

Sampack Clothes Fit Any Man

Too many clothes builders, in an effort to give their clothes a fashion-plate perfection, design models which look well only on the broad-shouldered athletic fellows. Sampack clothes are made to fit these men and also those less favored by nature; the original, distinctive style is always in evidence.

You'll need to slip into a Sampack suit to realize what a personal advantage such finely tailored clothes are.

Models for young men who keep pace with the new wrinkles, others for more conservative men. A big variety of fabrics and colors.

Reply of Turkey.

CONSTANTINOPLE, Sept. 29.—The Turkish reply to the ultimatum of Italy, which demanded assurances that there will be no resistance to the Italian military occupation of Tripoli and Cyrene, was communicated to the Italian chargé, Signore Di Matina, at 6:30 o'clock this morning.

The message was couched in friendly terms and expressed surprise at the action of Italy in view of the cordial relations existing between the two countries. It pointed out that Italian interests in Tripoli had not been threatened and expressed the hope that Italy would desist from its contemplated measures. Assurances were given as to Turkey's desire for a settlement of the matters pending between the two governments.

The reply also stated that Italian subjects in Ottoman territory were exposed to no danger, as the authorities afforded them protection and added that Turkish military measures had been suspended during the period of negotiations for a settlement of difficulties.

The reply was determined on at a cabinet council which continued at the palace from late yesterday until early today.

Upon receipt of the communication the Italian chargé immediately telegraphed it to Rome. The impression in diplomatic circles is that the note will not be satisfactory to Italy.

The Turkish squadron has left Beirut and is returning to Constantinople. Every precaution has been taken to preserve order in the capital and throughout the provinces.

The government has decided to enforce martial law in Constantinople. The population was quiet this morning.

The weakness of the present government is unfortunate in such a crisis and a change of ministry is believed to be imminent. It is probable that former Grand Vizier Said Pasha will be made grand vizier in succession to Hakkı Bey.

It is announced that most of the youths of the empire are volunteering for war against Italy.

Blockade of Tripoli Ordered. CHILMARK, Switzerland, Sept. 29.—On the Italian frontier (Tripoli)—The Italian fleet has been ordered to maintain a close blockade of the Tripolitan coast and prevent even by force the landing of further reinforcements.

Secret instructions have been given for the strategic distribution of ships along the Albanian, Macedonian and Syrian coasts the moment action is begun, to prevent any attempt by Turkey to attack the Italian coast through privateers, which would be easy from the Albanian coast, which is on the opposite side of the Adriatic sea and is but a few hours sail from the Italian coast, which is quite undefended.

The ships have been instructed so to defend not Italians, but all foreigners on Ottoman territory, landing forces if necessary or taking fugitives aboard.

The expedition consists of a complete army corps, which will be used in its entirety if necessary. It will be commanded by General Caneva, who has formed his staff with General Roccollo and General Pocer, each in command of a division, and with General Gastaldello of the general staff.

His instructions are that the occupation of Tripoli and Cyrene shall be conducted at the least possible delay, but with precautions to avoid both foreign complications and unnecessary bloodshed.

Admiral Aubrey, in command of the Italian vessels in the waters of Tripoli.

have been instructed when the order to begin occupation is issued to embark immediately the few Italians who may be left there and any foreigners wishing to leave. These, it is thought, will amount to about 100.

In several places in Italy vandalism continues.

Late reports describe the rioting at Langhirano as more serious than first appeared.

Carabinieri who attempted to disperse the rioters after being stoned and wounded, fired into the mob, killing five persons and wounding twelve others. Among the dead was a woman. The rioters fled, but soon afterwards gathered again and surrounded the barracks determined to burn the place and loy the carabinieri. Reinforcements of troops were ordered.

Albanians ready to revolt.

The expressed wish of the Italian government that the Tripoli affair shall not be taken as an opportunity to create trouble in other Ottoman provinces appears likely to meet with disappointment.

The Albanians consider this an excellent moment for another uprising and have addressed General Bisciolini Garibaldi, the son of the Italian hero, asking him to organize an expedition of volunteers commanded by himself or his son, Colonel Giuseppe Garibaldi, who figured in the recent Mexican insurrection. The general Garibaldi does not think the situation propitious for a rebellion against Turkish authority, owing to the cold and the snow in the Albanian mountains.

The trouble between Turkey and Italy which culminated this afternoon in a declaration of war at Rome dates back to 1878, when with the making of the treaty concluding the Russo-Turkish war the powers are understood to have agreed to permit Italy a "peaceful penetration of Tripoli." Turkey claims that this right has been respected ever since. Italy has colonized Tripoli until its interests in that African province are very great. It has asserted, however, that its subjects have been mistreated by the Ottoman authorities and constantly discriminated against.

Turkish Bonds Lower.

