With the exception of Judge Redick of Omaha, few candidates for judge of the district court reported any expenses besides the \$10 filing fee and it is said candidates are not required to include the filing fee.

Guye Sends Out Letter.

Labor Commissioner Guye today issued a statement to owners of shops and factories urging them to make preparations immediately for the new factory inspection law which was put into effect today. In the late session of the state legislature, in the letter he is sending out the state official has enclosed blanks upon which owners or proprietors may report accidents which happen in factories.

Commissioner Guye seeks to impress this upon the minds of the employers and owners that the scientific protection of life and limb and health is of greater importance to society and the gathering of increased profits.

Lincoln on Edge of Rain.

This city was on the edge of a rainstorm which swept the South Platte country last night from the north and the weather bureau indicate that the heaviest downpour was west of the city. Here it was 1/2 of an inch, while toward the storm center in the vicinity of Hastings the precipitation was more than an inch.

Dead Man Identified.

The body of the man who died last night aboard a South Seventeenth street car was identified today as that of Jesse McCoy of Harvard, who only recently was released from the state penitentiary upon recommendation of the advisory board of pardons. McCoy was identified by his mother, who, thinking the disappearance of her son rather queer, went to the morgue to ascertain if the body held there was that of her son.

McCoy Has Been in This City a Number of Times and of Late Has Been Visiting in the City.

McCoy has been in this city a number of times and of late has been visiting in the city. He was very weak physically and poor heart action was the cause of his dismissal from the state penitentiary.

Ready for Students' Return.

State university authorities today began a canvass of the city with the end in view of obtaining names of rooming and boarding houses and places for employment for students during the coming school year. The entire city will be covered within the next fortnight so that the information may be available for prospective students who visit this city during fair week.

Norris to Talk at Fair.

Congressman George W. Norris is to speak at the Nebraska State fair September 6, if present arrangements between the fair board and the Fifth District man are completed. The date may be changed by later negotiations. Norris some time ago announced his intention of contesting with United States Senator Brown for the republican nomination for that place. It is said here that Congressman Norris' speech will consist in a large measure in a defense of his position on reciprocity, the opposite position on which was taken

by the Buffalo county man in the senate during the present special session.

Cut Rate to Fair.

The Minneapolis & Omaha Railroad company is the first to apply to the State Railway commission for permission to reduce rates to Lincoln during the state fair from 3 cents a mile to one and one-half fare for the round trip. The railroads usually make such a reduction during the state fair.

Hanson Sees Board.

Attorney Frank T. Hanson, representing the South Omaha stock yards, was in conference with the State Railway commission this forenoon in regard to the application of the stock yards for leave to increase charges for hay from \$3 a ton to \$2.50 a ton and to increase the price of corn from \$1 to \$1.19 a bushel.

Anderson Off Ballot.

Charles L. Anderson of Oxford, a democratic candidate for regent, has written letters to the secretary of state and to the regents of the university complaining bitterly that his name was left off the official ballot in ten different counties or that no vote was returned for him. Secretary of State Walt has investigated and finds that votes were returned for him from all of the counties in question with the exception of Clay county.

Barton to Milwaukee.

State Auditor Barton has gone to Milwaukee to confer with other state auditors in regard to the results of an examination of a Canadian insurance company which has been doing business in the United States. Interesting disclosures are looked for when the examination now in progress is completed. It is rumored that officers of the company have been retaining for their own use 2 per cent of the 6 per cent interest which the company funds have been drawing.

Distribution of Statutes.

Four hundred copies of Coburn's statutes have been delivered to the secretary of state under the provisions of a law passed last winter authorizing the state to buy the books at \$1 a copy, or a total of \$400 for the lot. The books will be distributed to certain public officers in accordance with a law regulating their distribution.

McMasters' Brother Asking for News of the Hesse Murder

Fact that Nothing Has Been Heard from Former Husband of Woman Causing Comment.

TECUMSEH, Neb., Aug. 21.—(Special.)—The only new developments in the Hesse murder case here in the last twenty-four hours is the hearing from a brother of Miss Wauneta Laverne McMasters' father. The wife of this brother has written Sheriff E. L. Roberts in a high tone her home at Dulask, S. D., asking for some further particulars of the double murder and the hiding of the bodies of Mrs. Hesse and her daughter in the well. The sheriff wired Mrs. McMasters at once and endeavored through her to locate the father of the murdered girl. Up to this time there is no reply. Sheriff Roberts is of the opinion that the authorities of Utah will apprehend Hesse within a few days at least.

The awful crime is still the one theme of conversation with Tecumseh people. It has worked them up to a high state of excitement. The women who were called to the morgue by the coroner's jury in an endeavor to identify the bodies have been in a serious nervous state since. One of the witnesses said the old well was within seventy-five feet of her bedroom window and that, without doubt, she was sitting near an open window, the window being towards the well, at the time the women were murdered and their bodies disposed of. The wonderful composure that Hesse maintained after he had killed the women and buried them in the well and then burned his house, is almost unparalleled. Following the fire he investigated the prices of building materials at the local yards and went as far as to show plans of his proposed new house. Later he said he would have to give up the building proposition as his wife could not bear to return to Tecumseh.

