UNCOVER PLOT TO LURE DOCTOR TO GET RANSOM

Chicago Police Find Motive Back of Killing of Emil Dignos by Dr. Falcker.
CALLED TO ACT AS PHYSICIAN Brought to Remote Place on Plea of Serving Man's Uncle.
MET WITH ORDER TO PAY MONEY Struggle Follows in Which Falcker Kills Assailant.
PRISON CHAMBER IN THE HOUSE Place Fully Prepared to Hold Person Under Duress.
DETAILS OF PLAN PREPARED

Man Killed, Former Foreign Correspondent of Stock Yards Firm, Found to Be Low in Funds.

CHICAGO, Sept. 23.—A plot to lure Dr. William H. Falcker to an unoccupied house, tie him down with ropes fastened to staples driven in the floor and hold him prisoner in a clothes closet, for the payment of a large ransom by the wealthy parents of the physician, is now believed by the police to cover the killing yesterday of Emil Dignos, former foreign correspondent of a stock yards packing firm. Dignos was shot and killed by Dr. Falcker in the vacant house, following a struggle.

The doctor says he was lured to the house by Dignos on the pretense that Dignos' uncle needed medical attention. Dr. Falcker declares when he reached the building Dignos pointed a revolver at him and compelled him to give up his watch and some money and that after a struggle he (Falcker) obtained possession of the weapon and shot his assailant.

Two other young men are believed by the police to have been connected with the alleged plot and are now being sought. The theory that Dr. Falcker's assailant had planned to hold him for ransom was advanced by the police after detectives had searched the house where the killing occurred and discovered an improvised bed of excelsior surrounded by staples driven into the floor and threaded with a stout rope, in a small closet under a stairway. In a corner of the closet was an axe and a small roll of black cloth.

Dignos has been identified as the man who rented the unoccupied house several days ago. The police have discovered that Dignos was without funds and owed Mrs. Harry Hogue, at whose house he roomed, \$300 borrowed money. He and a strange man are said to have spent several hours at the unoccupied house the day before Dr. Falcker was lured to the place, according to the police.

Health Commissioner Young today suspended Dr. Falcker, who has been an inspector in the city schools since January 22, 1907, pending the outcome of the police investigation of the killing.

Governor Aldrich Says East is Years Behind the West

(From a Staff Correspondent.)
LINCOLN, Sept. 23.—(Special Telegram.)—Governor Aldrich arrived home from his trip to the east this morning. The executive was highly elated over his trip and declared that it had been well spent.

"The staid and dignified east is ready," he said, "for all the progressive movements that we have in the west. The people back there need a leader, someone who is capable of inspiring their dormant energies and making them come out of the lethargical state into which they have fallen for years. The spirit of let the people rule is becoming more and more an actual fact. The spirit that we have had for years in the west is pervading the east, and when the leader steps out to claim a following he will find thousands of the rank and file who will flock instantly to his standards. In ambitions, hopes and achievements the west is from ten to twenty years ahead of the east, in my opinion."

Referring to the work, purposes and prospects of the gathering which he attended, the governor said:

GREAT FIGHTING SHIP LAUNCHED

Argentine Battleship Moreno is Placed in the Water at Camden, N. J.
ONE OF LARGEST IN WORLD Vessel Will Carry Twelve 12-inch Guns and Has Displacement of Nearly 10,000 Tons Greater Than First Dreadnaught.

PHILADELPHIA, Sept. 23.—The great Argentine battleship, Moreno, planned to be one of the most formidable dreadnaughts in the world, was launched at 2:33 o'clock this afternoon from the yards of the New York Ship Building company at Camden, N. J.

The only other vessel its equal now afloat, is its sister ship, the Rivadavia, recently launched by the Fore River Ship Building company at Quincy, Mass. The Moreno was christened by Senora Isabel Betbeder, wife of Rear Admiral Onofre Betbeder, president of the naval commission in charge of the ship.

The Moreno, named after Mariano Moreno, a famous figure in the history of the South American republic, represents the last word in the present day development of the Delaware river, the birthplace of many other warships. Among the guests were Senor Dr. Romulo S. Naon, the Argentine minister at Washington, and his staff, Rear Admiral Betbeder and the members of the Argentine naval commission.

The Moreno will carry twelve 12-inch guns. Its contemporaries in this respect are the Arkansas, built in Camden and Wyoming, constructed by the Cramp and Philadelphia, neither of which is yet in commission; the Austrian Viribus Unitus, the German Hurliger, the Japanese Kawachi, the Russian Sevastopol, the Brazilian Sao Paulo, the Italian Dante Alighieri and the French Courbet and Jean Bart. The Jean Bart was launched yesterday.

