PARDON REQUESTS REFUSED

Three Men Denied Applications for Freedom from Prison.

TERMINAL VALUES IN NEBRASKA

Total from State Board Somewhat Higher Than Year Ago—Burlington and Missouri Pacific Higher in Lancaster.

(From a Staff Correspondent.) LINCOLN, Aug. 23.—(Special.)—The recommendations of the advisory board of pardons that Alfred T. Staley, bigamist, and Harry Spence, convicted for the theft of \$60 from his employer, be paroled and that Calvin Harris, colored, serving eight years for a statutory crime, be found an object for executive clemency, were approved by Governor Aldrich today.

John O. Veiser, the Omaha member of the board, wrote the opinion in the Staley matter. This inmate of the penitentiary was found guilty of bigamy in this county and was sentenced to a term of one year. Staley offered as a defense that he was advised by a deputy county attorney, in Douglas county, that the marriage with his cousin was void. The courts held that this marriage was valid and that his second marriage was bigamous.

Harry Spence of Garden county was 21 years of age when he was convicted of burglary, his offense consisting of the theft of \$60 from a store where he was employed as a clerk. Forty dollars of the money was returned to the storekeeper afterward.

E. G. Maggi, who was the writer of the opinion in this case, asserted that the excessive use of alcohol at the time the deed was committed was responsible. Dr. Butler of Superior wrote the findings in the Harris matter and in a lengthy treatise recommended that his application be turned down.

Terminal Figures for State.

The valuation of physical property and rolling stock of all of the principal railroads in the state, for the purposes of city and village taxation, or terminal taxation, is somewhat higher this year than last year. Only the Minneapolis & Omaha and the Missouri Pacific show a decrease in this kind of property. Tabulations made by the State Board of Assessment show the following valuation of physical property and rolling stock in villages and towns:

Table with 2 columns: Year (1910, 1911) and Value. Rows include Burlington, Union Pacific, Northwestern, Minneapolis & Omaha, Rock Island, Missouri Pacific, St. Joseph & Grand Island.

The grand total of the taxable property for city and village purposes of all the railroads in the state is \$10,851,192.

Lancaster Terminal Values.

Tax Commissioner Sheffield has received from the State Board of Equalization valuations on railroad property within the city of Lincoln. These valuations are made under the terminal taxation law and are usually the last work of the state board. According to the figures the Burlington and the Missouri Pacific have been increased while all other railroads and private car companies have made slight decreases. The Omaha, Lincoln & Beatrice Interurban has increased in valuation within the city limits the small sum of \$5.

Following are the figures and comparisons with last year:

Table with 2 columns: Year (1910, 1911) and Value. Rows include Burlington, Rock Island, Missouri Pacific, Union Pacific, Northwestern, O. L. & B.

Totals \$609,462 \$596,514. The private car companies were assessed \$1,000 in 1910 and were increased this year to \$1,600.

Official Figures in Lancaster.

The County Canvassing board completed its labors today and for the first time since the primaries were held definite results on the Lancaster county democratic vote were made known with some degree of certainty.

The following is the democratic vote as cast on state officials in this county.

Table with 2 columns: Name and Vote. Rows include Supreme Judge, W. D. Oldham, W. L. Stark, J. W. West, John Eversen, J. R. Deard, J. L. Albert, For Railway Commissioner, G. S. Upham, W. J. Purse, B. M. Simms, C. E. Hartman, For Regents, C. T. Knapp, E. E. Miller, O. Kotouc, C. L. Anderson.

Case Men Appeal.

Louis Keiser and Isadore Sittman, sentenced to life imprisonment for murder in Cass county over a year ago of Mike Geno, have appealed to the supreme court for a new trial, alleging that they have been wrongfully convicted. A thirty-one page abstract of the record has just been filed in the higher tribunal for the perusal of the judges who are to pass upon the appeal.

Geno was employed in quarry near Louisville and was attacked by two men while on his way back to camp after having had his check cashed. Robbery was the motive. Geno was accompanied by George Sanders and one other person at the time, who were also beaten with clubs and robbed.

GILTNER REWARD IN COURTS

Possibility that Distribution of \$1,300 Offered May Grow Involved.

GRAND ISLAND, Neb., Aug. 23.—(Special.)—A controversy has arisen as to the bestowal of a reward of \$1,300 offered by the American Bankers' Protection association for the capture of the Giltner bank robbers, sentenced to the penitentiary yesterday after trial at Aurora. A statement in a news article in the Omaha papers that Sheriff Dunkel had made the capture somewhat emphasized the dispute. It is now denied that Chief of Police Arbogast baited and held the men as they escaped through the underbrush of the Platte valley, but there are nine other claimants of part of the reward on the theory that they chased the game from its hiding place and into the range of their associate hunter. The suggestion has been offered by one of the claimants that the facts be associated through an arbitration board of three citizens, and if this is not done it is probable that the matter will get into the courts before the association offering the reward will be sure of its ground.

