#### REVIEW OF TRADE Death Takes Patient

Immediate Requirements So Large Business is Good.

STEEL CONSUMPTION IS LARGE

Nothing in Industrial Situation t Correspond with Commotion Recently Prevailing in Financial Markets.

NEW YORK, Sept. 39 .- Dun's Review

NEW YORK, Sept. 30.—Dun's Review today says:

There is nothing in the industrial and mercantile situation to correspond with the commution recently prevaining in the financial markets. While conservatism is the rule in all branches of trade and industry, supplies in nearly every line are see narrow, and immediate requirements of a constantly increasing number of consumers are so large, that the volume of business is very extensive. Buying of iron and steel products is confined to pressing needs, yet consumption is not much below maximum. In the Pittsburgh district concessions on open hearth billets and sheet bars bring quotations down to \$13.00 and \$19.50, respectively. In the rail division as inquiry for 30.000 tons of beasmer rails is reported. A contract for 10.000 tons for the Chilean state railways also is reported. Among the plate milis, however, quieter conditions prevail, with orders from car and locomotive works diminishing. In pig iron there is little activity, buyers apparently holding off until next year's price basis is determined.

Trade slowly improves in footwear. Orders placed by Jobbers centinue for small qualities, but they are numerous and in the aggregate satisfactory. Buying of spring goods is not active. Better conditions prevail in leather. Total sales of spring goods is not active. Better conditions prevail in leather. Total sales of spring goods is not active. Better conditions prevail in leather. BRADSTREET'S TRADE REVIEW

Buying from Jobbing and Wholesale Dealers Relatively Steady.

NEW YORK, Bept. 30.—Bradstreet's today says:

Buying from jobbers and wholesale
dealers continues relatively steady and
this week's reports indicate that recently
reflected comparative improvement has
been maintained. The larger centers indicate that road and house sales are better in several lines, and that domand for
staple dry goods, groceries, clothing and
shoes is gradually extending.

Buying of cotton goods has been helped
by lower prices. The trend thus indicated obviously suggests that buying is
late and incidentally, what might be
termed spot business accompanied as it
is by calls for prompt shipment, is admittedly larger than business booked for
future delivery.
