## SCHOOL AND COLLEGE WORK

**Schools of Opening Days at Various Institutions.**

## CROWDED SCHOOLS IN BIG CITIES

**Seventy a Million Children Enrolled in the Schools of Greater New York and Education in Western.**

The first week's registration in the Peru Normal, Peru, Ind., closed on Friday evening with an unusually large enrollment. Notwithstanding the fact that a large number of students will not enter until next Monday, owing to a statement in the summer school bulletin giving the date of opening as September 15. The first week's registration has reached approximately 80 students. It is expected that from 100 to 200 will be added to this amount by the latter part of the week. This will probably mean a larger enrollment than on any corresponding date in the history of the Peru Normal. The increasing popularity of state normal courses is attested by the large number of four-year high school graduates enrolling. The junior class in the normal shows an increase of more than 100 per cent over last year's class, while the increase in the senior class is more than 50 per cent. All other classes show an increase, the per cent not being so large as in the upper classes. Students and faculty alike are all jubilant over the prospects for the year's work.

## NEBRASKA CENTRAL COLLEGE.

**Institution at Central City Opens with Favorable Auspices.**

CENTRAL CITY, Neb., Sept. 17.—(Special.)—Nebraska Central college last week opened its doors for the fall term, registration beginning Monday. There was a good enrollment. The faculty this year consists of Stephen S. Myrick, president; Prof. Genter, commercial department; Prof. Culver, agricultural department; Essek H. Perry, education and pedagogy; F. W. Perito, professor of mathematics and sciences; Dean Estella Foxworthy, domestic science and French; Alice Colman, professor of English and Greek; Julia Measer, professor of Latin and German; Miss Verdie Wildman, art department.

Social features of the opening week include a reception given to the faculty, their companions and others directly interested in educational topics by President Myrick at his home Monday evening. On the evening of September 17 occurred the opening exercises at Hord's hall. The chief feature of the entertainment was a shower for the domestic science department, the new department introduced in the college this year.

The college is amplified and enlarged this year by the addition of the new Hord's hall, which is now fully completed and equipped and is occupied by the agricultural department. The prospects for the college are very bright this year.

## NEBRASKA UNIVERSITY.

**Plans of the Department of University Extension.**

On the retirement of Director J. L. McBrien on October 1 the direction of university extension in the University of Nebraska will be assumed by Inspector A. A. Reed as acting director. The principal change in the management will concern the division for instruction by lectures. Hereafter only members of the faculty will be used as extension lecturers and they will not be assigned through this department for entertainment courses of a lecture nature. However, they will be available for public addresses, educational rallies, teachers' meetings and other occasions where the purpose is primarily educational and the meetings free and open.

The division of correspondence study will be enlarged and enriched. The possibility and efficiency of teaching by correspondence study has been well demonstrated by practical experience in the leading universities and colleges of both Europe and America. While such instruction lacks some of the advantages which residence study gives, it has compensating advantages of its own. In correspondence instruction the teaching is personal and individual. Each student studies and recites the whole lesson and as an individual and not as a member of a large class comes in contact with the instructor. Correspondence study employs the spare time of the student and gives him an interest outside of his daily work. It can be done at home and thereby brings into the home a new influence and charm.

Correspondence work, moreover, throws the student upon his own resources and makes him self-reliant and self-determining. Among the correspondence courses during the last three years that have been most popular and successful are those for certification and for university credit. Correspondence courses are offered in nearly all of the subjects required for any grade of teacher's certificate. Of those carried for university credit the following have been found to be the most workable and satisfactory thus far:

A. "Life and Times of Lincoln," as given by Prof. Caldwell and Persinger. Over seventy-five different students have registered for this course.

D. Courses one and two in English language and literature and "Comparative Literature and English," as given by Prof. Stiff.

B. "School Organization and Administration," as given by Dean Fordyce. Over fifty different persons have registered for this course, including some of the ablest city superintendents and high school instructors in the state.