Fairbury Police Raid Big Crap Game

Big Crowd in Watching Play and Several Swim River to Escape—Five Arrests Are Made.

FAIRBURY, Neb., Aug. 23.—(Special.)—The Fairbury police raided the scene south of the Little Blue river and scattered a crowd of sixty-five persons who were watching and participating in a crap game. For some time past these games have been going on at this point and Special Officer Cooper, together with several deputies, planned a raid on the place. They watched the crowd from ambush for some time before making a charge. Of the sixty-five who were indulging in the national game of the negro, only five have been apprehended, although the names of several others are known and warrants will probably be issued for their arrest. Just as the special officer and his deputies appeared on the scene there was a scattering and a number of the gamblers plunged into the river and swam across to the other side and took to the timber. A number left Fairbury on the first train.

The men arrested are John Fox, Harold Brunner, Bob and Perry Kinney and Elmer Copenhaver. A. H. Cherry and John Sturms are held as witnesses. The prisoners were taken up town and lodged in the city jail, but were later released on their own recognizances to appear in police court.

Gambling has been prevailing for some time near this place and considerable money has been exchanging hands. In fact, it is said that one of the gamblers made a win of \$15 just as Officer Cooper landed on the crap shooters.

Several months ago the Fairbury officers made a similar raid on a bunch of crap shooters on the Little Blue river and secured a number of the gamblers, and a negro by the name of Davis. He had 165 loaded dice on his person and in district court he was found guilty, and Judge L. M. Pemberton of Beatrice gave him a year in the penitentiary for the crime.

Five-Story Fireproof Structure Will Be Erected at Seventeenth and Harney Streets.

Plans for the five-story fireproof brick building which is to be erected on the corner of Seventeenth and Harney streets for the Thomas Realty company have been given to local contractors for bids. By Saturday all figures are expected to be in. It was announced some time ago that the lot on the corner of Harney and Seventeenth streets, the property of the Thomas Realty company, would soon be the site of a modern office building. The present plans call for a five-story building, but they are so made that if desired by the owners two or three additional stories may be added.

Concrete and steel will be used throughout, and when finished the building will be one of the most modern in Omaha.

The bottom floor will be occupied by several stores, four of which will be entered on the Harney street side. The elevator entrance will be on Harney street.

Cleveland to Take Three Rourke Men

Pick, DeMott and Williams Have Been Taken Over 'on Option' Agreements.

Announcement of the lists of players that the big league clubs have bought on their option agreements hits Omaha hard on three good men. Pick, DeMott and Gus Williams will go to Cleveland. Pick and DeMott were secured direct from here and Gus Williams, who was secured from St. Louis, was bought from that club by Cleveland.

Joe Lutz, Hall and Nishoff were purchased by Pa Rourke, however, and probably will make up the strong backbone for the formation of a team next spring. These three players have undoubtedly shown that they have good material in them and next year they should all be valuable wherever they play.

THIRTEEN MEETINGS BOOKED

In Three Months 200,000 Visitors Are Expected to Come to Omaha.

MUCH MONEY WILL BE SPENT Through Unceasing Efforts of Commercial Club There Has Been Much Activity in Convention Line This Year.

With thirteen conventions here during the next three months, four of which are meetings of national importance, over 200,000 visitors who will stay for at least two days each will be in Omaha, and local merchants and business men are looking forward to one of the best years for business in the last decade. Through the unceasing efforts of the Commercial club, which has spurred delegates to conventions elsewhere to boost for Omaha, there has been on the average of one convention a week in this city since the first of the year, and for the remainder of the year the average will be increased.

Among the conventions to be held here in the next three months the most important perhaps will be a meeting of the National Veterans' association, which will be held on September 1, 2, 3, 4 and 5, and will bring battle scarred veterans from all parts of the United States, Canada and Mexico. This association is formed of all Germans who are veterans of any war and its membership is over 10,000. Of this number at least one-half will attend the convention and will be accompanied by families and friends.

Postmasters and Bankers. On September 12, 13 and 14 both the State Federation of Labor and the National Association of First Class Postmasters will meet and these two conventions will on those days attract at least 1,000 persons. On September 18 and 19 the Nebraska Bankers' association will hold its convention and local bankers believe that the entire membership of 400 will come here. The 25th to the 28th, inclusive, will see nearly 300 photographers representing the State Photographers' association here for the most important session that body has ever held.

