TAFT TALKS OF IOWA TRIP

President Says His Reception Was Cordial and Pleading.

VISITS MISSOURI STATE FAIR

Takes Breakfast with Directors at Club House and Inspects Exhibit of Mules—Plays Golf with Hadley.

SEDALIA, Mo., Sept. 30.—President Taft swung back into Missouri again today to become the guest of the Missouri State fair. He left Iowa behind and in discussing his trip through that state the president declared his reception was most cordial and pleasing.

"I am glad I went to Iowa," he said. "I had no fear that my reception would not be cordial. Some, however, not Iowans, had suggested otherwise. Perhaps the wish was father to the thought at any rate I wish to testify my gratitude to the governor, to the state officers, to the congressmen of Iowa and to the senators for their very cordial reception of me without regard to the question whether they agreed with me in politics or not, and I want say the same thing about the people who turned out. I believe they have learned something that I had in my heart to tell them and I guess it has not done them any harm."

Explaining his western trip, President Taft said that while many persons thought that a president should keep to the White House in Washington and while he realized the force of this argument it was pretty hard to sit at the seat of government with a strong feeling in your breast of a desire for expression of a character that shall not be denunciatory, that shall not be partisan in form, but merely in a quasi-judicial way to state your reasons for your action. He believed it helped to clarify the situation to get out into the country and express his convictions.

On this trip, the president said he did not wish to appear as a partisan president.

President of Whole Country.

"I do not want to lose the character of president of the entire country," he said. "I think a president can act with respect to a great many issues in such a way as to convince those who are his opponents in politics that he is striving to act as fairly as he can in all matters that do not involve party principles for the benefit of the whole country."

The program for the president's stay here gave him an opportunity to play a few holes of golf with Governor Hadley, the first game he has had since he left Beverly two weeks ago. He will take luncheon at the club house with Governor Hadley and the State Board of Agriculture and dinner at the Country club.

Tonight the president leaves for Omaha and the far west. As the president's train pulled into the state fair grounds he was met by an aviator flying a biplane who led the way.

Breakfast at Fair Grounds.

President Taft's train arrived here at 10 this morning. The president's train was transferred directly to the state fair grounds, where the chief executive and party were met by a delegation of citizens and conveyed to the directors' club house on the grounds for breakfast. The breakfast was served by fourteen young women of Sedalia especially designated by the reception committee.

After breakfast the presidential party went to the live stock pavilion on the fair grounds, where the president delivered an address.

Contract for New Church.

ORD, Neb., Sept. 30.—(Special).—The Methodists have let a contract for a new church which when completed will cost approximately \$34,000. Soucey & Besh of College View are the successful bidders for the main building, at \$17,995. The new church will have a seating capacity of 750 in the main auditorium.

A Skin Tightener To Reduce Wrinkles

(From Popular Medicine.)

In beauty culture, as in the treatment of disease, the tendency nowadays is to seek the removal of causes, rather than to treat symptoms or effects. In the matter of wrinkles, for instance, we know that the lines or furrows are caused by the skin becoming loose in places, so it does not perfectly fit the flesh beneath. The skin then "wrinkles" or sags. Naturally the proper thing to do is to tighten the skin—make it fit—then there's no room for lines, wrinkles and folds, and no surplus skin to sag or bag.

The best known formula for the purpose is: Salicylic, 1 oz. in 1/2 pint weak hazel. Use as a wash lotion. The effect is truly remarkable, especially as results are immediate. Ask the druggist for the powdered salicylic, which dissolves more quickly than any other form.—Adv.

NEBRASKA CITY NEWS NOTES

Frank Gorty, Who Tried to Kill His Wife Three Weeks Ago, Is in Jail.

NEBRASKA CITY, Sept. 30.—(Special).—Frank Gorty, who three weeks ago shot his wife through the right breast and attempted to kill himself by sticking forks in his left breast, has been arraigned before Judge Wilson and the hearing of his case set for October 3.

He could not give the \$3,000 bail demanded by the court and was remanded to jail. His wife is recovering.

The suit filed in the district court by Taylor McGuire, custodian of the South Third Street church, against a new trustee named Alexander and the trustee, has been settled and dismissed. The minister gave up the fight trying to hold meetings outside of the church so as to not violate the injunction secured against him and others.

Yesterday afternoon at the home of Mrs. H. H. Fass occurred the marriage of Ernest Hill and Miss Emma Gray in the presence of a large number of relatives and friends. The bride is one of the most popular young women of this city and the groom the leading plumber. They have gone on a short wedding trip and on their return will occupy a handsome residence belonging to the groom on Third avenue and Seventeenth street.

This city is suffering from a shortage of sand for building purposes. It has all grown out of a law suit between the parties owning the dredge boat which is used to dredge sand and bank it. A large amount of cement work and buildings are awaiting the outcome of the suit.

The officers of Queen Esther chapter No. 1, Order of the Eastern Star, accompanied by a large number of the members of the chapter of this city went to Dunbar last evening to institute a new chapter of that order and install the officers. They were charmingly entertained by the people of that place and the labors of the evening was followed by a banquet.

Lawrence Leitch, who was arrested here about August 1, was taken before Judge Travis and pleaded to the charge of adultery and was given a sentence of sixty days in the county jail.

Green Gables Sanatorium

DR. BEN F. BAILEY.

