CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Sept. 16.-Optimism as to an settlement of the Moroccan dispute today in favor of lower prices for t. The close was ac to highe under night. Net declines formed the rule, last night.

Maria to 160 c. oats. 100 co.

It was in an indirect way that the Moroccan situation affected wheat. The market here followed the lead of Liverpool and one of the principal causes of the weakness at the British port was confidence that the African cloud soon would be dispelled. Then too, French, German and Russian crop reports were better than had been expected. Indeed, official figures from the czar's domain indicated that the Local Forecaster, Weather Eureau. from the czar's domain indicated that the shortage of grain is not nearly as great as generally figured. In addition the weather conditions northwest were of a kind to facilitate movement to market. he close was steady.

The close was steady. December ranged from 9540 to 954c, with last sales, 464c down at 95467954c.

Corn weakened under selling by belated longs, who noted the excellent weather conditions for the growing crop. December fluctuated between 634c and 644c, closing weak. 4674c off at 634664c. Cash grades easy: No. 2 yellow, sold at 63466c. Reciprocity talk made outs heavy. December touched as high and low levels, 454c and 454c and 446c, with the close, 4c net lower at 45c even.

Much commission selling weighed on provisions. The outcome was a decline all around: pork, 60c; lard, 7½c to 15@17½c, and ribs, 17½c to 25c.

Quotations of the Day on Various Commodities.

CORN DELIVERIES ARE LIBERAL

Lower Cables Start Sching of Long
Wheat and Slow Cash Conditions Readily Ease the
Market.

OMAHA. Sept. 16. 1911.

Pit conditions in wheat are bearish. Long
wheat is steadily coming on the market
and shorts are more aggressive. Liverpool
cables were again very weak and the disposition on the part of the best traders is
to wait for the vote on reciprocity. There
is poor prospects of any enthusiastic support at the present, as the cash wheat demand is disappointing and builish news in
the northwest is offset by bearism foreign
reports.

Deliveries of corn on contracts are fairly
liberal and holders are finding no trousle
in selling for export Total shipping sales
are heavy, and early harvesting reports are
not listering. With these builish in
fluences and the strong position of cash
corn, prices are not likely to decline much.
Lower cables started the selling of long
wheat again today and slow cosh conditogs readily cased the market. Cash
some further reaction in values, gave corn
an easier tone Cash corn was 1475/c
lower.

Profit-taking on long corn anticipating
some further reaction in values, gave corn
and easier tone Cash corn was 1475/c
lower.

MONEY HELD IN BANK VAULTS Cattle Generally Steady to Strong for ally Keen Bidding.

TONE OF SENTIMENT IMPROVED Relaxation of Pressure on Market from Abroad Suggests Improvement in Financial Position at Berlin.

NEW YORK, Sept 16.—Stocks bounded upward today under the impulse of unusually keen bidding. The market toward the end of the session was buoyant and the recovery was the most striking of any which has occurred since the long Cecline began in August. Canadian Pscific gained more than 6 points. Union Pscific, Lenigh Valley, Reading, United States Spen and a number of prominent issues advanced 2 points or more. Despite the rise in prices, there was still

Despite the rise in prices, there was still a scarcity of stocks. The bear party, which had failed to force fresh liquidation by yesterday's attacks, was compelled to bear a hasty retreat. Competitive bidding forced prices up rapidly Canadian Pacific rose to 10 points above its recent low level, Lehigh Valley 6 points above, Reading 8 points. Union Pacific 14 points and United States Steel 3 points.

More cheerful advices in regard to the foreign political situation improved the tone of sentiment. The relaxation of pressure on this market from abroad suggested improvement in the financial position at Berlin, and private advices from that point and Hamburg were to the effect that the unloading of Canadian Pacific heid in those centers has been completed. The bank statement reflected a strengthening of positions as a result of the week's bu. bu. Tallow—Steady continent \$10.00 South America, \$10.55 compound, \$8.6006.40 The bank statement reflected a strengthening of continent \$10.00 South America, \$10.55 compound, \$8.6006.40 The bank statement reflected a strengthening of positions as a result of the week's transactions, though the increase in surplus reserve was somewhat smaller than had been estimated. The gains in cash shown in the actual statement was more than \$3.000,000.

CALILE—There were no cattle of any consequence today, only two cars being reported in, but the total for the week tools dp 20,005 head, being larger than last week, but slightly smaller than two weeks ago, and smaller than a year ago by almost 12,000 head.

The market on beef cattle throughout the week was more or less uncertain, showing week was more or less uncertain, showing a little weakness on some days and a little week ago

Cows and helfers were in rather moderate supply throughout the week and, as the demand was very good, the trade was reasonably active on most days and prices at the close of the week are stronger.

Good feeders were sought after all the week, and while the trade was not particularly active. larly active on some days, it was as a rule in a fairly healthy condition, prices at the close of the week being generally steady. Inferior and common grades were more or less neglected and some little weakness was developed on that kind.

