Review of Operations on Stock Exchange During the Day. NEW YORK, Sept. 3.-A strong tona revalled throughout the morning session

NEW YORA, Sept. 25-A shows the prevailed throughout the morning session on the stock exchange. Gains were rapid, but the advance was orderly and there was an absence of yesterciay's disquieting fuctuations. The financial district was flooded with rumors to the effect that some sort of a statement reassuring the corporate interests of the country would eliminate from the administration sources before long. This induced considerable short covering and no little speculative buying of steel. In the second hour there was a frantic scramble by the shorts to cover and buil forces operated with growing confidence. Virtually every stock of moderate activity rose from 2 to 2% and with Reading showing a rise of 3 points. United States Steel 3%. American Smelting 2% and Union Pacific, 3%. Bonds were firm. Wabash 45 sold at 54, compared with 51%, yesterday's discussion.

STOCKS AND BONDS.

dile, 3%, Bonds were firm. Wabash 4% sold at 54, compared with 51%, yesterday's cleaing. With a much smaller volume of trading the stock market moved in an irregular manner at the opening today. The specu-lative leaders developed considerable strength. United States Steel opened with a block of 7,500 at 56% to 57, compared with yesterday's close of 56% and in the first few minutes of trading it rose to 57%. The preferred stock gained §4. Union Pacific advanced 2 and Reading, St. Faul, Amaigamated Copper, Northern Pacific and American Smelting 1. Lehigh Valley, which sold 1% below yesterday's close, made a net gain of %. Western Maryland lost a point and Southern Pacific 3%. The market showed a great deal of ir-regularity. This was due to wide swings, on professional operations rather than 56%. Such nervousness as existed yesterday. Following the brisk rise after the opening the market sake back to the extent of a point in St. Paul, Lehigh Valley, Union Pacific and Amaigamated Copper, Then another heavy demand set in, which car-ried the whole list higher than before. United States Steel reached 58% and grains of 1 to 1% were general in other important stocks. The Gould issues moved in a hesitating way and there was persistent pressure against the Wabash stocks. The common fell to 16%, a new low record, af-ter opening % higher at 11% and the pre-ferred went down to 20%. The could issues moved in a hesitating the brisk in Reading and American Smelting. Improvement else-where ran to about 3 points in many cases, including St. Paul and Lehigh Val-ity.

ley. Number of sales and leading quotations on stocks were as follows: Sries Hist, Low.
