DOES YOUR BOY LIKE SCHOOL?

If not, something serious is the matter. The fault may be in neither how nor school, but in the fact that they do not suit each older. Don't let the lad drop out of school. If you do, the day will come when you will both regret it. Put him into a school where his special case will receive special attention. The Nebraska Military Academy is this kind of a school. If the boy failed in some of his studies last year, he can easily make them up; that's the advantage of our system of individual instruction. The fail term opens September 14. One of the most striking numbers from the first great American opera.

This odd Dagger Dance, like other characteristic numbers in the opera, is based on Indian melodies which Victor Herbert has been collecting for years.

Its weird melody is most entrancing and its rendition here by Victor Herbert's Orchestra under his own personal direction gives you a perfect interpretation of the work.
