

Sampeck English Models are Correct

The time-honored baggy coats and peg-top trousers have been left in the back ground—the new English soft roll with natural shoulders dominates the field.

This radically different young men's model lends an aggressive, thoroughbred personality to a fellow which baggy clothes have hidden.

Some striking new mixtures too, brown, gray and blue, also clear finished, true blue serges and unfinished worsteds.

THE YOUNG PEOPLE
BINSON & THORNE CO.
1518-1520 FARNAM STREET

ambulances were summoned. Undertakers, who had received reports that several men had been killed, sent their covered vans to the scene. Farnam street had the appearance of a battle ground.

Dies in Few Minutes

The first man to be taken from the mass of iron was Mr. Kirkpatrick. He still was living. He was rushed to the Omaha General hospital, where three physicians worked over him, but he died a few minutes after being put on the operating table. Clarence Mohr was the next man to be taken out. He was sent to St. Joseph's hospital, under the care of Assistant Police Surgeon Hartz, who operated. In all probability he will live. The other men as soon as they were taken from the pit were rushed to the Omaha General hospital, where awaiting doctors took them in hand and dressed the wounds. It was reported at the hospitals that all the injured men have good chances for recovery.

The accident last night was the first on the new building. The breaking of the derrick stopped all work in the pit and very little work will be done until a new boom and crane can be secured. The body of Mr. Kirkpatrick was taken to the coroner's office. It is probable an inquest will be held some time today. Several witnesses were seen last night and will be used if an inquest is held. At a late hour last night no word had been received in answers to queries sent to Kirkpatrick's relatives.

TELEGRAPH MEN IN SESSION

Laws Regulating the Employment of Women and Children Are Considered.

CINCINNATI, O., Sept. 8.—Managers of forty offices of the Western Union Telegraph company, between Pittsburgh and Chicago and Toledo and Cincinnati, will meet in this city today and tomorrow to discuss matters of mutual interest. Addresses will be made by District Traffic Manager W. J. Lloyd and District Commercial Superintendent M. T. Cook of Chicago and District Superintendent I. N. Miller and District Traffic Manager A. A. Montgomery of this city. Among other matters the managers will consider laws regulating the employment of women and children.

Omaha Woman to Marry. CHICAGO, Sept. 8.—(Special Telegram.)—Warren L. Sweet of Chicago was licensed here today to marry Hilda A. Knowles of Omaha.

For the Fall Wedding

You can give nothing more appropriate than splendid silver. It is beautiful and remains so for generations—certainly a practical side to consider. There is such a wealth of items to select from at the Edholm store that individual gifts are quickly chosen, or a group of donors may unite in selecting a more pretentious present. Tea sets, coffee sets, bonbons and fruit dishes, trays, knives, forks, spoons, in sets or chests, fancy pieces, etc.—and in all the poetry of the beautiful and the plain prose of economy merge, giving buyers here the largest return for their money, both in beauty and quality. The prices are as low as any for the same quality.

SEPTEMBER CROP REPORT OUT

Government Figures Showing Condition and Yield.

SOME ESTIMATES ON THE TOTAL

Corn and Wheat Below Ten-Year Average—Oats Turn Out Quite Poorly—Outlook for Potatoes Is Not Good.

WASHINGTON, Sept. 8.—The September crop report of the United States Department of Agriculture, reporting board, issued at 2:15 p. m. today, shows the condition on September 1 and the yield per acre, as indicated by the condition on that date, of the principal farm crops of the country, and the preliminary estimate of the total yield of hay, as follows:

Corn—Condition, 73.3 per cent of a normal, compared with 68.8 per cent on August 1, 73.2 per cent on September 1, 1910, and 73.3 per cent of the ten-year September 1 average. Indicated yield per acre, 23.5 bushels, compared with 22.4 bushels, the 1910 final yield, and 21.1 bushels, the average for the past five years.

Spring Wheat—Condition, 67.1 per cent of a normal at time of harvest, compared with 58.8 per cent on August 1, 61.1 per cent at the time of harvest last year and 73.7 per cent at a time of harvest for the last ten years. Indicated yield per acre was 33 bushels, compared with 31.7 bushels, the 1910 final yield, and 33.5 bushels, the average for the last five years.

Wheat Below Average. All Wheat—Indicated yield per acre, 12.6 bushels, compared with 14.1 bushels, the 1910 final yield, and 14.7, the average yield for the last five years.

Oats—Condition, 61.5 per cent of a normal at time of harvest, compared with 67.7 per cent on August 1, 63.5 per cent at time of harvest in 1910 and 79.5 per cent, the ten-year average. Indicated yield per acre, 23.9 bushels, compared with 21.9 bushels in 1910 and 23.4 bushels, the average yield for the last five years.