The next step forward in battleship building will be realized when it is remembered that the original dreadnaught built by England and which is the unit for the modern fighting ship had a displacement of only 18,000 tons.

Armament is Heavy. The Moreno will carry twelve 12-inch guns. Its contemporaries in this respect are the Arkansas, built in Camden and Wyoming, constructed by the Cramp and Philadelphia, neither of which is yet in commission; the Austrian Viribus Unitus, the German Hurliger, the Japanese Kawachi, the Russian Sevastopol, the Brazilian Sao Paulo, the Italian Dante Alighieri and the French Courbet and Jean Bart. The Jean Bart was launched yesterday.

The next step forward in battleship building will be realized when it is remembered that the original dreadnaught built by England and which is the unit for the modern fighting ship had a displacement of only 18,000 tons.

FAILS TO CROSS THE RANGE

Engine Not Strong Enough to Lift Fowler Over Summit.
FLIES AROUND CAPE HORN Aviator Reaches Height of Twenty-Five Hundred Feet, but is Forced to Return Again to Colfax.

COLFAX, Cal., Sept. 23.—A rampart of mountains shouldering up through the mists this morning beat back Aviator Robert G. Fowler, who made an unsuccessful attempt to scale the Sierras. In resuming his trans-continental aeroplane flight.

Fowler left the ground at 6:45 o'clock, flew twenty-five miles to Blue Canyon, and after half hour's battle with the mountain winds, returned to Colfax, alighting at 8:35. He says his engine was not strong enough to carry him over the summit and that he would put in a stronger engine and start again Monday.

Fowler covered about 75 miles, going and returning, and attained a height of 2,500 feet.

Rodgers Resumes Flight. ELMIRA, N. Y., Sept. 23.—Aviator Rodgers, whose departure from Elmira in his coast to coast flight was delayed this morning by an accident in getting a start, repaired his machine and left this city at 2:15 o'clock, following the Erie railroad. He hopes to make Ocean before stopping.

Raymond Dies of Injuries. ST. LOUIS, Mo., Sept. 23.—Raymond J. Raymond, who was injured in cranking an aeroplane at the Kinlock aviation field yesterday, died today. His skull was fractured when the propeller hit him.

Attempt to Identify Ring Exhibit in the Camorra Case

VITERBO, Sept. 23.—More experts were called in the Camorra trial today in the attempt of the jury to determine whether the finger ring alleged by the Carabinieri to have been found in the possession of the alleged murderers of Gennaro Cuocolo was identical with that which Cuocolo is known to have worn. The defense has asserted that the Carabinieri purchased a new ring to exhibit in court with the deliberate purpose of making evidence.

Giuseppe de Marinis, one of the defendants, who is himself an expert on jewelry, says the ring was quite new and that its worn appearance was due to much handling in court by witnesses and jurors.

HARRIMAN SHOP MEN MAY STRIKE

Statement by Official that Employees May Be Called Out at Any Moment.
KATY EMPLOYEES ARE OUT Men Demand Joint Conference for the Two Systems and More Pay—Sedalia Shops Close.

LOS ANGELES, Sept. 23.—A strike of the shopmen employed on the Harriman line may be called at any time, according to a statement made today by William Atkinson of Los Angeles, one of the vice presidents of the National Boiler Makers' union. He said the officials of the national organization were now holding a meeting with the railroad officials somewhere in the east and that the calling of a strike is dependent upon the action taken there.

Atkinson said that a strike was the last resort and that he and other union officials still hoped to be able to avert it.

"Whether a strike is called," he asserted, "depends upon the result of the conference now being held in the east between the union officers and officials of the Harriman lines."

"I am in communication with J. H. Franklin, president of the Boiler Makers' national organization. A strike may be called at any minute, but I cannot now name the exact time."

Katy Shopmen Are Out. SEDALIA, Mo., Sept. 23.—Car shopmen on the Missouri, Kansas & Texas railway, throughout the entire system struck today because the company refused to grant a joint conference with the men of two systems north and south of the Red River, regarding working conditions. Fifteen hundred men in all are said to be out. Four hundred are out at the local shops.

The local shops closed down last night and "general retrenchment" was announced as the reason for an indefinite suspension. This action it is now believed was taken by the company in anticipation of a strike.

In addition to better general working conditions the shopmen demand higher wages.

HOUSTON, Tex., Sept. 23.—It is declared here that car shopmen on the Missouri, Kansas & Texas railway struck for more money and better working conditions at 11 o'clock today.

