SHEEP—Another heavy run of sheep and lambs arrived, the estimate calling for about 27,000 head. Fully 30 per cent of offerings were lambs, mostly feeders, but the average quality of fat shipments seemed to be more attractive than usual. The demand from all quarters opened in active fashion, despite big business on recent days, and anything in flesh sold expected that they had not proved their undoing as it has to many American Jackies.

In groups of fives and tens the sallors, shorn of their ques and dressed very much like Yankee tars, wandered pincidly about the city, gazing curiously a everything, yet undisturbed by traffic's roar lambs scored a general advance of 10%15c. Barring 1,500 feeder lambs that falled to move, sellers cleaned up their entire holdings yesterday, leaving a market that easily accommodated the fresh supply.

Despite the fact that the four days' receipts this week are remarkably heavy.

NEW YORK, Sept. 14.-"Chinese sailors ashore drink little or not at all and we have practically no trouble about men overstaying shore leave. They are quiet and peaceful and rarely get into trouble.

Lieutenant Teen of the Chinese cruiser Hal Chi, now anchored in the Hudson, thus praised its men today as he sipped tea in the ward room. More than 100 celestial sailors had held shore leave yesterday, but the lieutenant's remarks in-