LONDON, Sept. 29.—The stock market was depressed today on reports that Turkey would resist the Italian proposed occupation of Tripoli. Turkish bonds fell four points and Italian securities one point at the opening, while American shares opened from 1/4 to 1/2 lower in sympathy. At noon the tone was weak, with prices from 1/4 to 1/2 points below yesterday's New York closing.

Arabs Take Oath to Fight.

TRIPOLI, Sept. 29.—This city, which is threatened with a hostile occupation, was desolate early this morning. Nearly all of the Europeans left last night.

The Arabs have taken a solemn oath of unity and allegiance to the Turkish flag "in the approaching blood."

The Turkish transport Darma has discharged 2,000 tons of munitions, stores and 11,900 Mauser rifles. Four hundred and fifty camels were used in moving these supplies to the interior.

being followed by Italy in practically beginning hostilities without waiting to its powerful opponent and thereby secured a tremendous advantage from a naval point of view by preventing the consolidation of the two sections of the Russian fleet, which were lying in the harbor of Port Arthur and Chemulpo, Korea. Most of the small Turkish fleet is off the Syrian coast at the extreme eastern end of the Mediterranean, and Italy's declaration today is believed to be with the deliberate purpose of securing warrant under international law for an attack on that fleet before it can make its escape and find refuge in the Bosphorus under shelter of powerful shore defenses. Such a move would leave Italy plenty of leisure to deal with the comparatively small Turkish military force in Tripoli prevent any reinforcements reaching that country from Turkey by water.

It is said at the state department that there can be no objection by this government to the course adopted by Italy in this instance so long as there is no undue interference with American commerce or other interests.

BELLEVILLE, L. I., Sept. 29.—The Turkish Ambassador, Zia Pasha, expressed astonishment when informed at his summer home this afternoon that Italy had declared a state of war between Italy and Turkey.

Zia Pasha said: "I am deeply pained to learn that Italy has declared war upon my country. Turkey has done everything to avoid war, but now that war has come, you may rest assured that Turkey will do its duty."

ORDER SHOPMEN TO STRIKE TODAY

(Continued from Page One.)

On the Missouri, Kansas & Texas union men say over 2,000 men are out.

Orders to Blacksmiths and Carriers.

KANSAS CITY, Sept. 29.—Following a conference here today between Presidents A. Franklin and J. P. Ryan, of the Blacksmiths' and Carriers' unions, respectively, the two men set out strike orders to the members of their unions this afternoon. About 10,000 carmen and 5,000 boiler makers are affected by the orders.

According to President Franklin, non-union workers are now being employed to take the places of the organized men. "A cartload of them was shipped out of here last week," he said. "There were thirty in the party. Only one was a skilled mechanic and he was one of our men. Strike breakers are also being sent out of Chicago. But in every party there are several of our members. Thus we know exactly what class of workmen and how many the railroads are employing."

While the strike involves many men and probably will run well into the winter, says President Ryan, he feels that there was no other action for the unions to take.

"The time has come when we had to take some action regarding the recognition of our federation," he said.

"The big fight over that point had to come some time and now is as good as any."

"I haven't the slightest idea how long this strike will last, but I do know that we shall not return to the shops until our fight is won. We are prepared to pay a strike benefit of \$1 a week to each of our men for a period of seven months. If the railroads can stand it longer than that so can we."

"We feel assured of ultimate success in the present struggle because of the large majority of competent workers being members of our organization. Doubtless the railroads can obtain some strike breakers, but the work they can do is limited. When the equipment of the roads begins to show the effects of being repaired by inexperienced hands, the railroads heads doubtless will think more about considering the demands of our men."

OFFICIALS EXPECT A STRIKE

Union Pacific Has Been Preparing for the Event for Some Time.

At noon Friday local Union Pacific officials were apprised of the fact that in Davenport, Ia., the Association of Machinists there in session, through their executive officers had, taken a vote and had ordered that a strike of the shopmen at all points on the Harriman line and on the Illinois Central be declared and that the walkout would occur at 10 o'clock Saturday morning.

HAVE YOU WORN The LANTERN Hat If Not Why Not?

might be expected. They say that during the past few weeks, in anticipation of a strike, nearly every engine on the system has been run through the shops and put in perfect condition. This has been done to such an extent that at the present time, almost 200 freight and passenger engines are parked and ready to go into service at a minute's notice. The same is true of the other equipment. The passenger and freight cars have been put through the shops.

Insist on Recognition.

So far as the Harriman line are concerned, all parties, both employes and employers, admit that the question of wages and hours are not involved. Everything hinges on whether or not the company shall officially recognize the federated union of shopmen. The company officials declare and insist that they will not, while the men are equally as firm in insisting that there must be recognition.

While the Union Pacific officials refuse to be quoted, it is known that they have already taken steps to fill the places of the men within thirty-six hours after the strike is officially declared and the workmen walk out. Already the old car shops north of the Cam street gate have been arranged for conversion into a lodging and boarding house. Chairs, cots, tables, stoves and furniture have been moved in and provision has been made for housing some hundred men. The same thing has been done at Grand Island and other points on the system where shops are maintained, though to a more limited extent.