Twenty-five men are out here. At Denison, Tex., 500 are reported out and at Smithville, Tex., seventy-five reported on strike.

WALL STREET MARKET CALM

Trading Shows Little Trace of Wild Scenes of Friday.
RECIPROcity SCARE PASSES Chicago Wheat Market Does Not Show a Glimmer of the Fire—Works Following News of Canadian Election.

NEW YORK, Sept. 23.—Comparative calm prevailed at the opening of the stock market today after the wild scenes of yesterday. Trading was on a much smaller scale and advances were general. United States Steel, the storm center of yesterday's slump, opened 1 1/4 higher, 3,000 shares selling at 37 1/2. The next transaction was 4,500 shares at the same price. The preferred stock, which closed yesterday at 105 1/2, opened at 105 1/2. On the next sale its gain was increased to a full point.

The market showed no signs of the extreme nervousness of yesterday, although no developments had occurred over night to dispel the uncertainty regarding the status of the United States Steel corporation. The buoyancy of the London market, where American shares advanced generally before the opening here, was to some extent responsible for the better tone.

The general market held fairly steady throughout the early trading, although the copper and steel stocks reacted fractionally.

Trading throughout the session was on a normal basis and fluctuations were not large. United States Steel fell from 37 1/2, its high price of the day, to 35 1/2, but later recovered in part, closing at 36 1/2, a net advance of 1/2. The preferred closed at 105 1/2, unchanged on the day.

Speculation in the copper stocks for a time attracted more attention than the movement of the steel shares. Amalgamated Copper and American Smelting fell to the lowest point since 1908 under the influence of a severe bear attack. The railroad stocks held fairly steady throughout the session.

Wheat Market is Steady. CHICAGO, Sept. 23.—Reciprocity fire works in the wheat market did not show today as much as even a glimmer. A gallery full of spectators on "change here saw only excitement as an ordinary week-end session affords. In sharp contrast with yesterday, when millions of bushels changed hands with prices fluctuating rapidly, the market this morning acted as steady as a dray horse and appeared to have no more memory of reciprocity than of Julius Caesar.

In the last half hour of trading, scarcity of sellers caused prices to make a moderate advance, so that the market touched the highest of the season, 99 1/2 for December delivery. The close though was a bit lower, 99 1/2, making the net gain for the day 1/2.

Wheat Lower in Duluth. DULUTH, Sept. 23.—There was some slight reaction in wheat early today from the general bullishness of yesterday, following the defeat of reciprocity, but the declines were small, indicating the traders thought that wheat is up to stay for some time. Duluth, September closed at 1.10 1/2, having gained 3/4 cents in one day, opened at 1.10 and was later quoted at 1.09 1/2, asked, and later went to 1.09 1/2, and 1.09 1/2, asked. The close was at 1.10 1/2.

SAFE IN LUMBER OFFICE IN WEBSTER CITY ROBBED WEBSTER CITY, Ia., Sept. 23.—(Special Telegram.)—The Lumber Rose Lumber company's office here was robbed last night by rogues, who secured only about \$100. They forced the safe combination. The police are searching for suspicious characters seen yesterday about the outskirts of the city.

TAFT SPEAKS OF WORK DONE BY TARIFF BOARD

President, in Address at St. Louis, Points Out Necessity for Impartial Inquiry Into Facts.
HOW MEMBERS WERE SELECTED Men Chosen Who Are Trained to Analyze Evidence.
PULP REPORT IS A MODEL Complete Comparison of Cost of Production in Two Countries.
PLEADS FOR ITS CONTINUANCE Reports on Two More Schedules Will Be Ready Soon.
RECEPTION IS NONPARTISAN

Governor Hadley Presides and Three Ex-Governors, Who Are Democrats, Are on Committee—Boy Scouts for Escorts.

ST. LOUIS, Sept. 23.—Faying his third visit to this city since entering the White House, President Taft today was received by larger crowds and with more applause and cheering from the sidewalk throngs than on any previous occasion.

He was the guest throughout the day of the Million Population club, and his hosts made an endeavor to show the chief executive how far along toward a million the city had climbed. Following breakfast at the Mercantile club, where the president frankly admitted that the defeat of Canadian reciprocity had hit him "between the eyes," there came a forty-mile automobile ride through St. Louis and out into the suburbs.

The residents of the various communities turned out as a body to wave a greeting to the presidential car as it whizzed by at a speed that reached a maximum of thirty miles at times.