In October the most important meetings will be the Ak-Sar-Bon festivities and the Omaha Land show. This is an annual affair with which all Omahans are familiar and it brings farmers and agriculturists from all over the west to Omaha. The primary object is to further the interests of the west and exhibitions of the products of the west are shown, but at the same time vast numbers of persons come here and see Omaha and when they go away they hold the favorable impression of this city. It is impossible to estimate the number of persons who attend the Land show, but 100,000 is thought to be a low estimate.

Grain Inspectors Coming. The Nebraska Association of Grain Inspectors, the National Association of Grain Dealers, the American Prison association, the Nebraska Development association, the state convention of the Nebraska Blacksmiths and Wheelwrights and the Nebraska Abstractors' association are some of the organizations that will hold their meetings in Omaha in October, and in this one month alone there will be many thousands of people visit this city for a day or two.

In November there are only three conventions scheduled thus far, but Mr. Parrish of the publicity bureau says there are a number of organizations which will hold their meetings here this year that have not decided as yet upon the exact date, and some of these may decide upon dates in November to hold the meetings.

DASHING WIDOW IS CAPTURED

Woman Who Lured Men to Omaha Fleecing Them, Taken in St. Louis.

IS UNDER INDICTMENT HERE Postoffice Inspectors Laid Her for Defrauding by Use of Mails—She Has Operated in Many Different Towns.

Mrs. Jesse Halliday, who was indicted by the federal grand jury here in October, 1908, for using the United States mails in a scheme to defraud, was captured Tuesday in St. Louis, where she was working a similar game under the name of Mrs. Fannie K. Morton.

The offense for which Mrs. Halliday was indicted in Omaha occurred in January, February and March, 1908. She had offices in the Paxton block and inserted advertisements in papers all over the country stating that she was the sole owner and patent

holder for a vibrator to be used in complexion treatments; that she needed about \$300 to finance the manufacture of the machine. She was willing to take as a partner the person who would furnish that amount of money.

One of these advertisements appearing in a St. Paul (Minn.) publication, The Farmer, fell into the hands of Charles H. Webb of Glenbeulah, Wis., a wealthy farmer, who answered it and in response to a lengthy letter from the woman, came to Omaha.

Successors to Her Charms. Arrived here he succumbed to the charms of the widow, who is described in her letter to Webb as 22 years old, medium tall, a brunette and weighing 150 pounds. He proposed that they be married, which offer she accepted and secured an advance from him of \$20, he understanding that he was to become a partner in manufacturing the vibrators as well as a life partner.

When he had returned home, she quietly abandoned her offices in the Paxton block and stole away. Postoffice Inspector Frank Frayser, on Webb's complaint, set out to investigate her office and found it

avocated, and the walls lined with boxes containing bricks, which she had represented to contain vibrators.

The St. Louis game is easily recognizable as a worked-over edition of the one she used here. There she involved James K. Nemere, the Tulsa, Okl. oil man and secured \$250 from him. She pretended to be a dealer in brass goods and the boxes loaded with bricks figured there as they did here. Her advertisement in the St. Louis case, however, deliberately sought a husband.

According to the postoffice inspector, F. W. Reuter, who made the arrest in St. Louis, the woman has operated in Kansas City, Topeka, Memphis and a number of other cities. In several of which she is under indictment under various names.

A Daring Book On Advertising Secrets Never Before Put in Print. We have issued a book which tells, for the first time, the main reasons for our success. It is startling in its frankness, daring in its revelations, long considered too valuable to print. The ideas in the book came from a thousand sources. But we garnered and sifted and filed them. The ways in which we employ them will give you new respect for this Agency's efficiency. Part of the book deals with Strategy—the very climax of salesmanship-in-print. This is the science of doing, by clever maneuvers, what used to be done by sheer force of attack. National distribution is attained in a month. New products are made immediately profitable. Advertising is relieved of nearly all its uncertainties. How this is done is shown by what has been done—by cited examples—in this new book. The book also tells how we get information. Old-time advertisers merely guessed at what would lead people to buy. They learned trade conditions through costly mistakes. Now the wise reconnoiter. They make an actual canvass of dealers and users instead of depending on theory, guesswork and chance. Then they start their campaigns with a skirmish line—an experiment, perhaps. This book tells how men have won millions in this way, without any risk at all. It also shows how one may profit by other men's experience. Most selling ideas have been tested out. Most of our problems have been somewhere solved, most of the pitfalls discovered. What folly it is to grope in the dark when one may be guided by recorded facts. A thousand concerns have contributed to our storehouse of ideas. This book gives an insight to it. Any man with a selling problem is welcome to this book. And every such man should have it. The ideas it reveals are of wide application. They will better your qualifications. It will lead to better advertising. And better advertising always leads our way. Cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

A Reminder to write Lord & Thomas, Trade Building, Chicago, for their latest book, "Real Salesmanship-in-Print."