Barley—Condition, 65.6 per cent of a normal at time of harvest, compared with 65.2 per cent on August 1, 69.3 per cent at time of harvest in 1910 and 88 per cent, the ten-year average. Indicated yield per acre, 30.3 bushels, compared with 24.4 bushels, the 1910 final yield, and 24.8 bushels, the average yield for the last five years.

Potatoes—Condition, 48.8 per cent of a normal, compared with 52.9 per cent on August 1, 52.3 per cent in 1910 and 57.1 per cent, the ten-year average. Indicated yield per acre, 19.6 bushels, compared with 20.9 bushels, the 1910 final yield, and 19.6 bushels, the average yield for the last five years.

Buckwheat—Condition, 55.3 per cent of a normal, compared with 62.3 per cent on August 1, 70.5 per cent in 1910, and 78.9 per cent, the ten-year average. Indicated yield per acre, 7.1 bushels, compared with 8.4 bushels, the 1910 final yield, and 8.4 bushels, the average yield for the last five years.

Tobacco—Condition, 71.1 per cent of a normal, compared with 68.0 per cent on August 1, 77.7 per cent in 1910 and 82.3 per cent, the ten-year average. Indicated yield per acre, 12.5 bushels, compared with 12.5 bushels, the 1910 final yield, and 12.5 bushels, the average yield for the last five years.

Flax—Condition, 68.4 per cent of a normal, compared with 71.0 per cent on August 1, 83.3 per cent in 1910, and 81.8 per cent, the ten-year average. Indicated yield per acre, 12.5 bushels, compared with 12.5 bushels, the 1910 final yield, and 12.5 bushels, the average yield for the last five years.

Rice—Condition, 87.2 per cent of a normal, compared with 88.3 per cent on August 1, 88.3 per cent in 1910, and 88.3 per cent, the ten-year average. Indicated yield per acre, 22.1 bushels, compared with 22.1 bushels, the 1910 final yield, and 22.1 bushels, the average yield for the last five years.

Hay—Preliminary returns indicate a total hay yield of 46,900,000 tons, as compared with 46,975,000 tons finally estimated last year, and 45,975,000 tons, the average annual production in the last five years. The preliminary estimated yield per acre is about 1.5 tons, compared with 1.3 tons, the 1910 final yield, and 1.4 tons, the average yield for the last five years.

The quality is 90.3 per cent, compared with 92.5 per cent last year and a ten-year average of 91.1 per cent.

Apples—Condition 62.3 per cent of a normal, compared with 63.9 per cent on August 1, 64.8 per cent in 1910, and 62.6 per cent, the ten-year average.

This Year and Last. The total production of the principal crops this year, as indicated by their condition on September 1, with comparison of the final yield of 1910 follows:

Crop	1911	1910
Corn, bu.	2,726,100,000	2,125,718,000
Spring wheat, bu.	30,415,000	21,290,000
All wheat, bu.	68,732,400	68,432,000
Oats, bu.	842,473,000	1,128,765,000
Barley, bu.	143,871,400	102,277,000
Buckwheat, bu.	15,559,000	17,225,000
Potatoes, bu.	225,220,000	338,611,000
Tobacco, lb.	62,000,000	62,000,000
Flax, bu.	23,800,100	14,116,000
Rice, bu.	22,632,970	24,510,000
Hay, tons.	46,900,000	45,975,000

ALL CROPS SHOW A FALLING OFF

Greatest Decrease in Yield Per Acre Is in Oats.

WASHINGTON, Sept. 8.—While the weather conditions practically throughout the country were favorable to growing crops during August, the crop report issued today by the Department of Agriculture did not indicate generally much improvement in the condition of the crops over that of a month ago.

Some improvement was shown in the corn crop, but it only amounted to 1.9 of 1 per cent in the aggregate. The yield of corn per acre this year, as indicated by today's report, will be 23.5 bushels per acre, as compared with 22.4 bushels last year and an average of 21.1 bushels in the last five years. The acreage of corn this year, however, is larger than it was last year, and the probability is that the crop, while it may be shorter than it was last year, will not differ greatly in quantity.

Wheat shows a falling off of approximately 10 per cent in condition, as compared with the average for the last ten years, and the yield per acre is about two bushels to the acre less than the average during the last five years.

Oats also shows a falling off, both in condition and in average yield per acre. While the indicated yield for this year is 23.9 bushels per acre, the final yield for 1910 was 21.9 bushels, and the average yield during the last five years, 23.4 bushels, the indicated total yield for this year being approximately 15 per cent less than the average for the last five years.

Rice, flax and hay all show a heavy falling off in condition of potatoes today was a trifle more than 10 per cent below that of last year and nearly 3 per cent less than it was a month ago. The total yield will be far below that of last year, practically 30 per cent, and nearly 22 per cent below that of the average for the last five years.