Foot ball and base ball claimed part of the president's time. He opened a college game of the former sport by tossing the ball onto the field and saw a National league game of base ball during the afternoon.

At the foot ball field the president was introduced by Archbishop Glennon as "the best president the United States had ever had."

Mr. Taft smilingly replied that he had always been a great fan of the good judgment of the archbishop, but he thought his sense of proportion as to presidents might be a little awry.

During the automobile parade there were two runaways of horses belonging to the mounted police escort. One of the unmanageable animals dashed up to the rear of the president's car and was only stopped by a saber blow from one of the policemen. The president seemed not to notice the incident.

Reception is Nonpartisan. The president's reception here was nonpartisan. At the Mercantile club, three former governors of Missouri, Stephens, Francis and Folk, democrats, were on the reception committee. At the Union station five companies of boy scouts were given a place of honor despite the protest of the union labor men, who had protested against the scouts' participation in the Coliseum.

The Central Trades and Labor union recently passed a resolution prohibiting any union musicians from playing in any of the entertainments given to President Taft if the boy scouts participated in the entertainment in any way.

The objection of the union labor men was based on the theory that the boy scouts' organization is a budding militia movement that will later be used to suppress strikes. A compromise, however, was reached, which permitted participation by the scouts, but the unions' resolution was not reconsidered.

Governor Hadley Presides. Governor Hadley introduced President Taft at the breakfast by saying that all parties and all factions joined in the cordial greeting to him. In introducing Governor Hadley, President A. O. Rule of the club alluded to the governor as "the Missouri paradox, a republican governor who had been preaching the democratic doctrine of states' rights to the wiser men of the east."

President Taft replied briefly, saying he felt absolutely at home in St. Louis, and then referred to reciprocity. "I suppose you have heard the policy of reciprocity is not going through," said Mr. Taft. "I see Speaker Champ Clark has been speculating as to who is responsible. I can't say who is responsible, but I do know that I am content to abide by the result."

"I have been on the bench long enough to know that when you get a decision that hits you between the eyes, the best thing to do is to sit still. I regret that it is not going through, for it would have caused benefit to both countries."

The president then referred to the recent governors' conference at Spring Lake, N. J., which named a committee to follow the decision of Judge Sanborn through the United States supreme court.

Gardner Succeeds Frye. FORTLAND, Me., Sept. 23.—Obediah Gardner of Rockland was appointed United States senator today to succeed the late Senator William P. Frye. Mr. Gardner was democratic candidate for governor of Maine in 1904.

Patrol Along Border of Mexico to Be Resumed. EL PASO, Tex., Sept. 23.—Border patrol at Columbus, N. M., by United States cavalry is to be resumed as a result of the visit of General Duncan, commander of the Department of Texas, to El Paso. A report that an armed body of Magonsists would cross from the American side at Columbus to Mexico Sunday and the threats of Magonsists to attack Juarez has resulted. It is said, in General Duncan asking that the patrol be resumed.

M'Namara's Attorneys to Demand Two Weeks' Delay. LOS ANGELES, Sept. 23.—Clarence Darrow announced today that he would demand of Judge Bordwell on Monday a two weeks' delay in starting the trial of the McNamara brothers, which is scheduled for October 10. Darrow said the delay had been made necessary because of harassment for which he held the prosecution responsible.

Northwest Bankers to Talk of Agriculture. ST. PAUL, Minn., Sept. 23.—A conference on agriculture between representatives of the banking associations of the middle west states will be held here next month. The Missouri bankers were the first to interest themselves in agriculture in relation to banking. Banking associations of other states have joined in the movement and it is reported that the northwestern states as well as Wisconsin, Iowa, Nebraska, Kansas and Illinois will be represented at the conference. The date will be announced later.

Prohibit Control of Money. Third—I would also provide that no corporations formed pursuant to this act or so licensed shall have power to use its surplus for any purpose other than for the transaction of its business for which it was organized, but not to prohibit it from depositing its money in banks, subject to check, as ordinary deposits are made. It is common knowledge that these trusts amass great sums of money as surplus. They can, through these vast sums, control the banking business, the circulating medium through which the people of this country must do business. Such concentration of wealth in a few hands is a danger to the people. It is dangerous to have a corporation with a great surplus to create a panic or to unduly raise or depress the price of securities. The circulating medium of the country on which every one must do business, should not be subject to the whim or caprice of the few. The people should know that they are prohibited from using other moneys through stock ownership for any of these purposes, or from controlling railway transportation lines, financial institutions or other industries. I deem this one of the most important features of a federal incorporation and a federal license.
