RAIN HALTS GAME IN EIGHTH

Only One Game of Scheduled Double-Header Played Because of Wet Field-Schaller Leads with But.

KANBAS CITY, Sept. 30 .- Kansas City defeated Minneapolis by batting hard in the seventh and eighth innings. Cravath's home run was a feature. The game was called on account of rain at the end of the eighth inning. A double-header was scheduled, but the rain prevented it.

## California Meet in Large Numbers

NEW YORK, Sept. 30 .- Possibly be cause the Vanderbilt and Grand Prize races will not be held until November. and then over an automobile course in Georgia, California's road meeting this autumn will be unusually important. Eastern entries for the event at Santa Monica are heavy, and from all indications big fields roll up to the starting line in the four classes that will be raced. Fred J. Wagner, starter of the American Automobile association and collector of Mrs. Grier is Hurt country, says that he is ready to deliver the entries of many easterners. On Octo ber 1 he will leave for California to help with the final arrangements of the race, which is to be held thirteen days later. Among the cars that have already been nominated through Wagner are these; Two Fiats, two Mercers, two Coles, two Buicks, two Cadillacs, a number of Marmons, Nationals and Pope-Hartfords, Lozier, Alco, Abbott-Detroit, Maxwell, Flanders, E. M. F., Lexington, Stutz, Paige-Detroit, Regal and Midland. The

drivers of these machines have yet to be named, but it is known that Teddy Terry laff, who last year broke the world's stock car record, driving a Lozier, will again be at the wheel of the machine.

The western entries have not been received in the east, but they have beed so heavy that the small-car contests have had to be increased. Instead of three events there will be four. Cars of 231 cubic inches piston dispiscement and under, will race 100 miles; 221 to 800, 150 miles; 201 to 450, 250 miles, and the freefor-all cars, 300 miles. The same course over which the race was held last year will be used. It will be improved, however, by widening and laying a road dressing conducive to greater speed