This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet entirely distinct and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of noncontagious and mental diseases, no others being admitted. The other Rest being designed for and devoted to the curative treatment of mental cases, requiring the watchful care and supervision.

MILITIAMEN WADE IN MUD

Camp Mickey Soaked and Soldiers Lads Driven to Tents.

GOVERNOR COMING WEDNESDAY

Guardsmen Influxed with Carnival Spirit and Some Stay on Highway Until Wee Ems' of the Morning.

Camp Mickey was converted into a bog-plain by the rain Saturday. All maneuvers for the afternoon were abandoned and the guardsmen retired to their tents, pulled down the flaps and rolled into their blankets in an effort to drift but the chill following the rain of the forenoon, which came while they were in company drill.

The enforced idleness resulted in no disorder and while sheets of rain battered against the canvas of the tents and water flowed in muddy streams down the company streets, the first and second regimental bands struck up a patriotic tune and the imprisoned guardsmen beat a refrain on the property boxes in the tents. A heavy fog and thick smoke from the incinerators hung over the encampment and while the rain fell the only stir of life about the field was that of the slow-pacing pickets draped in their ponchos.

Arrangements are being made by the commanding officers of camp Mickey to transport the two regiments by rail to Omaha Thursday to take part in the big Ak-Sar-Ben military parade. Ten miles is considered too long a hike, before a strenuous parade, but if arrangements for transportation cannot be satisfactorily made, the militiamen will be morning.

Governor Coming Wednesday.

A letter from Governor Aldrich's secretary has been received at brigade headquarters saying the governor will arrive at Camp Mickey at 10 o'clock Wednesday morning and expects to spend the night in camp, leaving early Thursday morning. A rivalry sprang up among the commanding officers for the honor of entertaining the governor. It is probable he will spend the night in Major Artley's tent.

Friday night a bunch went to the Ak-Sar-Ben carnival and become so interested they forgot to return on time. In the wee sma' hours they arrived in camp and started a wild song. Guards halted them

and the officer in charge said:

"We have orders to let you fellows back in camp without arresting you, providing you will make no noise when you go in."

The carnival visitors waited the quarter-mile to camp on tiptoe and were afraid to speak even in a whisper.

A member of Company I, Second regiment, became infected with the carnival fever and made a break for liberty. He circled through cornfields and mud holes and finally brought up at the car track, where he waited patiently for the next car, which was due in exactly one hour.

A patrol was sent out from his company and in less than an hour had located the runaway. He sprinted with all the energy left in him, but was caught and taken back to camp and placed in the guard house.

Own Some Buckin' Bronchos.

When not on duty it becomes almost imperative for the guardsmen to keep busy and with this aim in view the commanding officers have given them permission to play ball, hold wrestling matches and boxing bouts. This has resulted in numerous challenges and several claims to camp championship. A five-round bout was held Friday evening and one of the contestants was knocked out with a terrible solar plexus punch. Since then the victor has made wide and sweeping challenges to both regiments, but his challenges have not been accepted, although there are some sparks from many quarters that several promising ring champions are training for him and in time "get his goat." Each company supports a well trained ball team and several contests have been scheduled for the coming week.

Among the thirty-five bronchos at the camp stables are a few bad ones. Major H. H. Antles asserts he had one of the worst. While parading before both regiments Saturday, the major's mount became so mean that he suddenly rolled up and it was no longer comfortable to remain on his back and the major forthwith vacated. The earth rose up to meet him, but he was uninjured.

The incident preyed upon Bishop Beecher's mind and when they led a meek-looking animal to his tent an old maid it was his horse he said nothing, but mounted the beast and rode away. He had gone scarcely a dozen yards when the broncho displayed signs of rebellion and thereupon the bishop dismounted. During the last of the maneuvers he led the horse.

In addition to the regular program Sunday, which will include a few drills, church services will be held. Rev. Philip G. Snow of Kearney and Rev. Sisson of Fremont will conduct the devotional and may be assisted by Bishop Beecher. Attendance at the religious services are not compulsory, but usually the entire camp attends.

Are You Succumbing To Catarrh?
You realize how catarrh is weakening your entire system and gradually getting a stronger hold? You can't think of neglecting this dread germ disease when you consider the grave results. You must arrest its action at once and begin its ultimate cure.
There is a preparation that has been on the market for years and is endorsed by thousands to whom it has brought benefit. It is called KONDON'S CATARRHAL JELLY; it is put up in small, convenient tubes, and is a wonderful sort of "stitch in time" for all Catarrhal dangers. It soothes irritated membranes and acts as a germicide to the invidious Catarrhal microbe.
Because it is not stopped where it begins—in the head—it "settles" in the vital organs, cleansing the system, stopping the circulation and admitting the poisons of fever, with all sorts of dread possibilities. A slight "drumming" in the ears may be incipient deafness, and many a good voice has been permanently lost through a neglected Catarrh.
KONDON'S CATARRHAL JELLY heels raw, inflamed surfaces, and one application will encourage its permanent use in the home. It is the best druggist, at 25 and 50 cents, but if your druggist is not now supplied, the KONDON APPO. CO. of Minneapolis, Minn., invite you to write and ask for their sample. It is free, and it may be just the simple "cure of prevention" that your headache or pain in the head, your Asthma or bad throat needs.
