ATTACKS PAUL'S VERACITY

Beattie Defense Attempts to Break Story of Defendant's Cousin.

WITNESS SAW HIM WITH GUN

Says It Was Day After He Says He Delivered the Weapon to Henry Clay Beattie—Pawnee Broker's Son on the Stand.

CHESTERFIELD COURT HOUSE, Va., Aug. 31.—Continued attacks on the veracity of Paul Beattie as to his story of the purchase of a shotgun for his cousin, Henry Clay Beattie, Jr., brought out at the trial today a statement from E. H. Nebitt that he saw Paul with a shotgun a day after he claimed to have delivered the weapon to Henry. On cross-examination Nebitt said that he had only yesterday given this information to counsel for the defense.

"Did you tell anyone else about it?" "Not until a few days ago, when I told my wife and J. G. Saunders."

"Why didn't you tell it before?" asked Mr. Wendenburg.

"I didn't think it was of much importance until Paul Beattie denied it on the stand."

"But did you not tell Mr. Smith yesterday morning, and did not Mr. Smith base his question, told of in the paper, on information you gave him?"

"Yes."

"The witness was excused and several other character witnesses entered to tell of Henry Clay Beattie, Jr.'s good reputation in his community."

Pawnee Broker's Son Testifies.
David Weinstein, son of the pawnbroker from whom Paul Beattie purchased the shotgun, was the first witness for the defense today.

"The commonwealth knew you were the boy who sold the gun to Paul Beattie," asked Harry M. Smith, Jr., counsel for the defense.

"Yes."

"You were not summoned by the prosecution?"

"No."

"Paul Beattie testified that you took the gun apart into three pieces and wrapped it up in paper and put his name on it. What do you say about it?"

"I did not take it apart. It was an old fashioned gun and I did not know how."

"The gun was produced at this point."

"What time of day," continued Mr. Smith, "did you sell the gun to Paul Beattie?"

"Saturday morning between 10 and 12."

"When you sold the gun to Paul Beattie did he say he was a watchman and wanted the gun to be used on Mayo's bridge, where he worked?"

"He did."

"Did you know Paul Beattie before that Saturday?"

"Yes; a little more than a week."

"How did you become acquainted with him?"

"He worked for Mr. Stiegler, near by, and came in one day to buy a pistol. I told him we did not have any."

Paul Beattie had previously testified that the only time he had entered the pawnshop before was to borrow a dollar and got it. The witness denied having loaned him a dollar and added that Paul had been in the pawnshop four or five times.

Nebraska Farmer Says Was Fleeced Out of His Farm

Custer County Man Gives Affidavit Stranger Deed to Six Hundred and Forty Acres of Land.

KANSAS CITY, Aug. 31.—Zettie King of Custer county, Nebraska, reported to the free legal aid bureau here today that an affable stranger had fleeced him out of his 640 acres of land near Broken Bow, Neb.

"The next fellow I trade farms with 't'ight and unseen' will have to have hair longer than a railroad tie," said King.

According to King's story the stranger who visited him at his farm in Nebraska traded him fifty-five acres of land near Linn Creek, Missouri. King gave the stranger a deed to his Nebraska property and visited the Missouri farm, only to learn that it belonged to a fake bank and that the deed the stranger gave him was worthless.

King can neither read nor write and the legal aid bureau is investigating his story.

Mr. Tapnell has kept pretty close watch of the labor troubles that are involving some of the roads, and while he had nothing to say relative to a strike of shopmen on the Harriman system, he felt certain that the Pennsylvania lines would not have any trouble.

(From a Staff Correspondent.)
DES MOINES, Ia., Aug. 31.—(Special Telegram.)—Special dispatches from Dexter, Ia., just west of Des Moines, this afternoon tell of an explosion of gas that totally wrecked the new \$12,000 plant of the Dexter gas company, and the probable fatal burning of Charles Hanson, manager of the plant. A. B. Meyers, foreman, was frightfully scalded, but succeeded in dragging the unconscious form of Hanson from the burning building. The cause of the fire is unknown.

KAMARA, Ia., Aug. 31.—Two elders of the Mormon church left this city about today with the din of many dishpans echoing in their ears.

The elders were making proselyting speeches last night when a crowd of women, beating vigorously on kitchen tinware, created such a pandemonium that the speakers could not be heard. Mormon sympathizers sought to repel the assault by throwing water on the women, but at this point husbands and brothers took a hand and after lively fistfights the meeting was broken up.

A few members of the dishpan brigade were out again today beating quickstep time to the departure of the missionaries.

Roosevelt Attacks Proposed Charter for New York City

NEW YORK, Aug. 31.—The proposed new charter for New York City, especially that part which increases the powers of the mayor, is attacked by Theodore Roosevelt in an editorial published today in the Outlook.

"The methods of imposing a charter," says Colonel Roosevelt, "upon people of New York—it would be rank absurdity to speak of the process as granting a charter to the people of New York—by those in power at Albany (unfortunately the events of the last session have made most men feel that this is a process of a kind of saying those in control of Tammany) give an almost ideal illustration of how not to act in the matter of self-government."

The former president objects particularly to the provision for increasing the mayor's authority over the finance and educational system of the city and to taking away the governor's power to remove the mayor upon charges. He also finds fault with what he terms "The method of thrusting the charter upon the city," and contrasts these methods with the wide agitation and publicity that attended the adoption of a constitution by Arizona and New Mexico, which "contain together not much more than one-tenth of the population of New York."

She told of his having a bottle of medicine and one was found in the pockets, known to be his. The body was buried where found.

LOGAN, Ia., Aug. 31.—(Special Telegram.)—The body found in the Missouri river near Modale, Ia., last night has been identified by Officers William and Rock as that of Charles Parslow, one of the slayers of Marshal George Butcher of Missouri Valley. The body of Parslow's brother, also wanted for murder, was found in the river near Omaha a few days ago. Both are believed to have lost their lives while trying to escape from a posse.

RAIN STORM IN PHILADELPHIA

Nine Inches of Rain in Quaker City Within a Week.

ALL SEWERS ARE OVERFLOWED

Train Service to Points South Delayed and Wire Communication is Interrupted—Seventeen Dead at Charleston.

PHILADELPHIA, Pa., Aug. 31.—Philadelphia and vicinity are being swept by one of the heaviest rain storms in recent years. From 6:35 o'clock Wednesday night, August 23, until noon today the total precipitation has amounted to 9.08 inches. The downpour continues and the record of twenty-nine years ago probably will be equalled.

The Schuylkill river and other streams in this vicinity are rising rapidly. Sewers in all parts of Philadelphia were overflowed and considerable damage was done by the consequent flooding of cellars. Train service between here and the south was crippled and telegraph and telephone wires were torn down by the falling water. Several washouts occurred on the line of the Baltimore & Ohio railroad between here and Wilmington and trains on that road were transferred around the danger points by way of the Philadelphia, Baltimore & Washington railroad.

Seventeen Dead at Charleston.
CHARLESTON, S. C., Aug. 31.—Mayor Rhett is directing the work of rehabilitation.

ing storm-swept Charleston. A campaign of repairing and disinfecting is on. Today the death list was seventeen and the property damage estimate remains at \$1,000,000. Reports from exposed islands are that only two lives were lost. The victims were caught on James island. The property damage is heavy. It is said by planters that long staple cotton and rice have been almost wiped out. Houses have been wrecked and cattle and live stock killed. First reports of damage at the Isle of Palms, a resort directly on the ocean, nine miles from here, were exaggerated. Buildings were not as badly damaged as believed. Normal conditions are being rapidly restored.
