### Told by the Troubled Tourist

No, I will not take a pertion of brolle bluefish. I'll take a half portion of ham and eggs, for I've had all the fish I want for a year." declared the Troubled Tourist rusfully.

"I thought my touring in and around your fair city would not be complete until I had gone out to get some real deep sea Mahing. Or, rather, I was led into going out for some deep sea fishing. Some good friends of mine persuaded me it was the only thing to do, and in a weak moment I yielded.

"In order to thoroughly prepare for the trip I went downtown and bought a complate suit of oilskins and seventeen different kinds of tackle that I couldn't possibly have any use for. You see. I had only been a creek fisherman back home and I hadn't tried at this deep sea game. "They got me up at 4 o'clock in the morning and started me out without any breakfast. ## Men Who Helped to Make America

When De Witt Clinton's foresight and enterprise resulted in the building of the Erie canal, he helped to build up American commerce by connecting the Great Lakes with the ocean by way of Buffalo, Albany and New York.

"It was a piece of statesmanship." said Herbert Quick, "that waxes greater and greater as we contemplate it in the light of its accomplished results." De Witt Clinton was born at Little Brit-

ain, N. Y., March 2, 1769. Owing to an accident which shattered his leg, he was an invalid during his final years and died rather suddenly February 11, 1828.

He was educated first by a Presbyterian clergyman in his native village, afterward at Kingston academy and at Columbia college, where he was the first matriculated student after the rehabilitation of what

Timing and Measuring

In boiling chicken, fifteen minutes should be allowed to the pound. Broiled chicken requires fifteen to twenty minutes. Twenty minutes is required to boil properly spaghetti or macaroni. A good average time to allow for baking a loaf cake is an hour to an hour and a half, according to size.
