See It Bake Saturday

The President of the National Bakers' association in a speech at their last convention made the statement that house wives were committing murder when they did their own baking for their families. He said the bread they baked was soggy and unhealthy. Soggy and unhealthy bread is due to poor baking stoves and ranges. Saturday, Sept. 9th, between 2:30 and 5 o'clock in the afternoon and 8 and 10 o'clock in the evening we will give a baking demonstration on the Samson Steel Range to prove to Omaha people that if they buy a Samson they will have no soggy and unhealthy bread. We will bake great big, Nebraska corn fed, the Nebraska size and kind of biscuits, the kind that is hard to bake and can only be baked in a first class baking apparatus, and bake them through and through and done. We will serve coffee with them. Ladies, when down town, fatigued and tired from shopping are invited to call, have a biscuit and cup of coffee and rest up.

We are going to sell the Samson on small monthly payments or a out price for cash. If you pay two or more payments down, ten percent will be added to your first payment.
