CROP REPORTS ARE GATHERED

One Elevator Company Reports Lower Yield for This Year.

Eighty Per Cent Corn Crop

Oats Will Drop to Thirty-Two Per Cent and Corn May Not Reach Three-Fourths of a Normal Crop.

For some time the Omaha grain dealers have been seeking to get a line on crop conditions in Nebraska and Iowa. About the middle of August they sent a line of inquiries to grain dealers and elevator men in the two states, instructing the parties to whom inquiries were sent to place their own estimates on the yield of corn and oats in their immediate vicinity.

Among the first of the reports to be received have been by the Cavers Elevator company. A summary shows that an average of eighty reports covering the entire corn belt of Nebraska gives the estimate of the present growing crop of corn to be 75 per cent of the crop of 1910, and the yield of oats for 1911 to be 85 per cent of that of 1910.

On Nebraska ranges. In parts of Polk and York counties and at a few stations in the southern part of the state, also in a small territory on the Burlington west of Loup City and Ravenna these reports show the present corn crop to be equal to or better than 1910.

Except as heretofore noted the estimates of the growing crop in all Nebraska range from 60 to 75 per cent of the crop of 1910. The lower estimates include north-eastern Nebraska, which is the best corn territory in the state, therefore, the average of 75 per cent is thought to be high. To analyze these reports instead of taking an average indicates that the present crop is about 65 to 70 per cent of the crop of 1910. The average of twenty reports from Iowa which cover only the western part of the state from Council Bluffs north show that the yield of the growing crop of corn will be 85 per cent of the crop of 1910 and that the yield of oats in 1911 is 67 per cent of the crop of 1910.

SCHOOL ROOMS FUMIGATED

Annual Cleaning Up in Preparation for Opening of Schools Tuesday, September 5th.

Preparing for the school opening, which comes September 5, the Tuesday after Labor day, all the school buildings in the city are being cleaned and fumigated.

Scorching Driver Will Be Released

G. W. Rees Cannot Be Tried in Omaha, Accident Having Occurred in Iowa.

The case against G. W. Rees, who, by careless driving, crashed into a buggy on the Douglas street bridge Sunday night, will be dismissed in police court tomorrow. It having been learned by Prosecutor Dickenson that the accident occurred outside of the court's jurisdiction.

Rees was driving an automobile across the bridge at a terrific rate of speed and crashed into the buggy occupied by Icom Wright and Miss Edna Cooper. The buggy was completely demolished and the horse was so badly hurt that it had to be shot. Both Miss Cooper and Mr. Wright sustained injuries.

Upon investigation the prosecutor finds that the west bank of the Missouri is the Iowa boundary. The accident occurred within 100 feet of the east approach of the bridge, this point being within the state of Iowa.

Since Wright is held responsible by the Jones livery stable, it is likely that he will commence action against Rees in Council Bluffs.

Fourth Infantrymen March Upon Portal

Battalion Leaves Fort Crook for Practice March and Series of Field Exercises.

Companies E, F, G and H of the Fourth Infantry are just now engaged in a four days' practice march and series of field exercises. The four companies left Fort Crook at 6:30 o'clock Wednesday morning and marched to Portal, in Sarpy county, where they are at present encamped. So far the companies have acted independently, but Saturday morning all the company commanders are to report to Major Benjamin W. Anderson at Portal, at which time the troops will be formed into a battalion and make the return march to Fort Crook, a distance of about twelve miles.
