Wash your clothes with GOLD DUST

Good soap washes clothes well-if you use enough elbow grease, but Gold Dust washes them more thoroughly—and with little or no rubbing. Gold Dust saves half your time, and spares your sage and Sulphur poor back.

Another great advantage of Gold Dust—use any kind of water you like. Gold Dust softens the hardest water, and makes it soft as rain water.

Gold Dust is just a vegetable-oil soap in powdered form, with other cleansing ingredients added to make it work more thoroughly and quickly than soap ever can.

Just try Gold Dust next wash-day, and see how much time you save.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

This New Model Is Now Here

The new model Chalmers "30," the big bargain of the 1912 season, has arrived and is now in our sales room for your inspection

The Chalmers "30" was the first real automobile offered to the public at a medium price. It set a standard in automobile value four years ago, and is still a leader. It has always been a standard by which other cars were judged.

It is the car of the most advanced design; a car that has been more widely copied than any other. It has a grace of line and finish not excelled in the costlicst cars; it has given satisfactory service to 15,000 owners; it is backed by an absolute guarantee for one year.

Each season the Chalmers "30" has been greatly increased in value without increasing the price. This season we have more to offer, both in quality and price, than ever before.

Last year this car sold for \$1750, equipped with magneto, gas lamps, top and windshield. Think of it this year-improved in every possible way with thoroughly ventilated fore-door bodies, inside control, magneto, gas lamps, Presto-O-Light tank, and including also Chalmers Mohair top and automatic windshield-for \$1500!

We ask you to inspect this new 1912 model.

Comparison has sold more Chalmers cars than all of our advertising. We think you will agree that claims are unnecessary in view of such value at such a price.

We can begin deliveries of this model at once.

La Follette

further says:

"We have long rested comfortably in this country upon the assumption, that because our form of government was democratic, it was, therefore, automatically producing democratic results.

"Now, there is nothing mysteriously potent about the forms and names of democratic institutions that should make them self-operative. Tyranny and oppression are just as possible under democratic forms as any other. It is only as those of every generation who love democracy resist with all their might the encroachment of its enemies, that the ideals of representative government can even be nearly approximated."
