PAY MORE THAN CONTRACT

Lynch Accuses County Hospital Authorities of Paying Too Much.

HE MAKES SPECIFIC CHARGES

O'Connor Says He is Able to Make a Complete Explanation as Soon as the Time Comes—Bill Not O. K.

Purchasing provisions for the county hospital at prices above contract prices and from dealers other than those with whom the county has contracts are still keeping expenses of the hospital far above what they should be, according to County Commissioner John C. Lynch, who for the second time raised the question of tax management of the hospital at a committee meeting of the commissioners Friday afternoon.
The commissioner demanded that the hospital be put on a business basis and that Commissioner Thomas O'Connor, chairman of the hospital committee, and Thomas McClenaghan, superintendent of the hospital, be compelled to work to that end.
Specific charges made by Commissioner Lynch were as follows:
"Eric T. Johnson is under contract to furnish the county aprons at \$12 per 100 pounds. The county hospital bought some of him at that price, but when the market went up and he wouldn't have made much on the aprons for the hospital were bought of Weinstein & Greenberg at \$15 per 100 pounds.
"Johnson has got a contract to sell us beans at 4 cents a pound, but I see by the records of purchases for the hospital that we have paid Weinstein & Greenberg 4 1/2 cents a pound for beans.
"Weinstein & Greenberg are under contract to sell us cheese at 14 1/2 cents. We have bought cheese for the hospital from Johnson at 15 cents.
"Worse than any of these is a fig deal. Weinstein & Greenberg have a contract to sell us twenty-pound boxes of figs at 26 cents a box. Instead of buying them like that we have at times paid Johnson \$1 for five pounds. We have paid 5 cents more for five pounds than we would have had to pay for five times as much if we had bought from the contractors."
Commissioner O'Connor declared that whenever goods have been purchased from persons other than the contractors there has been good reason. He said he will give full explanation.
Commissioner Lynch went on to show that the board's order that the cook at the hospital, O. K. the provision bills has been ignored. "The O. K. is on the Weinstein & Greenberg bills, but it is not on the others," he said. "I want to know if an order from this board is to be obeyed or treated as a joke."
By figures from the county records Mr. Lynch showed that in March, April, May, June and July smoking and chewing tobacco for inmates of the county hospital had cost \$14, while for the corresponding months of last year the bills totaled \$22.

MORE ARRESTS WILL FOLLOW

Barbers Expect to Engage in Lively Maneuvers Next Sunday.

FIVE COMPLAINTS ARE FILED

Organizer Declares that Streets Will Be Patrolled and that the Fight Will Be Carried on for Indefinite Period.

With complaints filed in police court against five barbers accused of violating the Sunday closing ordinance matters are shaping up for more lively maneuvering Sunday between the masters and the journeymen, headed by C. M. Feider.
The latest complaints have been filed against the following: F. Abbeard, Thirteenth and Farnam streets; Rock Romano, Thirteenth and Douglas streets; Louis Rentrow, Windsor hotel; George Bundy, Tenth and Jackson streets; Harry Faggins, Tenth and Jackson streets. The five men were arraigned in police court and took a continuance until next week. No definite time was set.
Organizer Feider intimates that Sunday will be a lively day with him and his lieutenants. Says he: "I am going to continue my vigilance and will cause the arrest of every man who violates the ordinance Sunday and who receives pay for his work."
"The defendants now held for hearing

BOOST "OMAHA MADE GOODS" Aged Man Expires Among Strangers

Manager Gillan of Auditorium Tells Manufacturers of Milwaukee Plan.

