braskans celebrate their state. How many of the Busy Bees know what Ak-Sar-Ben means? In the first place, the name Ak-Sar-Ben is Nebraska spelled backward.

It is the name of an organization of the business men of Omaha, and the state banded together to promote the interests of Omaha and the state. These business men are called Knights of Ak-Sar-Ben, because they are fighting to protect the honor and maintain the prosperity of Nebraska.

The colors of Ak-Sar-Ben-red, green and yellow-each stand for something for which the state is noted. Red is for beef, since Omaha is one of the largest packing centers in the United States. Green is for alfalfa, which grows in Nebraska fields. Yelow is for corn, which is the most abundant product of the state. The motto of Ak-Sar-Ben is, "We Grow."

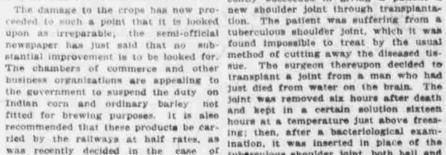

This week's festival is the seventeenth autumn celebration which has been held in Omaha. People from many towns in the state are coming to Omaha for the street fair, the parades and for the ball, at which a king and queen will be crowned.

HIS is the week when all Nebraska children should feel especially interested in the fact that they are sons and daughters of Nebraska. For this is Ak-Sar-Ben week, when all loyal Ne-

Just now the government is occupied with a bill for the reform of judicial procedure, which is in part designed to check excessive litigation

One cause for the pressure of work at the courts is to be found in the fact that mayors of cities and police officials have no Judicial functions in Germany. Litigation is also encouraged by the reasonablaness of lawyers' charges, as well as by the costs collected by the courts them selves. Are any of the out-of-town Busy Bees coming to Omaha for the Ak-Sar-Ben festivities? If so, let us have some letters from them telling of their experiences. Letters from the Omaha Busy Bees giving their ideas on Ak-Sar-Ben would also be interesting.

Today the prizes for the best letters to the Children's page go to Bessie Davidson, a Busy Bee who lives out in Washington state, and to Elizabeth Ransom of Omaha.

her; but she does not like that. My sister will run races with it, but it nearly always will knock her down when she gets in front of it. It will scare the chickens and eat peaches, too. It will run on the porch so fast. It is on the porch now, grunting because my sister is trying to lift it, but it won't let her. There are quite a few things children can do in the country.

As there is no fruit out here, we use wild fruit. I was up at the White river twice. The first time all of us went except two. We went up there to get some buffalo berries. It is about fifteen miles, We started at 6:30 and got up there at 10:30. We took our dinner with us. When we got up there we unhitched, fed the horses and started to pick berries. We soon found some berries. After we picked some berries we found some wild grapes, then we started to pick them instead. We picked a tub full and then we ate dinner. After dinner we picked berries.