C. "The Philosophy of Education," as given by Dr. Wolfe. Dr. Wolfe limits the number in this class each year to twenty-five. Already several have registered in the course for the ensuing year.

E. "Physical Education," as given by Dr. Clapp and based upon one of the leading circle books for the year. Over fifty different persons have registered in this course and thereby earned university credit.

F. "Industrial Geography," as given by Prof. Condra and Bengtson. Many of the progressive grammar and high school teachers throughout the state have profited by this course.

G. "Nebraska History and Nebraska problems in Legislation and Administration," as given by Prof. Sheldon. has been a very popular course, in which will be enrolled a large number of correspondence students for the coming year.

Several new courses of correspondence are now being planned for the coming year.

In addition to extension work for correspondence study, much has been accomplished by itinerant professors and teachers. For example, Professor Grunmann had a class of over one hundred students in an extension center at Omaha in a series of thirty lectures during the last year. Miss Bessie Tully had over two hundred extension students in education and dramatic art at Aurora, Alma, Bloomington, Central City, McCook and Sheldon, the last year. There is a great demand for this line of instruction and

## New Class in Salesmanship to Be Established in Omaha

Frank A. S. Price, president of the Missouri Valley Educational association and one of the best known business educators of the middle west, will introduce into Omaha, a new thing in business education—a salesmanship class of practical work.

F. A. S. PRICE.

At present, in addition to his connection with the Missouri Valley Educational association, he is the head of the western division of the Lincoln-Jefferson university of Indiana.

In all probability from three to five itinerant instructors in this work will be needed for next year.

The total number of different students in extension work in correspondence study and itinerant instruction during the last three years, exclusive of those in debating, has been over seven hundred. Five states are represented by extension students, the greatest number, of course, being in Nebraska. One correspondence student deserves special mention, namely, Mr. Wolvinton of Manila, Philippine Islands. He is taking the course in "Life and Times of Lincoln" and "English Language and Literature," courses 1 and 2.

One of the most helpful and popular lines of extension work has been that in debating, as given by Professor Fogg. Over one hundred high schools were furnished debating material last year through this department, thus instructing and helping nearly two thousand high school students in scientific debate. In all probability this work will increase during the next year. It is expected that over one hundred and fifty high schools next year. Many of the debating societies and hundreds of persons who wish to make a scientific study of leading public questions so as to have a fair and impartial knowledge of all phases of every question so studied.

## GRAND ISLAND COLLEGE.

**Two Days' Registration Indicates Large Attendance.**

Grand Island college is opening its twentieth year with excellent prospects along every line. The first two days of registration give promise of even a larger attendance than had been hoped for. The number of students from out of the city is large, all parts of the state, as well as Wyoming and South Dakota, being well represented. The boys' dormitory is already filled.

Dr. L. A. Garrison, who this fall assumes the direction of the college as president, is being assisted by an able and sympathetic faculty. Several of the strongest members the faculty has had in recent years remain, including Prof. O. H. Verner of the department of English, Prof. J. H. Hatton of physical science and Prof. C. J. Elmore, biology. In addition, the faculty is strengthened by the accession of two teachers of long experience in denominational college work, Miss Martha Firth, professor of

## OPPORTUNITY SITTING DOWN

Awaits for Some of Contestants in Bee Booklovers' Game.

## MAGNIFICENT CAR ON EXHIBIT

May Be Seen at Salesroom of Drummond, Eighteenth and Harney.

Where Many Have Already Inspected It.

To join the companies of automobile owners and possess a cracking good machine is the ambition of nearly every man and woman. There is something about the ownership of a good motor car that makes a person get more enjoyment out of life. An automobile after it is bought is not the source of as much expense as is generally supposed. The cost of upkeep is not large when a machine is handled in the proper manner.

But if one receives a touring car free, then the strain on the income is not great at all. For this reason thousands of people are interested in The Bee's Booklovers' contest and are hoping they will be able to draw the first prize, which is a \$2,000 White Steamer automobile, fully equipped. Given a magnificent car like the White Steamer, one can begin living the way one ought in this age of motor cars.