MAY TRY THE IDEA IN OMAHA

Manufacturers' Committee Considers the Proposition of Holding a Similar Exposition in This City.
"I just returned from Milwaukee, where I went to attend the Milwaukee Merchants and Manufacturers' Fifty-first Anniversary exposition," said J. M. Gillan, manager of the Auditorium. "A big business committee at the Commercial club, and after seeing how successful it was and how much interest it created in Milwaukee made goods, I was struck with the idea that Omaha could do as well as Milwaukee and advertise its products in the same manner."
"The Milwaukee exposition started on September 2 and lasts until September 12, and before the third day all the expense incurred by the manufacturers and merchants during the entire ten days was more than paid by the admission fees alone. The exposition was held in the Auditorium building, which covers a square block and over 500 merchants and manufacturers had exhibits of goods made in Milwaukee only. People from all over came to Milwaukee to see, and on Labor day approximately 7,000 persons paid 5 cents each."
"The exhibits were not confined to machinery alone, for scores of booths had representations of the process of making brass, tanning leather, making pianos, brewing, etc., and all of this proved of such tremendous interest that expensive entertainment features, which generally help make a thing of this kind a success, were almost dispensed with. Only three orchestras were used during the time I was there, and the press all through Minnesota, Wisconsin, Illinois and parts of Canada was telling of the crowds that came to see 'Milwaukee made goods.'"
"My idea is to have an exposition of this sort for Omaha, and I think that with the co-operation of the press, the Commercial club and the various commercial organizations, Omaha made goods will receive just as much advertising as those made in Milwaukee did by the exposition."
"Among some of the features of the industrial exposition was manual training and domestic science. School children were transferred, desks, tools and all, and with their teachers, went on with their work before the eyes of thousands of visitors. Another thing that created much interest was the fact that the Retail Merchants' association gave away thirty expensive prizes, each night, and this helped boost the attendance immensely. Numbered tickets were given with each admission, and when the show was half over, certain numbers comparing with the numbers held by those who received them at the gate were good for prizes from pianos to sets of harness and household goods."
Sits Down on Railroad Track.
DANVILLE, Ill., Sept. 7.—Albert Vico, 13 years old, son of William Vico of Decatur, Ill., today sat down on the track of the Chicago & Eastern Illinois railroad near Indianapolis and was struck to pieces by a passenger train.

RIGHT MEN ON WRONG TRAIN

Hustling Advertising Men Ride Into the Wrong State Instead of to Omaha.

Two young men of Des Moines, who had been making a business call upon Fairbury, lost a valuable ten hours the other day because they got on a train without asking the conductor where it was going. They thought they were headed for Omaha, but were in fact going in the other direction, and by the time the conductor reached them they were in Belleville, Kan. They were B. Lessing, an advertising specialist, and E. K. Robertson, advertising manager of the Weekly Star, and, being busy, were not a little disappointed at having to wait in Belleville ten hours for a train to get started back in the right direction.

INDUSTRIAL SHOW IS PLANNED

Held in Connection with Mid-West Implement Dealers' Convention.

OPEN TO ALL MANUFACTURERS

All Sorts of Manufactured Products Will Be Shown and High Class Entertainment Will Be Provided in November.
One of the best industrial shows that has ever been held in Omaha will be staged in the Auditorium November 15, 16 and 17, when the annual Mid-West Implement show is held. J. M. Gillan, manager of the Auditorium, held a consultation with M. L. Gosman of York, Neb., who is one of the representatives of the Mid-West Implement Dealers' association, in regard to the details of the show, and completed arrangements which for the last month have been hanging fire, and which are the features that are expected to make the show the talk of the entire west.
It is proposed to make the show this year devoid of the sameness which characterizes most industrial exhibitions, by making it open to exhibitors who manufacture any kind of product, instead of showing farm goods only.
Leather goods, auto supplies, automobiles, harness and machinery of all kinds will be features of the exhibition, and high class entertainment to enliven the occasion also is being planned.
ROOF OF BURNING THEATER FALLS, BURYING FORTY-FOUR
Five Men Are Taken Out Alive and Several Bodies Removed from the Ruins.
NICE, France, Sept. 8.—The Theater Eldorado collapsed here this morning. Forty-four workmen engaged in making repairs to the building were buried in the ruins. Rescue work is proceeding. The entire roof of the auditorium fell in with a great crash.
The bodies of several dead workmen have been taken from the debris. Five other men have been taken out alive, but badly injured.

Chic Effects in Fall Millinery

Our latest autumn arrivals in millinery show that Paris has outdone itself in the creation of hats of unequalled beauty and elegance this season. There is a perfect witchery about some of these newest models that is certain to make them

THE SEASON'S FAVORITES

Indicated by this late stock is a great vogue for the quaint, tall bell shape crowns in soft, rough felt, beaver, velvet velour. The large shapes that we show will continue popular. They are strikingly artistic and have a wonderful harmony of colors, so that they will frame any face into a perfect picture of grace, charm and beauty.

The selection is so diverse that all visitors here are certain to find particularly beautiful hats which will not only add distinction to their appearance, but will also meet the allowance of their purses, no matter how modest it may be.