The people are anxious to hear a confession from Hesse himself, as it all seems such a mystery, and there are those who are of the opinion there is something back of the deed just uncovered. The old well at the house first occupied by the Hesses in Tecumseh has not been dug out yet, but it is going to be, it is understood. Why would this man fill one well and dig another on the same lot on his own expense in a property he was renting, is a question that puzzles many. And too, where is McMasters, the father of the murdered girl. It is known that he was formerly a traveling man with headquarters in Chicago. He has always been solicitous as to the divorced wife and daughter and now, when their murdered bodies have been discovered, he is silent. The authorities in Chicago and other points and cannot locate him.

In case Hesse is apprehended the excitement here, which is now somewhat on the decline, will be renewed with wonderful vigor. Most people do not think that Hesse will be taken alive, agreeing that he will probably add the last chapter to his story of crime by taking his own life, if he falls into the hands of the law.

STANTON SCHOOL NOT CONDEMNED

Delay in Finishing Building Due to Change in Specifications.

STANTON, Neb., Aug. 21.—(Special.)—Boganson & Blaser, the contractors who are building the new school house here, deny that any part of the building has been condemned. The reports arose from the fact that the school board ordered changes in the supports of the roof, which it decided were too light. This was an addition to the specifications in the contract and the firm is to be paid extra for it. The delay in completing the building is due to this cause.

FOR ITCHING SCALPS DANDRUFF AND DRY, THIN, FALLING HAIR

Cuticura Soap and Ointment Afford a Speedy, Economical and Agreeable Treatment.

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair of women, the following special treatment has been found most effective. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the ointment on the scalp skin rather than on the hair.

The next morning, shampoo with Cuticura soap and hot water. Shampoos alone may be used as often as agreeable, but for women's hair once or twice a month is generally sufficient for this special treatment. Men may apply Cuticura ointment as they would a perfume or in any other convenient way, preferably at night, as often as necessary to keep the scalp clean and the hair from falling, but may shampoo lightly with Cuticura soap every morning, when making the toilet.

Notwithstanding that Cuticura soap and ointment are sold by druggists and dealers throughout the world, those wishing to try this treatment may do so without expense by sending to "Cuticura," Dept. E, Boston, for a free sample of each, with 22-p. book on the cure and treatment of skin and hair.

It is well to place a light covering over the hair to protect the pillow from stain.

Terrific Windstorm Does Great Damage

Two Tornadoes Said to Have Collided Along Border in North Dakota.

MINNEAPOLIS, Aug. 21.—A terrific windstorm tonight along the international boundary line in North Dakota blew down houses on the heads of their inmates and whipped crops in places into shreds. A number of persons are reported killed at Antler, in Bottineau county, North Dakota. It is reported that two tornadoes collided at Sherwood. Heavy property loss is reported at Sherwood, Lorraine, Mohall and Sourd. At Sourd one person was killed.

INJURED WOMAN IS IMPROVED

Mrs. Frederick J. Wearne Victim of Automobile Accident Saturday Evening.

Several persons had narrow escapes Saturday evening when the automobiles being driven by Charles T. Stewart of Council

Bluffs and Mrs. Frederick J. Wearne of 2509 Woodworth avenue, who was accompanied by Miss Anna Moore of 1320 South Twenty-sixth street, came together at high speed at Davenport and Thirty-sixth streets. Mrs. Wearne was the only one of the three who received severe injury. Mrs. Wearne was thrown forward in the car and as the result of the impact suffered a deep abrasion of the scalp. She was taken to Wise Memorial hospital, where she was attended by her husband, who arrived soon after the accident. The drivers of both autos were returning from the Country club, and Mrs. Wearne was driving south. Mr. Stewart was coming from the west, headed for Council Bluffs. The street at that point is very narrow and neither driver saw the other until the machines were nearly together. Both cars were wrecked. Mrs. Wearne was considerably improved Sunday.

John Le Compton Laughs at Claims of the Pioneers

"I have just been reading in The Bee of the picnic that some men and women held out at Florence Saturday. At that picnic these same men and women proclaimed themselves the pioneers of Nebraska and the first white settlers west of the Missouri river. This tickles me all over and makes me laugh until I can hardly contain myself," remarked John LeCompton, an aged Frenchman, who came down from Winnebago agency with a bunch of Winnebago and Omaha Indians. Continuing, LeCompton added:

"It's all very well to resolve that they are and were the first and only white men, but they are not sticking to the facts. I can beat them years and years, and then have some years to spare.

"Why, do you know that I was out here on this side of the river before that Joe Redman or Lefe Shipley was born. Seventy years ago, when a boy 10 years of age, I planted corn right on the site of where that high building (pointing to the City National bank) now stands. There was my brother Louis, 12 years older than me and who died five years ago. I have heard my father say that Louis was born at what is now the corner of Sixteenth and Farm streets. And if the record is correct, he was the first white child born in Nebraska.

"My father was a white man and my mother was part French and part Indian, so you see that there is more white than Indian blood in my veins. The family lived with the Omahas for more than 100 years and when it comes to being old the LeComptons come pretty near being it. Those men who met up at Florence Saturday were just newcomers and tenderfeet compared with us."