In Chicago, St. Louis, Cleveland, Pittsburgh and in many other places through the east and south large numbers of mechanics of various classes have been gathered together, ready to be shipped to Omaha and other points on the Harriman line almost immediately upon the declaration of the strike.

MISS CORA BARNES KILLED BY FALL FROM WINDOW

NEW YORK, Sept. 29.—Miss Cora Barnes, stepdaughter of William H. Bliss, a well known New York lawyer, formerly United States district attorney at St. Louis, and vice president of the St. Paul & Duluth railroad, was instantly killed today by falling from a third story window of her residence. Her relatives refused to comment on the police report that she committed suicide. Miss Barnes was an invalid and 24 years old.

Farmers' Institute at Harlan.

HARLAN, Ia., Sept. 29.—(Special.)—About 500 people attended the annual Farmers' institute held in this city yesterday. Hon. Lafe Young of Des Moines was the speaker of the day. He gave a heart-to-heart talk to the farmers and urged upon them the necessity of intensive rather than extensive farming. He also urged the retired farmer to spend more of his money in Iowa and less of it in California or wherever he spends the winter. A coat show was an important feature, there being about fifty coats shown. H. O. Wyland won first premium and Ralph Miller second. Prizes were also given for the best specimens of the domestic arts.

Auto Upsets at Newton.

MARSHALLTOWN, Ia., Sept. 29.—(Special.)—Hardy Friend, an amateur racing car driver, was badly injured and his car wrecked at Newton today while driving in a five-mile race on a half mile track. While making a turn he lost control and the car dashed through a fence and leaping into the air turned over. Friend was thrown free of the car when it turned turtle.

Scratch of Barb is Fatal.

IDA GROVE, Ia., Sept. 29.—(Special.)—Adolph Stricker, a resident of Douglas township, Ida county, since 1865, died as the result of a scratch made by barbed wire. He thought nothing of the scratch for a day or two after it happened, but his arm suddenly swelled and the pain became terrible. He died within twenty-four hours after being taken to the hospital at Holstein.

The Clothes Sold at this Store Are Different

FEW RETAILERS OF MEN'S APPAREL OBTAIN THEIR COSTLIEST GARMENTS FROM THE SAME MANUFACTURER WHO PRODUCES THEIR CHEAPER ONES. THE MAKER OF THE LOWER GRADES HAS DEFINED HIS OWN LIMITATIONS—FOUND THE LEVEL OF HIS CAPABILITIES, AND WHEN HE ESSAYS THE MAKING OF FINE GARMENTS HE MAKES A FAILURE OF THEM.

But the drawing of this very distinction by most clothes shops exposes one of their chief weaknesses—an indiscriminate stock gathered from several, sometimes many, sources and representing no fixed standard.

Here's What Makes Browning, King & Co.'s Clothes Different

In our own shops our own designers and tailors produce all the garments we sell. As to modeling and making the \$12.00 suit or Overcoat receives the same jealous care and skillful handling bestowed upon the \$40.00 suit or Overcoat; according to the plainness or luxury of material the prices are fixed. But the same characteristic tailoring is apparent in all.

Fall Suits and Overcoats for Men and Young Men \$15.00 to \$50.00. Ready for Service

Mothers, Attention

We are selling the best School Suits for boys in Omaha. They are made up in all woad chevots in double breasted and Norfolk styles and have two pairs of Knickerbockers full lined and full Pag Top.

The Tailoring in these suits is given the same careful attention that the more expensive ones receive—and have that individuality to be found only in Browning King & Co. clothes.

The price is Seven Dollars and a half, including the extra pair of Knickerbockers.

Oscar Straus Suggests Mediation Under The Hague Convention.

NEW YORK, Sept. 29.—The former American ambassador to Turkey, Oscar C. Straus, today sent a telegram to Secretary Knox at Washington, urging the United States should exercise its right under the convention for the settlement of international disputes to preserve peace and prevent a possible state of war between the Mohammedan and Christian nations of the world.

Mr. Straus in his telegram says in part: "The approaching clash of arms between Italy and Turkey far transcends the interest of two powers involved. The consequences of Italy's precipitate action cannot but have the most serious results as a precedent for similar aggressions by other powers."

"The United States has contributed foremost among the nations in the conclusion of the convention for the pacific settlement of international disputes."

"I am sure I am voicing the peaceful sentiments, not only of Americans, but of all nations, in calling upon our government to promptly offer its offices of mediation, which is ever ready and which the convention expressly provides shall not be regarded as an unfriendly act."

"Wasteful rights, politically or otherwise, Italy may justly lay claim to in Tripoli certainly can be secured without bloodshed and with justice by substituting them to The Hague tribunal."
