CHICAGO GRAIN AND PROVISIONS CORN MARKET ACTION IS FIRM

Wheat Rules Stronger and Higher—
News is Bullish on Harvesting in
Northwest—Frost Predicted
In Canadian Provinces.

OMAHA. Aug. 21, 1911.

Views among the wheat traders are well mixed, which is not surprising considering the conflicting influences.

With the falling off in the winter wheat movement, cash wheat values have advanced. There still remains a possibility of frost damage to the late Canadian cropwhile on the other hand recent favorable reports on harvesting and heavy crop movements abroad are against any decided advance. For the time being the market will likely turn to the good of bad threshing reports in the spring wheat belt.

The action in the corn market is firm, support coming from professional speculators, but values drift back easily as soon as this support is withdrawn. Small stocks as this support is withdrawn. Small stocks and vary light country offerings and an active Gemand, coupled with an established shortage in the year's crop, are the market features.

Wheat ruled strong and higher today. News was bullish on harvesting in the northwest and frost was predicted in the Canadian provinces.

Corn recently looke, Sat'y, weak to be lower.

Corn recently molding its own, while wheat strength held provision prices throughout. January bork closed 250 up to 36.50; January lard 10 in orthwest and frost was predicted in the Canadian provinces.

Corn ruled narrow and dull. Speculative trade was not active and cash corn ruled was a file buller.

Corn recently holding its own, while wheat strength held provision prices throughout. January bork closed 250 up to 36.50; January lard 10 in orthwest and frost was predicted in the Canadian provinces.

Corn ruled narrow and dull. Speculative trade was not active and cash corn ruled was declining was a follows:

Corn ruled narrow and coule seed to the sea of Features of the Trading and Closing Prices on Board of Trade.

**NEW YORK STOCKS AND BONDS** 

Week Open with Mild Benewal of Downward Movement.

ATTACK THREE LEADING ISSUES Announcement by Harriman System of Comprehensive Policy of Retrenchment Most Discouraging News of Day.

NEW YORK, Aug. 21.—The week in the stock market opened with a renewal in mild form of the downward movement, which has played such havoc with prices of securities for almost a month. There was moderately heavy selling, which again concentrated on the leaders, Union Pacific, Reading and United States Steel. In fact, dealings in these issues during the first three hours of the session constituted over 55 per cent of the whole. The decline to-day was more suggestive of profit taking by speculative interests, which bought on last week's low price than of liquidation. Week-end developments offered little incentive for activity on the built side. Perhaps the most discouraging event was the announcement of the Harriman system of its intention to embark on comprehensive policy of retrenchment, because of unsatisfactory earnings and other adverse conditions. While no official statement was vouchsafed by local officials it is understood that the proposed curtaliment will affect several thousand employes in the clerical departments of the Union Pacific and Southern Pacific lines and may later embrace the operating divisions. Incidentally this action on the part of the Harriman roads was accepted as an indirect really this action on the part of the Harri-man roads was accepted as an indirect re-sponse to the recent demands of various employes for increased pay and shorter ours.
Pressure against United States Steel was more pronounced than any recent period and the heavy offerings of this stock, according to gossip resulted from fear that the report soon to be submitted to President Taft by the Department of Commerce and Labor hardly would be favor-

able.

In the very late business there was a moderate increase of activity at the expense of values, with Union Pacific falling to its previous low level of the day. Final prices were only a fraction above the poorest and the market's tone at the clos

est and the market's tone at the close was distinctly heavy.
According to statements of western railway officials, traffic in that section is holding steady with the general merchandise movement the most sustaining factor.
Bonds were heavy here with further weakness in American Tobacco 4 per cent. Total sales, par value, \$1.507,000. United States government bonds were unchanged on call.

on call.

SHEEP-Early estimate on sheep are lamb arrivals placed receipts at eight eight cars, the largest single run of the season thus far. Only on one occasion July 21, have previous shipments this season yielded a total greater than 10,000 hear. The big end of supply consisted of lambs and feeder sorts from fat strings continuationally seldom exceeding 10 per cent. There were several straight bunches of feedelambs on sale, however, but the main market was a packers affair. Offerings o sheep were about equally divided, showing up half in feeder and half in killing condition.

Demand from all quarters proved dull another than the companies of the session and very little business was transacted until well along toward midday. Packers fig-hocinstructions to cheapen cost whenever.
