Damages.

WASHINGTON, Sept. 9.-Anti-foreign placards are being posted in Cheng-Tu, capital of the turbulent Chinese province of Sze-Chuen, according to rumors reaching the State department.

The apprehension of foreign residents is shown by the fact that British subjects, accompanied by other foreigners, have already left Cheng Tu for Chung King, where British, French and German gunboats are now lying. American Charge Williams at Pekin today cabled the State department that the British left yesterday.

Advices which reached the State department from other sources than the American legation not only confirm Mr. Williams reports of the dissatisfaction of the natives with the railroad projects of the Chinese government, but foreshadow a great extension of the native agitation owing to the distress resulting from the floods in the lower Yank-Tse-Klang. These reports state that the great distress is almost certain to cause extensive riots later on and these probably will assume an anti-foreign phase.

Reports to the Navy department today indicate that Admiral Hubbard is rapidly disposing the American warships under his command for the protection of American interests, so far as possible.

Admiral Hubbard reports that four special river gunboats of foreign nationality have managed to work as far as Chung King, more than one hundred miles above the point where the American vessels must stop, because of their heavier draft and almost in the center of the disturbed dis-
