The past week has kept us busy unpacking the new fall clothes, and more are arriving daily.

The favorite this fall is to be the rather close fitting coat, with long soft roll collardistinctively an English model. They come in a variety of rich patterns which will be exclusive with Sampeck clothes.

You'll be just as welcome here if you're "just looking around," as though you purchase-it's a genuine pleasure to show such clothes as ours. Better drop in Saturday and look them over.

We still have a number of light and medium weight suits on which the prices are considerably reduced for immediate wear they're a mighty good investment.

Cabinet Outlining Nation's Position in Moroccan Affair.

IN NATURE OF AN ULTIMATUM

Both France and Germany Are Carrying on War Preparations, Doubtless as a Diplomatic

Maneuver.

PARIS, Aug. 25 .- A cabinet council was held today, when the course of the French negotiations with Germany over the Moroccan dispute were unanimously approved. as were the instructions to Jules Cambon. the French ambassador to Germany, as drawn up by M. De Selves, the minister of foreign affairs, and Ambassador Cambon, after long conferences, in which Premier Calllaux, M. Le Brun, the minister of colonies, and M. Cruppi, the minister of justice, participated.

The instructions to M. Cambon contain according to an earlier announcement, the maximum terms which France will offer to Germany in order to reach a settlement.

The council convened at 10 o'clock under the presidency of the premier, and immediately began a consideration of the instructions which had been submitted by President Failiers at Rambouillet yesterday by the premier.

The ministers entered the cabinet room at the ministry of the interior in a spirit of much gravity, for it had been feit throughout the week that the decision of the cabinet today would have a serious import for France

The session of the council lasted two and one-half hours a portion of the sitting being occupied with other matters. The council adjourned to meet on Au-

gust 31 at Rambouillet under the presidency of President Fallieres. Although the instructions cannot be regarded as suggesting an ultimatum, yet an important step has been taken toward a rupture or an accord, depending on how the German government receives the proposals. Both France and Germany are carrying

on war preparations and each power appears willing that the other should know it. Doubtless as a diplomatic maneuver there is a little rattling of the saber to show mutual earnestness.

Nevertheless in a time of tension such as considered by statesmanship. The word "war" is used more frequently this week in the conversation of serious Frenchmen than it has been used in any previous period since 1906.

Before leaving for San Francisco Vice President Kruttschnitt said he would meet the labor leaders at any western point which might be convenient.

Telegrams from local unions in Texas and points west of the Mississippi river requesting authority to strike were received by President Kline today and in every instance he wired that no action would be taken until at least one more conference had been held with the officials of the Harriman lines.

The conference may be held in San Francisco next Wednesday.

President Kline said: There is nothing new in the situation today. We insist that the railroads recognise our federated organization and there will be no back down from this position. More than 90 per cent of the shopmen are in favor of going on a strike unless this demand is granted. Nothing will be done officially until the labor representatives have had another conference with the Harriman lines officials. I am now trying to arrange for this meeting and expect it will be held some time next week.

SAN FRANCISCO, Aug. 15.-Between 600 and 700 men employed in the Harriman system shops here will vote tenight on the strike question. According to Ernest L Reguin, president of the Shop Employes federation of the Harriman lines, the sentiment of the local shopmen is strongly in favor of striking in the event of the refusal of recognition and he believes that the vote will show at least 90 per cent

favored walking out. None of the men employed in the local shops has been laid off, but daily hours have been reduced to eight and the wages reduced accordingly. A five-day week has been inaugurated.

The contention was made that the Seward took the view of Detectives Wiltshire and county company gave county service to Wrenn, who testified yesterday that blood subscribers entitled to have only city ser ing to talas by them. The charge for the residence telephone in the city was \$1 and for th business phone \$1.50. without further payment. Pertinent points in the ruling, which ! not to be construed as an order, are a

Under the blanket rate the commission has not been able to devise any plar whereby a telephone company can be protected from abuses of the privilege, consequently, we believe that the solution of this problem is that one exchange should be the unit of exchange service (until such time as all telephone service is placed or a measured basis), and that all other service should be covered by a toll charge which should be remunerative but not burdensome.

which should be remunerative but not burdensome.

Conditions are so varied and practices of giving added exchange free, are so prevalent in this state at the present time, that we believe an attempt to eliminate free service or the practice of giving added exchange service on a flat rate would a disorganize the telephone business as to almost create a chaotic condition. However, we believe it is to the interests of both the telephone companies and their patrons to gradually abandon such practices, and in the future, discourage the establishment of this service, thus making it possible for the commission to issue an order covering the same without injustice to patrons now using it.

CENTRAL CITY, Neb., Aug. 25.-An interesting suit has been started in the disseeks to recover property which he deeded here. away while a minor and for which he claims he received no consideration. Earl Larcom is the plaintiff, and through his attorneys, Patterson & Patterson, he brings suit to recover from Earl McHargue et al. title to a one-half interest in lots 6 and 7 of block 8 in the original town of Lone Tree. The allegation is that Henry Larcom formerly owned a half interest in this property. He died and the property descended to his son, Earl Larcom. When Earl was but 15, so the petition alleges, he was induced by his grandfather, William Larcom, to sign a quit claim deed for this property to Earl McHargue. Now Earl Larcom has become of age and he begins suit to recover either a one-half interest in this property or its cash equivalent, and also his share of the rentals and profits from the land since the time that he deeded it away. He claims that he was induced knowing what he was doing, and that he with it. received no consideration whatever. The ots in controversy are occupied by a house
