METHODS

Methods, like habits, are continually changing. Yesterday's methods are discarded for today. If the same methods as were used years ago were employed to build the Woodmen of the World building, the structure would take years to complete. In fact, we doubt if it would ever have been commenced. It is the straight from the shoulder method that is successful today. We use it. Honest, open and above board methods are ours. One price to all and that price the lowest consistent with good quality. We adopted this method years ago. Its success has proven its correctness.

Get on a Sure Footing

by coming here. Your wants are looked after carefully in our shoe section. Your feet are fitted properly—because we have every size and every width. Not any old pair to force your feet into, but a well fitting pair, to fit correctly, and with comfort. That's our system. Be it man or woman our large stocks and variety of styles make the choice easy. All the new shapes in all leathers.

Men's and Women's Shoes \$2.00 Upwards to \$4.00

THERE'S MORE IN OUR FALL AND WINTER CLOTHES THAN MEETS THE EYE.

Wear only will discover the dollar for dollar value. But if you will look at yourself in our clothes before our big mirrors you will begin to understand and you will see how you can save the money that has heretofore gone elsewhere with little profit to you. No better clothes, or more reasonably priced can be found anywhere. A broad assertion we admit, but we can always back up what we say.

IT ISN'T WHAT YOU PAY—IT'S WHAT YOU BUY

For instance there is nothing remarkable in a suit or overcoat at \$20.00. It is what we sell you for that price that is remarkable. If we, too, fell into the common practice of sacrificing quality to make a cheap price, suits that cost \$20 elsewhere could by reason of our unique facilities and our fixed underselling policy be obtainable at the Nebraska for \$16.00. We have a standard and comparatively few manufacturers are able to satisfy us.

Particular men, men of discrimination, are invited to examine our new clothes for fall and winter.

Prices From \$10.00 Upwards to \$40.00

High School Cadet Club Elects Officers

The Cadet Officers' club of the Omaha High school met Thursday afternoon for the first time and elected officers for the coming year. Prof. Nathan Bernstein of the faculty presided at the meeting until the president was elected. There are forty-four commissioned officers in the cadet regiment this year, but only thirty-six were present at the election. The only close contest was over the election of the president, the winner being elected by only two votes majority. The Cadet Officers' club is one of the time-honored affairs of high school military life. It is made up exclusively of senior boys who have reached promotion to a commissioned officer in the cadet regiment of the high school after three years of drill. The purpose of the club is to regulate the general military affairs of the school and to promote effective organization of the commissioned officers. In addition to the military side there is a social life connected with the club. Each winter an elaborate hop is given by the club, at which time all the officers appear in dress uniform with their accoutrements. The club hop will be held this year at Chambers academy on February 18, and will be in charge of Lieutenant Harold Thomas. The following officers were elected for the coming year: President, Rex Houlton, captain of Company B; vice president, Vergil Rector, major of the First battalion, secretary, Charles Shook, first lieutenant of Company F; treasurer, Will Noble, captain of Company E; sergeant-at-arms, Dave Bowman, captain of Company G.

Three Sary county farmers coming under the general designation of John Doe and Richard Roe, are wanted badly by the constable attached to Justice Caldwell's court.

Also Mrs. Tony Salenski of Thirty-sixth and W street wants the same farmers and value in coin for a dead goose that passed over through the ministrations of the sons of the soil.

Mrs. Salenski told the court that on last Monday she was the owner of a dozen geese. The three returned from a day's outing in the city engaged in a discussion as to the comparative amount of strength possessed by them. The long farmer made a bet that he was the strongest. The short man called his bet and made a pot of twenty dollars to go to the winner. The thin man was to be outdone, contributed another ten spot and agreed that the whole should go to the strongest man. The test was to squeeze a goose to death with the naked hands.

Mrs. Salenski unwitting and unwillingly supplied the goose. The short man went and collected the thirty from Peter Samoski, who was the holder of the bet. They left the dead goose but no money to pay Mrs. Salenski. Now Mrs. Salenski wants damages and the court and constable went out after Oscar. He caught him yesterday morning at Twenty-fifth and F streets.

Booster in Season. At the regular meeting of the South Omaha Booster's club last night it was determined to petition the city council for the creation of a special lighting district in the business section of the city.

Mr. H. Marsh of the electric company addressed the meeting and explained the desirability of the new lighting system. According to the plan proposed the business district will be lighted by ornamental flame arcs burning 2,500 candle power per lamp. There will be three lamps to a block giving an aggregate candle power of 7,500. The cost will approximate \$50 per year, half to be paid by the city-at-large and half by the abutting property owners. The new system will be in accordance with a provision of the new charter which authorizes special lighting districts.

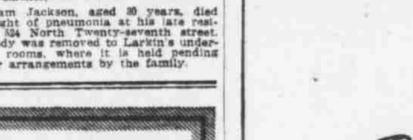

The club also took up for consideration the project of holding a wild west show on the afternoon of October 4. The matter was placed in the hands of the various committees who will proceed to make the proper preparations for the celebration.

Father Joannita, pastor of the Lithuanian church commended the work of the club and promised co-operation on the part of himself and his parishioners. He told the club that it was his aim to make his countrymen permanent residents of South Omaha and good American citizens. A number of booster buttons and cards were distributed to the members.
