In the British Imperial conferences Sir Wilfrid has narrowly escaped reaching the attitude of a rebel. He has told the representatives of the United Kingdom to their faces that their policy for selfish aggrandizement would not be swallowed by Canada. All arrangements must be mutual, and not for the especial benefit of the mother country. The so-called imperialist element, Conservatives by name, have really opposed more for merely political preferment and possibility than for objection to the views of the late premier. To some extent the spirit of andlordism and title which has made for the Irish warfare has pervaded the dominion. Bir Wilfrid has been offered the badge of peerage, but it did not catch his fancy for a moment.