Value of Race Horse Goes Down a Peg. Animals Once Worth a Fortune Put Up at Auction and Fetch Only a Few Hundred.

NEW YORK, Sept. 8.—The race horse is not so valuable an asset here as it was in the days when the Metropolitan tracks were running and anti-betting laws were not in force at the race courses. Judging from the developments at the Sheephead Bay track, when Sam Hildreth endeavored to auction off his string of good campaigners.

Four horses were knocked down at what Hildreth declares were "miserable sums" and he ended the sale forthwith and announced that he would take the stable to England and there dispose of it. The animals sold today and the prices they brought are: Pegasus, \$2,500; Hampton Court, \$2,400; Royal Meteor, \$1,500; and Restigouche, \$1,000. Among those withdrawn from the block were Fitzherbert, King James, Novelty, Montgomery, Joe Madden, Firestone, Diana, Ken and Zeus. Hildreth was almost tearful as he saw horses bid in for prices that might have been doubled or even tripled were the race tracks flying their banners as of yore and the courses not grass grown and unharmed. He was not alone in his sadness, for near the auction block there stood such men as Bill Dwyer, Jack McGinnis, Dave Gideon, Whitley Langdon and Jimmy McLaughlin, who in the heyday of the sport shouted themselves hoarse in boosting bids for good horses. All looked on intently, but never permitted their hands to stray to their pockets where the bank rolls were kept.

Woman Mayor Gets Some Legal Advice. Chief Executive of Hunnewell Mum as an Oyster About What She Proposes to Do.

HUNNEWELL, Kan., Sept. 8.—"My present duty is to keep a secret, and though a woman, I shall keep it." This was the reply made by Mrs. Ella Wilson, mayor, made upon her arrival here today to all questions concerning the result of her conference in Kansas City, Kan., yesterday with Governor Robb, to restore peace between the woman executive and her obdurate council of men.

So Hunnewell, for months without an effective government, now awaits the meeting of the council next Monday, when the secret is expected to come out. From Mayor Wilson's constant manner it is believed the question of dealing with the rebellious council will be solved at that meeting.

Wabash Train Crashes Through the Bridge

Fourteen Persons Are Injured, Three Seriously, When Cars Go Into the Creek.

PINCKNEYVILLE, Ill., Sept. 7.—Fourteen persons were injured tonight when a Wabash, Chester & Western local passenger train broke through a trestle near Pinckneyville and plunged into a creek. Spreading rails were responsible for the accident. Those seriously injured are: Conductor W. T. Adams, internally; Sheriff Duncan of Tamaroa, Ill., hurt internally; Pettit of Villa Grove, Ill., body and head injured.

The train was running thirty miles an hour when the trucks of a car loaded with passengers and baggage coaches left the track, which, with the weight of three cars behind, caused the trestle to collapse, plunging four cars into the creek.

FLOODS IN CHINA SUBSIDING. Death List Larger and Crops in Some of the Provinces Are Badly Damaged.

HANKOW, China, Sept. 8.—The floods resulting from the Yang-Tze river overflowing its banks, which transformed hundreds of miles of the Yang-Tze valley into an enormous lake and caused a great loss of life, are gradually subsiding.

In accordance with the heavy death list thousands of natives have been made homeless and destitute. The rice crop in the provinces of Hupeh and Hunan probably will be an average one, but other cereals have suffered heavily. The rice fields in Kiang Sui, an upper province watered by the Yang-Tze river, is of an exceptionally poor quality.

SEVERE STORM AT INDIANOLA. Anti-Saloon League Sends Petition to Taft Protesting Against Secretary Wilson Presiding at Brewers' Congress.

(From a Staff Correspondent.) DES MOINES, Ia., Sept. 8.—(Special Telegram.)—Record breaking for divorces is promised in district court at the next term. A total of 138 petitions for divorces has been filed with the clerk, about evenly divided between men and women and all manner of reasons are assigned. The courts report that the number of divorces asked for is steadily increasing here every year.

Storm Scene True to Life. A remarkable coincidence is reported from Indianola where the Henry band of this city was playing at the county fair. In the midst of the presentation of the storm scene from the William Tell overture a storm came up and the band stand was struck by lightning. Several of the men were thrown from their chairs and the concert was broken up, but no person was seriously hurt.

Protest Sent to Taft. At the session of the Iowa conference at Fairfield a resolution introduced by C. S. Cooper of the Anti-Saloon league, was adopted, strongly protesting against the fact that Secretary Wilson is to preside at the National Brewers' congress. A copy of the resolution was ordered sent to President Taft.

Resume the Prison Probe. Attorney General Cason went to Fort Madison this afternoon to resume the probe into the affairs at the state prison caused by sensational newspaper attacks on the state administration. He will be joined there by Judge Roberts and Mayor Sheldon and the work of taking testimony will be commenced. It is expected that several weeks will be taken in the whole investigation.