The speed car which The Bee has purchased for this contest is now exhibited at the salesroom of Drummond, Eighteenth and Harney streets, where it is daily inspected by many people.

## List of All Prizes.

The prizes to be awarded are as follows:

First—A White Steamer automobile, a beautiful five-passenger car, celebrated for its durability and speed, valued at \$2,000.

Second—A ten-acre ranch in beautiful Tehama county, California; delightful climate, rich fruit land; value, \$1,250. Full information concerning this land may be had at the office of the Trowbridge-Bolster company in the City National bank building, Omaha.

Third—A beautiful Krell Auto-Grand player-piano (have the music of the masters in your own home); value, \$500. This prize is exhibited at the Bennett store, Sixteenth and Harney streets.

Fourth—One lot in the business district of Ralston, a lot 25x100 feet, on Maywood street; value, \$375. Full information may be had at the office of the Ralston Townsite company, 300 South Seventeenth street, Omaha.

Fifth—In the beautiful suburban town of Ralston, one lot in the residence portion, 50x120 feet. This lot is valued at \$225. Full information may be had at the office of the Ralston Townsite company, 300 South Seventeenth street, Omaha.

Sixth, Seventh and Eighth—Three sets (twelve volumes) of Nelson's Loose-Leaf Encyclopedia, the encyclopedia that cannot grow old; each set valued at \$60. These books are exhibited at the store of W. A. Hixenbaugh & Co., 1314 St. Mary's avenue.

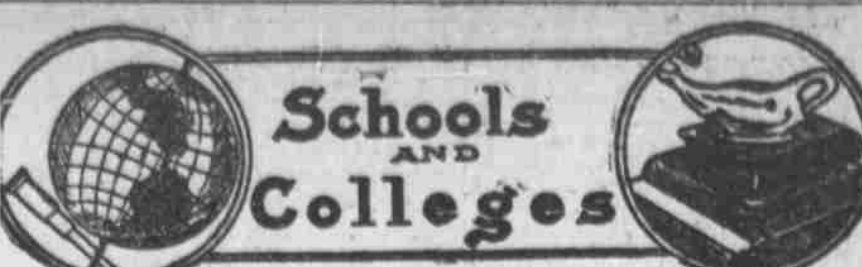

Ninth and Tenth—The Book of Knowledge, or Child's Encyclopedia, a universal work for school children, twenty-four volumes; each set, \$36. These books are exhibited at the store of W. A. Hixenbaugh & Co., 1314 St. Mary's avenue.

Add to this forty-five cash prizes, as follows: Five \$10 prizes, ten \$5 prizes, ten \$2 prizes and twenty \$1 prizes.

## A Great Advantage to Working Men

J. A. Maple, 125 South Seventh street, Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidney acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise." For sale by all druggists.

The key to success—Bee Want Ads.

## BELLEVUE COLLEGE

Thirtieth Year Opens September 12th, 1911.

BELLEVUE COLLEGE,  
BELLEVUE NORMAL SCHOOL,  
BELLEVUE MUSICAL CONSERVATORY,  
BELLEVUE ACADEMY,  
Constituting  
OMAHA'S HISTORIC COLLEGE.

Located in Omaha's most beautiful suburb.

HARRY N. RUSSELL, Head Master, Kearney, Nebraska.

## Nebraska Military Academy LINCOLN

**The Best School for Your Boy,**  
you must admit, is the school where he receives individual attention. He has a mind and he has a body; both are developing rapidly, and both need systematic training. His physical development should not be left to chance, nor should his individuality be ignored.

In the Nebraska Military Academy classes are conducted as in other schools, but each boy also receives individual instruction, being given the help he specially needs, independently of the other members of his class.

The Academy opened September 14, but cadets can enter at any time.

If interested, write for catalog. Address
