Sharp Rise in Cost of Living Stirrs the Women to Anger.

FORMULATE DEMANDS ON PRICES

Merchants Notified that Milk, Wheat, Bread and Other Provisions Must Be Kept Within a Certain Maximum Cost.

PARIS, Sept. 16.—The cost of living in France, which has been creeping upward steadily during ten years, has risen with a jump this summer...

Discontent of housewives has taken violent form in the north, where attacks upon farmers, butchers, storekeepers and other vendors by bands of viragos are the daily excitements in towns and cities.

Edison on His Travels. Edison has been automobiling in short stages through France and Switzerland. He intends to continue his holiday through Germany to Hamburg, sailing from there for home.

Who is the shabby little man with the crowd around him? inquired a Parisian woman in the lobby at the Beau Rivage at Geneva.

Edison feels the charm of the old, pleasant and rich countries through which he passes, but he admires most the delicate and intelligent skill of Swiss workmen.

Set on Fire by Sun. The chalet and beautiful botanical gardens at Sainte Savine, near Troyes, have been burned by the concentration of the sun's rays through an accidental arrangement of windows forming a burning glass.

Work of Paris Pawnshop. The Mont-de-Piete of Paris, the government pawn shop, has issued its report for last year, showing that nearly \$3,000,000 were loaned on \$9,115 articles.

SOCIALISTS MAKE BIG GAINS Large Increase of Membership in the German Empire—Have Big Election Fund.

BERLIN, Sept. 16.—The annual report of the social democratic party's executive committee, which has just been issued, shows that the socialists have increased their organized members by 116,324, bringing the membership in the course of the year to a total of 580,562.

There are local organizations in all the Reichstag districts except fourteen. Besides the ordinary organizations of voters the party has 454 young people's organizations, there having been a gain of nearly a hundred last year.

There are now eighty-one socialist daily newspapers in Germany. The most extensively circulated is the 'Vorwarts' of Berlin, which is the party organ; its circulation reaches 137,000.

The drift toward socialism during the last few years, the report states, has been very strong. It points out that in the thirty-seven by-elections held since the present Reichstag was elected in January, 1907, the socialists gained 24,000 votes, whereas their opponents of all parties lost the huge total of 135,500.

It is unofficially stated that Baron von Rechenberg, the governor of the German colony in East Africa, has decided to resign in the autumn. It is assumed that the governor's decision is due to opposition that has arisen against him in the colony in respect to his treatment of the colored races, especially the Hindoos.

A business organization of the colonists has recently adopted a plan to the home government a series of resolutions embodying their own views as to the proper treatment of the Hindoos. They ask that more

Ocean Pooling Arrangement Likely to Be Renewed at Meeting Soon to Be Held in Cologne—Big Racing Prize in Danger.

LONDON, Sept. 16.—Sir Henry Dalziel, leader of the ultra-radicals in the House of Commons, the father of the bill which aims at giving Scotland local self-government, has just had prepared a bill to alter the calendar.

In this, as in other features, it differs from the Calendar Reform Bill, introduced in the House of Commons in 1906, but which never got beyond the second reading stage.

Ocean Pooling Agreement. It is generally anticipated in transatlantic shipping circles that the pooling arrangement, which expires on October 31, will be renewed at the resumed conference to be

held in Cologne during September. The Canadian Pacific Railway company, which works its shipping interests chiefly as a feeder for the railway, and which has heretofore opposed the extension of the agreement, has, it is believed, as a result of concession granted by the continental companies, modified its attitude.

Big Racing Stake in Danger. The Derby sweepstake, organized by the Calcutta Turf club, the greatest sweep in the world, which has grown to gigantic proportions, is in danger of being abolished or at least considerably curtailed. Under

Indian, like British law, clubs can organize sweepstakes for members only.

The 'Calcutta sweep' was started like the sweepstake in all London clubs on the Derby to enable members to have an interest in the race without chancing much money.

What is Artistic Temperament? Paderewski is said to have displayed philosophic calm during the fire that destroyed the building on his fancy poultry farm, and the unkind explanation is given that the greater financial interest in the place is held by Mme. Paderewski!

But why should an artist not be as self-controlled as the next man in a crisis not related to his art? There is no mystery, necessarily, in the fact of a musician's going to pieces at a wrong note, but being unmoved by the sight of a conflagration.

The situation would have been vastly different if the great pianist had been viewing the burning of Rome to the discordant accompaniment of Nero's violin.

Artistic temperament is nothing if not the acme of sensitiveness, but where its particular sphere is not concerned, it is not by necessity less capable of calmness than the more ordinary type.

Most of us could hear a wrong note without flinching, but how do we behave at even a trivial fire?—New York Post.

"77" Humphreys' Seventy-Seven Breaks up Grip and COLDS

A Cold is caused by a sudden check in the circulation of the blood; you know when, by a gone feeling of lassitude and weakness, before the Sneezing, Cough or Sore Throat set in.

The immediate use of "Seventy-Seven" at this first feeling, restores the checked circulation, starts the blood coursing through the veins and breaks up the Cold.

To obtain the best results a vial must be kept handy. This is easy as it fits the vest pocket. All dealers sell "Seventy-Seven."

Modern, practical methods for modern, practical men

To show the World what can be accomplished in the fertile regions of the vast West is the purpose of the OMAHA LAND SHOW

Here amazing demonstrations of all modern methods of exacting from rich soil the greatest and best crops will be given in fullest and most expressive details.

THE development of the West is going on now on such a wonderful scale that big men are using big means to get this big country into the best productive condition. Power tractors that turn up acres of soil in the most rapid time, are one of the effective aids of opening up great tracts of land.

A fertile farm, scientifically worked, assures a prosperous future. So the Omaha Bee and the Twentieth Century Farmer, knowing present day conditions and present day tendencies, say come to the Land Show and get the farm education that will make you richer and happier, and the west a bigger and more bounteous granary of America and the world.

Money grows in the west; all it needs is cultivation
