYLES COLLEGE Telegraphy graduate a position just as soon as his course is completed.

☐ **Don't you think you ought to investigate the college that has such a standing in the business community? Or at least send for one of our handsome catalogues.**

☐ Students are being enrolled every day now for the FALL TERM.

BOYLES COLLEGE H. B. BOYLES,
President