Need a Prison Photographer. Warden Sanders of the Fort Madison prison, who was here today in consultation with members of the Board of Control, is looking for a prison photographer. The release from prison of Frank Novak, who had been official photographer for many years, left the prison entirely without any inmate capable of taking photographs of the new arrivals.

Will Not Accept Decision. The street car employees today gave answer to the management and declared that they will not accept as final and definite the decision of the management as to the discharge of certain of the conductors. The union committee announces that the evidence is not conclusive as to the guilt of the men in disobeying orders and that the union will demand their reinstatement. This means another controversy over the whole matter, as the management cannot very well back down now. Whether it will result in a strike will depend largely upon the attitude of the business interests of the city.

Tipicanees Club Banquets. The Iowa Tipicanees club held its banquet this evening in the First Methodist Episcopal church and invited a number of leading residents of the city to discuss political questions. Among them were Senator Cummins, Congressman Prouty, ex-Senator Young and Sidney Foster, secretary of an insurance company. Congressman Prouty spoke at length on the southern influence in congress and aroused much enthusiasm by pointing out how essential it was to maintain the supremacy of northern ideas in national affairs.

State Suffrage Convention. Mrs. Harriet Towner of Corning, as president of the Iowa Equal Suffrage association, has issued a call for the convention of that body at Perry, October 10. The program has not yet been prepared.

CELLAR DOOR IS A DEATH TRAP FOR MRS. L. J. ALLEN. Steps Back Through Hole in the Kitchen Floor and Her Skull Is Fractured.

IDA GROVE, Ia., Sept. 8.—(Special.)—Mrs. L. J. Allen was killed by stepping backwards in the kitchen and falling down an open trap door in the floor. She was at the home of her son, Arthur, and was helping prepare dinner. He opened the trap and went into the cellar and she did not notice it, stepping back a few moments later to fall to her death. Her skull was fractured at the base of the brain. She was the mother of ten children, all of whom, with her husband, survive her.

Sure the Saloon Keeper. IDA GROVE, Ia., Sept. 8.—(Special.)—Mrs. William Kaus of Holstein, whose husband had his back broken in an automobile accident July 13, has sued Peter Arp and Robert Dahms, Holstein saloon keepers, for \$25,000 damages. The American Surety company is also made a party to the suit. Kaus, who is still alive, is kept on a water mattress. Mrs. Kaus does not claim the saloon men sold her husband liquor, but says they sold liquor to William Tams, and that Tams as a result became drunk and brought about the accident.

Fire at Tabor. TABOR, Ia., Sept. 8.—(Special.)—Fire broke out yesterday in the attic of the D. M. Williams residence and destroyed all but the first floor and basement. A piano and most of the household goods were removed from the burning house, but the contents of the second story and attic were consumed by the flames. The loss is about \$4,000 and insurance \$3,000.

Your New Fall Suit

"How Will You Have It"

Select a garment of chance, or come to this store where style, fit, fabric, workmanship and price are guaranteed. Hosts of such worthy Fall Suits are now awaiting your approval.

Do you know what makes Browning, King & Co.'s "Good Clothes" keep their "snap" and shape so well?

IT'S THIS—

Every suit we sell must be pre-shrunk in the cloth—it takes all the pucker tendency out of them.

Happen out on a wet day with one of our suits on—no harm done. That's just the point—why your Fall Suit should bear the B. K. & Co. label.

Our Fall Suits for young men have a fetching attractiveness that gives youthful flavor to the wearer. Our men's suits convey the proper dignity. In either case, we free you from that feeling of commonness. It's provoking to meet yourself at every corner.

Browning, King & Co. manufacture their own clothing. They pay special attention to the little details—the very things that are so grossly neglected by the ordinary manufacturer. We're particular—but we find it pays. We suit men of all ages—fit men of all sizes, and at a saving that is pleasing.

Suits at

\$15, \$18, \$20, \$22.50, \$25, \$28, \$30, \$32.50, \$35, \$40

Browning, King & Co.

304-306 South 16th St. Five Steps South of Farnam

Booklovers' Third Prize

The accompanying illustration tells only of the outside of this magnificent KRELL AUTO-GRAND PIANO. It tells not of the vast excellence that lies beneath its magnificent, fancy walnut case. Well informed piano men are insistent in the claim that the Krell Auto-Grand is positively the most complete and efficient player-piano offered to the music-loving public.

The mediating pedals and the mechanism to carry the tune above the accompaniment are marvels of simplicity. The Krell Auto-Grand claims to have in the absolute, the "human touch" so prized by player-piano makers. From the inside to the case, from the pedals to the levers, this magnificent 1900 player-piano may be examined with every facility at the piano warehouses on the third floor of the big