Quotations on native cattle. Good to choice beef steers, \$7.5567.75; common to fair beef steers, \$4.536.50; good to choice helfers, \$5.0065.75; good to choice cows, \$4.506.50; good to choice ows, \$4.506.50; good to choice cows, \$4.506.50; larly active on some days, it was as a rule \$5.0005.75. good to choice cows. \$4.5005.00. Common to fair to good cows. \$3.75@450. common to fair cows. \$2.5002.75, veal calves. \$3.5007.75. Quotations on range cattle: Good to choice beef steers. \$5.5076.50, common to fair beef steers. \$5.5076.50, common to fair beef steers. \$5.0005.50, common to fair beef steers. \$4.2505.00, good to choice helfers steers. \$4.2505.00, good to choice helfers

beer steers, \$5.0005.30, common to rair bees steers, \$4.2505.00; good to choice heifers, \$4.7505.25; good to choice cows, \$4.4005.10; fair to good cows, \$3.7504.40; good to choice stockers and feeders, \$5.0005.75; fair to good stockers and feeders, \$4.2505.00; common to fair stockers and feeders, \$3.5004.25; stock helfers, \$3.2504.40; buils, stags, etc., \$3.000 ti HOGS—Bullish feeling pervaded the hog trade, but packers made a creditable effort to keep it under control. Actual business ruled strong to a nickel higher, a light supply selling on this basis. Only fifty-supply selling on this basis.

OMAHA UNIVERSITY GROWING

Campaign is Organized to Secure \$1,000,000 Endowment Fund.

WORK AMONG WAGE EARNERS While Philanthropists Will Always Be Confronted with Welcome Sign. Small Contributer

Starting in with nineteen enrolled in 1908 the attendance of the University of Omina grew until last year at the close of the second semester there were sixty-two young people pursuing higher education. On Tuesday the university will begin its third year of work with an attendance exceeding

Will Be Sought.

The growth of the University of Omaha. when compared with that of other institutions of learning is one of the most astounding that any school has experienced. This is especially true when one compares it with other colleges not depending upon the state or city for aid. Harvard's commencement furnishes a striking example of this fact. In 1638 Rev. John Harvard came one day, among a company of his friends. Under his arm he carried a few blooks. Placing these on a table, he said: "I will give these toward the establishment of a college " Four years later Harvard has but nine students enrolled. For a number of years the president was the sole instructor, and it was not until after fifty years that its enrollment exceeded twenty-The student body now numbers 6,000 and

he faculty is made up of 540 teachers. Yale's foundation in 1701 was little more propitious. Its first endowment was a calf to be given two years from the date it was piedged. During the first twenty years of its history its students numbered from twenty to thirty.

Two forces have been at work contributing to the splendid work which has been done up to date-the faculty and the student body. The faculty when first organized onsisted of a few men and women who were capable instructors who were willing o give their time and energy, with scarcely any compensation except appreciation and a realization that they were making this great enterprise a reality. The students have been a few young people who had the desire for a higher education, but for whom such a thing was not possible unless it was near at hand. These are the pioneers who have helped to hew the way for a big university within the corporation limits of Omaha. Most of those who were there at the beginning have remained with the school. The original faculty is nearly intact, and fifteen of the nineteen students who were at the first convocation exercises will answer to roll call next Tuesday

morning. Lack Distinctive Feature. "Cities, like men, reach a stage in their development when it is necessary to build up their character as well as their commercial instincts. Des Moines with its 30,000 points with pride to the fact that it has eleven institutions of higher learning. Lincoln, aside from the state school has six. Omaha aside from its public and parochial schools has Brownell Hall and Creighton, HOLD CONVENTION TUESDAY and in close proximity Bellevue college. All of these institutions have for a number of years past been doing a splendid work

> for three years, then during this period That seems like a lot of money to raise by popular subscription, but here the trained mind shows itself and makes this amount seem close at hand. To provide for the current expenses Mr. Alden proposes to get 100 men to pledge \$100 each for three years. This with the money secured from tultions cover all expenses for that period and 25 per cent of this has already been raised. This out of the way, the board will immediately start to raise the endowment fund, which if invested at 5 per cent interest will cover all expenses for maintaining a school with

an enrollment of 1,000. To raise this money twenty divisions or blocks are made, each for a sum of \$80,000. As soon as all of the money on the first is subscribed work will be started on the second, and so on until the whole amount has been pledged. Notes will be drawn up which will not be binding until the total \$50,000 of that issue has been promised. The notes will be for twenty years and will bear interest at 5 per cent on deferred payments. In this way, although the money is not paid in, the school will have an annual income equivalent to that which will be derived from the endowment fund.

Among Wage Earners.

It is planned to work mostly among the wage earners of Omaha, although the wealthy will also be solicited, and if Woman's Christian Temperance union for any multi-millionaire wishes to contribute the "welcome sign" will be hung out, At first this appears to be an enormous amount to expect from the middle classes, Evangelistic, Mrs. L. A. Borsheim, flower but an inspection of the bank deposits of mission. Mrs. A. Newell; franchise; Omaha reveals that in local banks there are \$59,000,000. This mean that if each person would give one-fifth of one per Mrs. Sarah Powell; legislative and law cent of his deposits for ten years, the enforcement, Mrs. George Tilden; litera-ture, Mrs. T. E. Brady; loyal temperance Mr. Alden is seeking pledges which give legion. Mrs. Florence Leavitt; mercy and a time limit of twenty years, which would
